How Environment Shapes Human Development and Education Sabine Pirchio, Blanca Silvia Fraijo-Sing, Ylenia Passiatore, 2021-01-14 *Encountering, Experiencing and Shaping Careers* Ann M. Brewer, 2018-08-11 This book investigates how people encounter experience and shape their careers Both the concept and the reality of a career is changing as organisations respond to globalisation and market forces This impact is reflected in the internal labour market and hence career journeys of individuals How people think about their career and career choices is more diverse than ever before due not only to environmental transformations but also to variations in the workforce consisting now of five generations With each new generation there is little argument that contemplating career choices seeking and promoting work opportunities as well as hiring relationships are now markedly different and less certain than previously People have now and increasingly a greater choice over when where how to work and for how long This book will provide learning for those people early in their careers as well as those in mid to later career looking to develop or enrich their careers in some way Understanding how work functions in people s lives the personal and family costs incurred in maintaining and exiting a career and how and why remaining or leaving a career is successful or not is highly relevant The need for career support derived from personal professional and organisational connections plays an important role in career choice career transition and career opportunities Creativity and other 21st century skills the vital dimensions of career development is also discussed in this book *The Usage and Impact of ICTs during the Covid-19 Pandemic* Shengnan Yang, Xiaohua Zhu, Pnina Fichman, 2023-03-03 This book takes a holistic view of the roles of ICTs during the pandemic through the lens of social informatics as it is critical to our understanding of the relations between society and technology Specific attention is given to various stakeholders and social contexts with analysis at the individual group community and society levels Pushing the boundaries of information science research with timely and critical research questions this edited volume showcases information science research in the context of COVID 19 by specifically accentuating sociotechnical practices activities and ICT interventions during the pandemic Its social informatics focus appeals to a broad audience and its global and international orientation provides a timely innovative and much needed perspective to information science This book is unique in its interdisciplinary nature as it consists of research studies on the intersections between ICTs and health culture social interaction civic engagement information dissemination work and education Chapters apply a range of research methods including questionnaire surveys content analyses and case studies from countries in Asia Europe and America as

well as global and international comparisons The book's primary target audience includes scholars and students in information and library science particularly those interested in the social aspect of the information society It may be of interest to information professionals library practitioners educators and information policymakers as well as scholars and students in science and technology studies cultural studies political science public administration sociology and communication studies

The Oxford Handbook of Personality and Social Psychology Kay Deaux, Mark Snyder, 2018-10-30 The second edition of The Oxford Handbook of Personality and Social Psychology uniquely integrates personality and social psychology perspectives together in one volume Contributors explore historical conceptual methodological and empirical foundations that link the two fields together Further this new edition offers readers comprehensive coverage of new and emerging areas of theory research and application and assesses the field's growth and development since the publication of the first edition

The Application of Airborne Lidar Data in the Modelling of 3D Urban Landscape Ecology Ziyue Chen, 2016-12-14 Compared with traditional remote sensing technologies airborne Lidar data can provide researchers with additional 3D positional information which is a key factor for advanced urban research and particularly that of urban landscape ecology Therefore the need for applying Lidar data to a variety of disciplines is rapidly growing However the lack of remote sensing background makes the wider use of Lidar data highly difficult for scholars from other disciplines In contrast to the majority of Lidar related books that focus on sophisticated principles and general applications of Lidar data this book provides the reader with a feasible framework for applying airborne Lidar data to urban research In addition to providing a general introduction to the subject this book explains in detail a series of case studies to demonstrate how these theoretical models can be employed to address practical urban issues As such this book not only provides Lidar scholars with a series of specifically designed research methods but will also serve to inspire scholars from other disciplines such as geographers urban planners ecologists and decision makers with a complete framework of potential application fields

September 12 Gregory Smithsimon,2011-10-01 The collapse of the World Trade Center shattered windows across the street in Battery Park City throwing the neighborhood into darkness and smothering homes in debris Residents fled In the months and years after they returned they worked to restore their community Until September 11 Battery Park City had been a secluded wealthy enclave just west Wall Street one with all the opulence of the surrounding corporate headquarters yet with a gated suburban feel After the towers fell it became the most visible neighborhood in New York This ethnography of an elite planned community near the heart of New York City s financial district examines both the struggles and shortcomings of one of the city s wealthiest neighborhoods In doing so September 12 discovers the vibrant exclusivity that makes Battery Park City an unmatched place to live for the few who can gain entry Focusing on both the global forces that shape local landscapes and the exclusion that segregates American urban development Smithsimon shows the tensions at work as the neighborhood s residents mobilized to influence reconstruction plans September 12 reveals previously unseen conflicts over the redevelopment of Lower Manhattan providing a new understanding of the ongoing reciprocal relationship between social conflicts and the spaces they both inhabit and create

