Loyalism and the Formation of the British World Allan Blackstock, Frank O'Gorman, 2014 Explores loyalism as a social and political force in eighteenth and nineteenth century British colonies and former colonies Loyalism in Britain and Ireland which was once seen as a crude reaction against radicalism or nationalism stimulated by the elite and blindly followed by plebeians has recently been shown by historians to have been on the contrary a politically multi faceted socially enabling phenomenon which did much to shape identity in the British Isles This book takes further this revised picture by considering loyalism in the wider British World It considers the overall nature of loyalism exploring its development in England Ireland and Scotland and goes on to examine its manifestation in a range of British colonies and former colonies including the United States Canada India Australia and New Zealand It shows that whilst eighteenth century Anglo centric loyalism had a core of common ideological assumptions associational structures and ritual behaviour loyalism manifested itself differently in different territories This divergence is explored through a discussion of the role of loyal associations and military institutions loyalism's cultural and ritual dimensions and its key role in the formation of political identities Chronologically the book covers a pivotal period comprehending the American and French Revolutions the 1798 Irish rebellion and Irish Union the Canadian rebellions of 1837 and Fenianism and Home Rule campaigns throughout the British World Allan Blackstock is Reader in History at the University of Ulster and author of *Loyalism in Ireland 1789-1829* Boydell 2007 Frank O'Gorman was Professor of History at the University of Manchester Contributors Allan Blackstock Richard P Davis Oliver Godsmark William Gould Jacqueline Hill Andrew R Holmes Kyle Hughes Mark G McGowan Donald M MacRaild Keith Mason Patrick Maume Katrina Navickas Frank O'Gorman Brad Patterson Scott W See

The Russians and Australia Glynn Barratt, 2011-11-01 Known for his pioneering work on Russia s early exploits in Australia and the Pacific historian Glynn Barratt again breaks new ground in presenting the first comprehensive study of Russian naval social mercantile and scientific enterprise in New South Wales between 1807 and 1835 Through Tsar Peter the Great s Dutch contacts Russia was aware quite early of the existence of New Holland and a number of unsuccessful attempts were made to reach what is now Australia Following a description of these efforts Barratt focuses on the seventeen visits that Russian ships made to Australian ports on voyages from the Baltic carrying supplies for the settlements in Kamchatka and Alaska As a result of the good will generated by the Anglo Russian alliance against Napoleonic France relations between the British colonists and the Russian seamen were extremely cordial While visiting Australia Russian naval officers pursued a range of scientific activities including botany zoology ethnography and mineralogy and collected specimens and artefacts They also studied the British penal system and filled journals with detailed observations Available in Russian archives and museums and examined there by Barratt the journals and collections which until now have largely remained unexplored by historians reveal the high level of skill and education of these early visitors to Australia This is the first of four books in a series entitled Russia and the South Pacific 1696 1840

New Zealand Slavonic Journal , 2007 *Secret History* Steven Loveridge, Richard S. Hill, 2023-07-13 In 1900 a handful of New Zealand police detectives watched out for spies seditionists and others who might pose a threat to state and society The Police Force remained the primary instrument of such human intelligence in New Zealand until 1956 when a decade into the Cold War a dedicated Security Service was created Over the same period New Zealand s role within signals intelligence networks evolved from the Imperial Wireless Chain to the UKUSA intelligence alliance now known as Five Eyes The first of two volumes chronicling the history of state surveillance in New Zealand *Secret History* opens up the secret world of security intelligence through to 1956 It is the story of the surveillers who in times of war and peace turmoil and tranquillity monitored and analysed perceived threats to national interests It is also the story of the surveilled those whose association with organisations and movements led to their public and private lives being documented in secret files *Secret History* explores a hidden and intriguing dimension of New Zealand history one which sits uneasily with

cherished national notions of an exceptionally fair and open society Soldiers, Scouts and Spies Cliff Simons, 2019-10-10 A fascinating and detailed study of the major campaigns on the New Zealand Wars As interest in the New Zealand Wars grows Soldiers Scouts and Spies offers a unique insight into the major campaigns fought between 1845 and 1864 by British troops their militia and Maori allies and Maori iwi and coalitions It was a time of rapid technological change Maori were quick to adopt western weaponry and evolve their tactics and even political structures as they looked for ways to confront the might of the Imperial war machine And Britain despite being a military and economic super power was challenged by a capable enemy in a difficult environment This detailed examination of the Wars from a military perspective focuses on the period of relatively conventional warfare before the increasingly irregular fighting of the late 1860s It explains how and where the battles were fought and their outcomes Importantly it also analyses the intelligence gathering skills and processes of both British and Maori forces as each sought to understand and overcome their enemy *Reader's Guide to British History* David Loades, 2020-12-17 The Reader's Guide to British History is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of Britain from ancient and Roman Britain to the present day Each entry lists 6-12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication
