## Roots Of Evil:

The Roots of Evil Ervin Staub, 1992-07-31 How can human beings kill or brutalise multitudes of other human beings Focusing particularly on genocide Erwin Staub explores the psychology of group aggression He sketches a conceptual framework for the many influences on one group's desire to harm another and within this framework considers four historical examples of genocide

The Roots of Evil Christopher Hibbert, 1963

**The Roots of Evil** John Kekes, 2014-01-17 Evil is the most serious of our moral problems All over the world cruelty greed prejudice and fanaticism ruin the lives of countless victims Outrage provokes outrage Millions nurture seething hatred of real or imagined enemies revealing savage and destructive tendencies in human nature Understanding this challenges our optimistic illusions about the effectiveness of reason and morality in bettering human lives But abandoning these illusions is vitally important because they are obstacles to countering the threat of evil The aim of this book is to explain why people act in these ways and what can be done about it

John Kekes The first part of this book is a detailed discussion of six horrible cases of evil the Albigensian Crusade of about 1210 Robespierre's Terror of 1793-94 Franz Stangl who commanded a Nazi death camp in 1943-44 the 1969 murders committed by Charles Manson and his family the dirty war conducted by the Argentinean military dictatorship of the late 1970s and the activities of a psychopath named John Allen who recorded reminiscences in 1975 John Kekes includes these examples not out of sensationalism but rather to underline the need to hold vividly in our minds just what evil is The second part shows why in Kekes's view explanations of evil inspired by Christianity and the Enlightenment fail to account for these cases and then provides an original explanation of evil in general and of these instances of it in particular

Religion and Revelation after Auschwitz Balázs M. Mezei, 2013-04-11 Religion After Auschwitz is a philosophical approach to the notion of revelation Following such authors as A Dulles R Swinburne or K Ward Balazs Mezei investigates some of the main problems of revelation and connects them to the general problem of religion today Religion is considered in the perspective of the age after Auschwitz an expression coined by Hans Jonas and further elaborated by J B Metz Mezei develops the insights of these philosophers and investigates various aspects of religion and revelation after Auschwitz contemporary theistic philosophy phenomenology art mysticism and the question of university education today A fascinating amalgam of subjects and approaches Religion and Revelation After Auschwitz is an important contribution to contemporary discussions on the possibility of Catholic philosophy

**The Self-Help Book** B.J. *Human Rights* Darren O'Byrne,2014-06-06 Human Rights An Introduction is an important text that provides a comprehensive overview of human rights and related issues from a social science perspective First this book does more than discuss theory it uses case studies and personal testimonies in the debate Human rights as an area of academic interest cannot be easily divorced from human rights struggles and the reality of contemporary conditions Second the book is aimed at what is an emerging and growing cross disciplinary field of study Human rights issues are increasingly coming to the fore in a number of academic debates Whereas the study of human rights has traditionally been included in departments of law international relations and philosophy a number of courses are now being set up in departments of sociology and anthropology Consequently there is an increasing need to bring these disparate approaches together **Roots of Evil**

Carlos Cassaba,1976-01-01 *Broken Hegemonies* Reiner Sch 1 4rmann,2003-10-29 a book of striking originality and depth a brilliant and quite new interpretation of the nature and history of philosophy John Sallis In *Broken Hegemonies* the late distinguished philosopher Reiner Sch 1 4rmann offers a radical rethinking of the history of Western philosophy from the Greeks through Heidegger Sch 1 4rmann interprets the history of Western thought and action as a series of eras governed by the rise and fall of certain dominating philosophical ideas that contained the seeds of their own destruction These eras coincided with their dominant languages Greek Latin and vernacular tongues Analyzing philosophical texts from Parmenides Plotinus and Cicero through Augustine Meister Eckhardt and Kant to Heidegger Sch 1 4rmann traces the arguments by which these ideas gained hegemony and by which their credibility was ultimately demolished Recognizing the failure of ultimate norms *Broken Hegemonies* questions how humanity today is to think and act in the absence of principles The Express Joanna Southcott,Alice Seymour,1909 **Gunton's Magazine** George Gunton,1900 **The Dinkard** Peshotan Behramjee Sanjana,1874 **The Roots of Evil** Norman L. Geisler,2002 **Stewardship in the New Testament Church**

