New Testament Theology and its Quest for Relevance Thomas R. Hatina, 2013-03-14 New Testament theology raises many questions not only within its own boundaries but also in relation to other fields such as history literary criticism sociology psychology history politics philosophy and religious studies But the overarching question concerns the relevance of two thousand year old writings in today's world How does one establish what is and is not relevant in the New Testament How does one communicate the ancient ideas presented in an alien language alien time and alien culture to a contemporary audience This book is intended to serve as a methodological introduction to the field of New Testament theology aimed at a range of readers undergraduate and Seminary students clergy and laypersons interested in the relevance of scripture It is a guide which aims to help readers understand how practitioners of New Testament theology have wrestled with the relationship between historical reconstruction of the New Testament and its interpretation in the modern world

Re-Thinking Men Anthony Synnott, 2024-05-31 Much writing on men in the field of gender studies tends to focus unduly almost exclusively on portraying men as villains and women as victims in a moral bi polar paradigm Re Thinking Men reverses the proclivity which ignores not only the positive contributions of men to society but also the male victims of life including the homeless the incarcerated the victims of homicide suicide accidents war and the draft and sexism as well as those affected by the failures of the health education political and justice systems Proceeding from a radically different perspective in seeking a more positive balanced and inclusive view of men and women this book presents three contrasting paradigms of men as heroes villains and victims Revised and updated and presenting data and studies from the United States Canada and the United Kingdom it offers a comparative and revised perspective on gender that will be of interest to scholars across a range of social sciences

Literature, Performance, and Somaesthetics Katarzyna Lisowska, Jarosław Woźniak, 2017-05-11 Literature Performance and Somaesthetics views textual and extra textual worlds as intimately connected as forming a continuum in fact The essays on literature philosophy and the arts gathered here derive their theoretical inspirations from two realms where embodiment and agency are particularly stressed namely from philosophical somaesthetics a discipline proposed by Richard Shusterman in 1999 and from performance studies remarkable for its current expansion In most general terms the point of convergence for somaesthetics and performativity is their stressing the agency of the embodied and sentient human self The contributors explore the question of agency in its various manifestations They examine the construction of literary characters with

emphasis on the representation of their corporeality and affectivity They look into the problem of the formation of the literary canon as enacted rather than established and into literary history as retold rather than rewritten They also focus on the problems of literary reception considering it on the physical visceral level While showing keen interest in performance studies and somaesthetics the authors also bring in the expertise gained in their primary fields of research Hence the ideas explored in their essays are drawn from philosophy literary theory cultural studies psychology and hard science The essays here are concerned with a variety of generic forms epic literature lyrical poetry tragedy experimental novel thriller literary history theological treatise documentary flamenco and opera in order to outline the field in the humanities where literature philosophy and performance can meet and where literary studies can benefit from the approaches offered by performance studies and philosophical somaesthetics
