Russian Military Into The Twenty First Century:

The Russian Military into the 21st Century Stephen J. Cimbala, 2013-10-23 This work attempts to clarify the major problems facing Russia's armed forces in the present and immediate future. It covers threats from terrorists, breakaway republics and threats from outside Russia's borders. The book also includes political and economic problems facing the military.

Russian Foreign Policy in the Twenty-First Century and the Shadow of the Past Robert Legvold, 2007-03-27 Because the turbulent trajectory of Russia's foreign policy since the collapse of the Soviet Union echoes previous moments of social and political transformation, history offers a special vantage point from which to judge the current course of events. In this book, a mix of leading historians and political scientists examines the foreign policy of contemporary Russia over four centuries of history. The authors explain the impact of empire and its loss, the interweaving of domestic and foreign impulses, long-standing approaches to national security and the effect of globalization over time. Contributors focus on the underlying patterns that have marked Russian foreign policy and that persist today. These patterns are driven by the country's political makeup, geographical circumstances, economic strivings, unsettled position in the larger international setting and, above all, its tortured effort to resolve issues of national identity. The argument here is not that the Russia of Putin and his successors must remain trapped by these historical patterns, but that history allows for an assessment of how much or how little has changed in Russia's approach to the outside world and creates a foundation for identifying what must change if Russia is to evolve. A truly unique collection, this volume utilizes history to shed crucial light on Russia's complex, occasionally inscrutable relationship with the world. In so doing, it raises the broader issue of the relationship of history to the study of contemporary foreign policy and how these two enterprises might be better joined.

Russia's Arctic Policy in the Twenty-First Century Maria L. Lagutina, 2019-02-07 This book is devoted to the analysis of all aspects of the current Arctic policy of Russia: the main strategic interests of Russia and the basics of the current Russian Policy in the region, taking into account new global trends. This monograph attempts to compile in one comprehensive study domestic and international aspects of modern Russian Arctic policy, based mainly on Russian sources that allowed the author to reveal the specifics of Russian approach to modern Arctic issues. It raises a set of important research questions: What are the main interests of Russia in the modern Arctic? What areas are the priorities in the Russian Arctic policy? Who governs the Russian Arctic? How are decisions on the Arctic made in Russia? What kind of problems is faced by the Russian Arctic in the global epoch? How do bilateral and multilateral relations between Russia and other Arctic states impact regional developments in the Arctic? How is Russia dealing with non-Arctic states and non-state Arctic actors? How are Russia's domestic and foreign policy in the Arctic interrelated? How is Russia's Arctic policy likely to evolve in the future in a changing global context? The book argues that nowadays the Arctic vector is one of the main priorities for Russia's domestic and foreign policies and undoubtedly Russia's future is connected with development of the Arctic, a region occupying a large part of the country's territory. On the one hand, the main purpose of

the current Arctic policy of Russia is the re development and modernization of the Arctic zone of the Russian Federation AZRF after the period of following the breakup of the USSR that was detrimental to the Russian Arctic policies Moreover today the re development of the Arctic is the most important prerequisite of the restoration of Russia s great power status On the other hand it is obvious that current Russia s Arctic strategy should be duly adapted to the new global realities not only the ones formed in the wake of the breakup of the USSR and the end of the Cold War but also to the latest developments as globalization

Russia and Europe in the Twenty-First Century Jackie Gower,Graham Timmins,2009-02-01 There has never been a more important time to understand Russia s relationship with Europe and it is the subsequent sense of unease both in Russia and Europe which provides the focus for this investigation and which will make it of use to specialist and general readers alike

China and Europe Relations in the Twenty-First Century Aifen Xing,Peter Preston,2023-07-31 This book argues that although relations between China and Europe are strained in many areas including trade human rights and views about political systems nevertheless established linkages especially when considered in the context of long term historical linkages development trajectories and intellectual cultures offer good prospects for future progressive collaborative exchanges Approaching the subject in a balanced way giving equal weight to the perspectives of both sides the book examines China and Europe s shared experiences of age old civilizations of the disorienting effects of the economic social and political upheavals triggered by the late eighteenth century creation of the modern world and of the

nineteenth and early twentieth centuries era of European empires warfare and the Cold War It contends that although China and Europe appear superficially to have followed different paths with many problems in their relationship resulting they in fact have a very great deal in common concerning how they have coped with the long shift from ancient civilizations to the modern world of natural science based industrial capitalism

Nuclear Strategy in the Twenty-First Century Stephen J. Cimbala, 2000-05-30 The future of nuclear weapons and nuclear strategy in the 21st century is not entirely predictable from the Cold War past Nor is it easy to foresee on the basis of what has happened since the Soviet Union collapsed in 1991 Cimbala contends that nuclear weapons and the psychology of nuclear deterrence will remain important after 2000 but the character of that importance will change No longer will nuclear weapons be the dominators of military technology Instead advanced technology conventional weapons based on information and electronics will supplant

nuclear weapons as the instruments of military supremacy in the 21st century What Cimbala asks can be expected of nuclear weapons in the 21st century given what we have learned from previous experience in the Cold War and in the 1990s Cimbala expects that nuclear weapons will spread among currently non nuclear states and states with regional grievances or hegemonic aspirations will seek to deploy small nuclear forces as deterrents against neighbors or against outside intervention by the United States in regional conflicts Regional rogue states may also obtain nuclear weapons Nonetheless as Cimbala explains the international balance of power is unlikely to change As he makes clear power will be less dependent on deployed military platforms and more dependent on information warfare A thoughtful and provocative analysis that will be of particular interest to policy makers scholars and other researchers involved with arms control security studies and international relations
