Sacred Image East And West:

The Sacred Image East and West Robert G. Ousterhout, Leslie Brubaker, 1995 The essays cover a full range of images including panel paintings altarpieces manuscripts and wall paintings and a rich variety of socioreligious settings private monastic and imperial

Images of the Byzantine World Angeliki Lymberopoulou, 2016-12-05 The main themes of this volume are the identification of visions messages and meanings in various facets of Byzantine culture and the possible differences in the perception of these visions messages and meanings as seen by their original audience and by modern scholars The volume addresses the methodological question of how far interpretations should go whether there is a tendency to read too much into too little or whether not enough attention is paid to apparent minutiae that may have been important in their historical context As the essays span a wide chronological era they also present a means of assessing the relative degrees of continuity and change in Byzantine visions messages and meanings over time Thus as highlighted in the concluding section the book discusses the validity of existing notions regarding the fluidity of Byzantine culture when continuity was a matter of a rigid adherence to traditional values and when a manifestation of the ability to adapt old conventions to new circumstances and it shows that in some respects Byzantine cultural history may have been less fragmented than is usually assumed Similarly by reflecting not just on new interpretations but also on the process of interpreting itself the contributors demonstrate how research within Byzantine studies has evolved over the past thirty years from a set of narrowly defined individual disciplines into a broader exploration of interconnected cultural phenomena

Saints and Spectacle Carolyn Loessel Connor, 2016 **Saints and Spectacle** explains for the first time how the spectacular gold ground mosaics of the Middle Byzantine period were likely conceived Through a recreation of the circumstances of this time **Saints and Spectacle** brings the Middle Byzantine church to life as the witness to a compelling and fascinating drama

Reading Medieval Images Elizabeth Sears, Thelma K. Thomas, 2002 What is it that art historians do when they approach works of art What kind of language do they use to describe what they see How do they construct arguments using visual evidence What sorts of arguments do they make In this unusual anthology eighteen prominent art historians specializing in the medieval field European Byzantine and Islamic provide answers to these fundamental questions not directly but by way of example Each author responding to invitation has chosen for study a single image or object and has submitted it to sustained analysis The collection of essays accompanied by statements on methodology by the editors offers an accessible introduction to current art historical practice Elizabeth L. Sears is Associate Professor of the History of Art University of Michigan Thelma K. Thomas is Associate Professor of the History of Art and Associate Curator of the Kelsey Museum University of Michigan

Icons in the Western Church Jeana Visel, 2016-09-06 Within the Eastern tradition of Christianity the eikon or religious image has long held a place of honor In the greater part of Western Christianity however discomfort with images in worship both statues and panel icons has been a relatively common current particularly since the

Reformation In the Roman Catholic Church after years of using religious statues the Second Vatican Council's call for noble simplicity in many cases led to a stripping of images that in some ways helped refocus attention on the eucharistic celebration itself but also led to a starkness that has left many Roman Catholics unsure of how to interact with the saints or with religious images at all Today Western interest in panel icons has been rising yet we lack standards of quality or catechesis on what to do with them This book makes the case that icons should have a role to play in the Western Church that goes beyond mere decoration Citing theological and ecumenical reasons Visel argues that with regard to use of icons the post Vatican II Roman Catholic Church needs to give greater respect to the Eastern tradition While Roman Catholics may never interact with icons in quite the same way that Eastern Christians do we do need to come to terms with what icons are and how we should encounter them *Icons and Power* Bissera V. Pentcheva, 2010-11-01 **Discourse in Ritual Studies** Hans Schilderman, 2007 Discourse in Ritual Studies offers an introduction into the study of public worship from the perspective of ritual studies The contributing authors confront an action oriented and empirical approach of ritual studies with perennial and normative questions that characterize the study of liturgy Image Making in Byzantium, Sasanian Persia and the Early Muslim World Anthony Cutler, 2023-05-31 Relations between Byzantium and its neighbours are the focus of this volume The papers address questions of cultural exchange with special attention to art historical relations as shown by technical iconographic and diplomatic exchanges While addressed to specialists both their approach and the language make these papers accessible to students at all levels **Framing Russian Art** Oleg Tarasov, 2012-01-01 The notion of the frame in art can refer not only to a material frame bordering an image but also to a conceptual frame Both meanings are essential to how the work is perceived In Framing Russian Art art historian Oleg Tarasov investigates the role of the frame in its literal function of demarcating a work of art and in its conceptual function affecting the understanding of what is seen The first part of the book is dedicated to the framework of the Russian icon Here Tarasov explores the historical and cultural meanings of the icon's setting and of the iconostasis Tarasov's study then moves through Russian and European art from ancient times to the twentieth century including abstract art and Suprematism Along the way Tarasov pays special attention to the Russian baroque period and the famous nineteenth century Russian battle painter Vasily Vereshchagin This enlightening account of the cultural phenomenon of the frame and its ever changing functions will appeal to students and scholars of Russian art history *Icons of Space* Jelena Bogdanović, 2021-07-26 Icons of Space Advances in Hierotopy brings together important scholars of Byzantine religion art and architecture to honour the work of renowned art historian Alexei Lidov As well as his numerous publications Lidov is well known for developing the concept of hierotopy an innovative approach for studying the creation of sacred spaces Hierotopy and the related concepts of spatial icons and image paradigms emphasize fundamental questions about icons including what defines them as structures spaces and experiences Chapters in this volume engage with the overarching theme of icons of space by employing contrasting and complementing methods of

