Graham, 2015-02-09 A history of American cameramen covering the news of World War I from the dangerous front line and the risk of execution to red tape and censorship At the start of hostilities in World War I when the United States was still neutral American newsreel companies and newspapers sent a new kind of journalist the film correspondent to Europe to record the Great War These pioneering cameramen accustomed to carrying the Kodaks and Graflexes of still photography had to lug cumbersome equipment into the trenches Facing dangerous conditions on the front they also risked summary execution as supposed spies while navigating military red tape censorship and the business interests of the film and

newspaper companies they represented Based on extensive research in European and American archives American Cinematographers in the Great War 1914-1918 follows the adventures of these cameramen as they managed to document and film the atrocities around them in spite of enormous difficulties The first book to explore the work and working conditions of American cinematographers active on the different fronts of the First World War It is a pioneering study which has already attracted a good deal of attention in the academic and archive world Historical Journal of Film Radio and Television

The Russian Baltic Fleet in the Time of War and Revolution, 1914-1918 Stephen C Ellis, 2020-04-30 The translation of these memoirs brings an important and authoritative historical source to those interested in Russian or naval history who are unable to access them in the original Russian Their author Rear Admiral S N Timiryov was well placed to make observations on the character of many of the significant commanding officers and also many of the operations of the Baltic Fleet from the beginning of the war in 1914 up to exit from it in 1918 He trained with many of the key figures and shared battle experience with them in the Russo Japanese War of 1904-05 and the siege of Port Arthur and he spent a year in Japan as a prisoner of war with a number of them In his subsequent career in the Navy he had roles which brought him into contact with new recruits as well as with many serving officers and as the Executive Officer on the imperial yacht Shtandart for some years he came into contact with senior members of the navy establishment and of the government including the imperial household His memoirs also exhibit an unusual degree of self awareness Written in Shanghai in 1922 these memoirs remained unknown to scholars for several decades Since their publication in New York in 1961 in the absence of access to authoritative archives many historians in the West used them as a source for the study of the role of the Navy in the Russian revolution particularly as it unfolded in the north They have also been used as a source in numerous studies of the naval war in the Baltic and following the fall of the Soviet Union they were re published in Russia and are regarded there as an authoritative source on the history both of the revolution and of the Russian Navy in the First World War This first English language edition complemented by extensive notes and commentary on issues which may not be familiar to many will fascinate scholars and naval historians alike