Holmes Rolston,2016-06-02 Our churches are sadly in need of the stewardship program that is inevitable if this book is given serious study I can think of no greater contribution that could be made to the whole cause of missions both at home and abroad than the study of this volume in all the churches The present crisis in world affairs nay the crisis in the church itself calls for a new dedication of life and substance to the cause of Christ This is the objective that I find running through these pages and the least I can do is to commend it to all those who are concerned that the church achieve a new and greater impetus as it must now meet the larger demands that are upon it Mark A Dawber from the foreword The Missing Sense C. W. Wooldridge,1887 The Anti-Pelagian Works of Saint Augustine, Bishop of Hippo Saint Augustine (of Hippo),1885

**Priesthood** Kenan Osborne,2003-08-18 Well written and well presented Father Osborne s book is a solid overview of the history of the sacrament of holy orders not only for Roman Catholic clergy but for clergy throughout the Christian world It will help all of those in ministry to understand the relationships between laity and clergy more deeply and it carefully delineates the deeper theological significance of women in ministry By considering the ordained ministry from the standpoint of Jesus as the primordial minister Priesthood enhances the multiple nature of ministry in ecumenical dialogues of our contemporary world making them less intransigent With the extensive discussion on ministry today Priesthood is a welcome timely and necessary contribution **Rootedness** Christy Wampole,2016-04-06 People have long imagined themselves as rooted creatures bound to the earth and nations from which they came In Rootedness Christy Wampole looks toward philosophy ecology literature history and politics to demonstrate how the metaphor of the root surfacing often in an unexpected variety of places from the family tree to folk etymology to the language of exile developed in twentieth century Europe Wampole examines both the philosophical implications of this metaphor and its political evolution From the root as home to the root as genealogical origin to the root as the past itself rootedness has survived in part through its ability to subsume other compelling metaphors such as the foundation the source and the seed With a focus on this concept s history in France and Germany Wampole traces its influence in diverse areas such as the search for the mystical origins of words land worship and nationalist rhetoric including the disturbing portrayal of the Jews as an unrooted and thus unrighteous people Exploring the works of Martin Heidegger Simone Weil Jean Paul Sartre Paul Celan and many more Rootedness is a groundbreaking study of a figure of speech that has had wide reaching and at times dire political and social consequences

**The Social Roots of Discrimination** John W. Thibaut,2017-09-04 The Social Roots of Discrimination explains the phenomenon of anti-Semitism In this classic volume Peretz F Bernstein looks for objective reasons why anti-Semitism flourished in European countries Some civilized people would consider the notion of race uncivilized but the existence of different races and the inequality of races with their specific race characteristics and on top of that the existence of superior and inferior human races was accepted as a fact of life and as a scientific truth long before the Nazis came to power Although there is a marked difference in dealing with anti-Semitism in continental Europe in 1920 and the anti-Semitism in for

instance the US in 2000 Bernstein's ideas remain valuable Starting from a concrete problem anti-Semitism in Central Europe Bernstein puts anti-Semitism in a general sociological theoretical framework Far from limiting himself to fruitless elaborations on the common perceived unpleasant characteristics of Jews he recognizes that the group is heterogeneous and that the usual arguments to justify anti-Semitism do not have any general validity although they may hold for some specific individuals of the hated group like individual members of any group may be less pleasant Bernstein's ideas remain valuable Bernstein tries to explain the hatred of Jews as the working of a more general mechanism one that has nothing to do specifically with Jews as a collective or as individuals In doing so Bernstein attempts to sketch a general theory of social groups and conflicts between groups The Social Roots of Discrimination gives an important message both for social scientists and for all intellectuals who are concerned with the strifes between nations races and social groups     The Old Testament according to the authorised version, with a brief comm. by various authors. The Apocryphal books ,1880     The Works of Aurelius Augustine: The anti-Pelagian works. v. 2. Translated by Peter Holmes. 1885 Saint Augustine (of Hippo),1874