hierotopy with more traditional approaches such as iconography Examinations of icons have traditionally been positioned within strictly historical theological socio economic political and art history domains but this volume poses epistemological questions about the creation of sacred spaces that are instead inclusive of multi layered iconic ideas and the lived experiences of the creators and beholders of such spaces This book contributes to image theory and theories of architecture and sacred space Simultaneously it moves beyond colonial studies that predominantly focus on questions of religion and politics as expressions of privileged knowledge and power This book will appeal to scholars and students of Byzantine history as well as those interested in hierotopy and art history

The Sign of the Cross Daniel Rancour-Laferriere,2017-09-08 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere s book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion

Traversing the Heart Richard Kearney,Eileen Rizo-Patron,2010-07-12 The key wager of Traversing the Heart Journeys of the Inter religious Imagination is that a spiritual imaginary operating at the level of metaphor narrative symbol and epiphany can traverse the borders of dogma and ideology and open genuine conversations between wisdom traditions Like every hermeneutics of the heart this journey begins to unfold in a concrete space and time

the interreligious conference at Bangalore in June 2007 While this collection does not claim to cover the religious traditions of all continents its concluding essay on transculturation in Andean Christian art highlights the importance of the North South dialogue as a necessary supplement to the East West one largely addressed in the book As a call to future journeys and dialogue this volume aims to communicate the one seminal lesson learned during the India conference that in our third millennium religions will be inter religious or they will not be at peace

Heavenly Sustenance in Patristic Texts and Byzantine Iconography Elena Ene D-Vasilescu, 2018-10-22 This book examines ideas of spiritual nourishment as maintained chiefly by Patristic theologians those who lived in Byzantium It shows how a particular type of Byzantine frescoes and icons illustrated the views of Patristic thinkers on the connections between the heavenly and the earthly worlds The author explores the occurrence and geographical distribution of this new type of iconography that manifested itself in representations concerned with the human body and argues that these were a reaction to docetist ideas The volume also investigates the diffusion of saints cults and demonstrates that this took place on a North South axis as their veneration began in Byzantium and gradually reached the northern part of Europe and eventually the entirety of Christendom

Preacher and Audience Cunningham, Pauline Allen, 2018-11-12 This volume brings together thirteen studies on Greek speaking preachers and audiences in a period from the beginning of the second century A D to the beginning of the tenth century which has largely been neglected in the modern literature The chapters represent a collection of case studies of individual preachers or periods of homiletic activity and cover themes including the identity of Greek speaking preachers the circumstances of delivery the different genres of homiletic the adaptation of the tropes of Classical approaches the preparation redaction and transmission of sermons and the interaction between preacher and audience Each chapter is accompanied by a summary bibliography of the most important primary sources and secondary literature

Later Byzantine Painting Robert S. Nelson, 2024-10-28 Written over nearly three decades the fifteen essays involve the three a s of the title art agency and appreciation The first refers to the general subject matter of the book Byzantine art chiefly painting of the twelfth through the fourteenth centuries the second to its often human like agency and the last to its historical reception Responding to different issues and perspectives that have animated art history and Byzantine studies in recent decades the essays have wide theoretical range from art historical formalism iconography archaeology and its manuscript equivalent codicology to statistics patronage narratology and the histories of science and collecting The series begins with art works themselves and with the imagery and iconography of church decoration and manuscript illumination shifts to the ways that objects act in the world and affect their beholders and concludes with more general appreciations of Byzantine art in case studies from the thirteenth century to the present

Pilgrimage to Images in the Fifteenth Century Robert Maniura, 2004 A case study of the meaning and purpose of pilgrimage based on the image of the scarred Virgin Our Lady of Czestochowa The tradition of pilgrimage to an image is so well established as to be taken for granted

Throughout Christian history large numbers of people have made journeys to images associated with miracles yet the phenomenon has never been a subject of detailed scholarly scrutiny This book explores the issue through a case study of the origins of pilgrimage to one such image Our Lady of Czestochowa in Poland The shrine remains one of the most prominent pilgrimage destinations in the Catholic world the striking focal panel painting shows the Virgin Mary with an apparently scarred face and the legend of the picture s origin claims that it was painted by St Luke and desecrated by iconoclasts The author assesses the significance of the stories attached to the shrine and goes beyond them to consider the practices and responses of the pilgrims Drawing on the earliest surviving miracle collections he also explores the interaction between the pilgrims and the image of the scarred Virgin ROBERT MANIURA is Lecturer in the History of Renaissance Art Birkbeck College University of London

Group Identity and Religious Individuality in Late Antiquity Eric Rebillard, Jorg Rupke, 2015 To understand the past we necessarily group people together and consequently frequently assume that all of its members share the same attributes In this ground breaking volume Eric Rebillard and J rg R pke bring renowned scholars together to challenge this norm by seeking to rediscover the individual and to explore the dynamics between individuals and the groups to which they belong

The Spectacle of the Body in Late Medieval England Estella Antoaneta Ciobanu, 2012 The volume *The Spectacle of the Body in Late Medieval England* represents a study on the human body representation in medieval England by approaching the concept of the spectacle as a space of manifestation The author clarifies the ways of understanding the body as a physical and metaphorical reality but also the medieval conceptualization of violence On top of that the author is making an investigation on the violent character of spectacles representation in pursuit of picturing this subject more clearly and more relevant The approach of the volume is dominantly Christian reviewing the representations of the body through outstanding figures of Christianity crucifixion of Jesus Christ body of Virgin Mary

Between Constantinople and Rome Kathleen Maxwell, 2016-12-05 This is a study of the artistic and political context that led to the production of a truly exceptional Byzantine illustrated manuscript Paris Biblioth que Nationale de France codex grec 54 is one of the most ambitious and complex manuscripts produced during the Byzantine era This thirteenth century Greek and Latin Gospel book features full page evangelist portraits an extensive narrative cycle and unique polychromatic texts However it has never been the subject of a comprehensive study and the circumstances of its commission are unknown In this book Kathleen Maxwell addresses the following questions what circumstances led to the creation of Paris 54 Who commissioned it and for what purpose How was a deluxe manuscript such as this produced Why was it left unfinished How does it relate to other Byzantine illustrated Gospel books Paris 54 s innovations are a testament to the extraordinary circumstances of its commission Maxwell s multi disciplinary approach includes codicological and paleographical evidence together with New Testament textual criticism artistic and historical analysis She concludes that Paris 54 was never intended to copy any other manuscript Rather it was designed to eclipse its contemporaries and to physically embody a new

relationship between Constantinople and the Latin West as envisioned by its patron Analysis of Paris 54 s texts and miniature cycle indicates that it was created at the behest of a Byzantine emperor as a gift to a pope in conjunction with imperial efforts to unify the Latin and Orthodox churches As such Paris 54 is a unique witness to early Palaeologan attempts to achieve church union with Rome