Science and Christian Ethics Paul Scherz,2019-05-09 There is a growing crisis in scientific research characterized by failures to reproduce experimental results fraud lack of innovation and burn out In Science and Christian Ethics Paul Scherz traces these problems to the drive by governments and business to make scientists into competitive entrepreneurs who use their research results to stimulate economic growth The result is a competitive environment aimed at commodifying the world In order to confront this problem of character Scherz examines the alternative Aristotelian and Stoic models of reforming character found in the works of Alasdair MacIntyre and Michel Foucault Against many prominent virtue ethicists he argues that what individual scientists need is a regime of spiritual exercises such as those found in Stoicism as it was adopted by Christianity in order to refocus on the good of truth in the face of institutional pressure His book illuminates pressing issues in research ethics moral education and anthropology

Contemporary Leadership and Intercultural Competence Michael A. Moodian,2008-10-29 Featuring contributions from some of the world s most renowned cross cultural management theorists and commentators this breakthrough text explores the cross cultural dynamics within organizations The book examines the evolving role of cultural diversity in the workplace the application of cultural comprehension to organizations and the measurement of various aspects of intercultural competence

Literacy, Lives and Learning David Barton,2007 Demonstrating what it is like to be an adult learner in today s world this book focuses on language literacy and numeracy learning The authors explore the complex relationship between learning and adults lives following a wide range of individual students in various formal learning situations from college environments to a young homeless project and a drug support and aftercare centre The study

is rooted in a social practices approach and examines how people's lives shape their learning. Themes addressed range from how literacy is learned through participation and how barriers such as violence and ill health impact on people's lives. Based on a major research project and detailed reflexive and collaborative methodology, the book describes a coherent strategy of communication and impact which will have a direct effect on policy and practice.

A Philosophy of Landscape Construction Bruce Ferguson, 2020-12-30

A Philosophy of Landscape Construction outlines a philosophy of values in landscape construction demonstrating how integral structures such as pavements and walls constitute a key element to how people interact with and inhabit the final design. The book discusses how these structures enable, assist and care for people negotiating between the dynamic processes of site ecosystems and the soil on which they are founded. They articulate spatial, functional, cultural and ecological meanings. Within this theoretical framework, designers will learn to recognize and insert a set of core values into the most technical design stages to reach their full potential. By offering a new perspective on landscape construction, moving away from the exclusively technical characteristics, this book allows landscape architects to realise the ideal vision for their designs. It is abundantly illustrated with examples from which designers can learn both successes and failures and will be an essential companion to any study of built landscapes.

From Safety to Sense of Safety Jenni Spannari, Liz Grant, Monica Worline, Anne Birgitta Pessi, Henrietta Grönlund, Birgitte Johansen, 2025-09-23

The sense of safety is an essential foundation for human flourishing and well-being. It is a basic human need grounded in the evolutionary history of the human species as a part of the ecosphere. However, social, political and health-related global challenges have eroded deeply not only safety but our sense of safety. Sense of safety is an individual experience but it is deeply rooted in the social, communal and societal frames. Thus, in research, we need to look at the sense of safety understanding that the wider societal situation strongly consists of individual and grass roots level experiences. All people, notwithstanding their race or age or any other variable, need to feel safe. Sense of safety is a feeling of relative security, a comprehensive yet subjective psychological experience. It requires ongoing appraisal closely associated with a person's awareness and perception. That is, sense of safety is related to safety but never the same and it is always about emotions. It is deeply social, never just about an individual and should be studied as such. Sense of safety is pivotal for individuals, communities, in societies. Interdisciplinary research on sense of safety is scarce and often academically too shallow, e.g. not defining sense of safety as in e.g. Zacharia et al 2021, Murakami et al 2017, nor even differentiating between safety and sense of safety, e.g. in Zou Yu 2022. Research and mainstream media focus mostly on the large-scale picture of safety, e.g. statistics, trends in numbers and political reporting. But what are the individual-level experiences of sense of safety and sense of security today? How are they culturally bound and to what extent more universal?

Cultural Psychology Robyn M. Holmes, 2020-01-30

Cultural Psychology draws upon major psychological topics, theories and principles to illustrate the importance of culture in psychological inquiry. Exploring how culture broadly connects to psychological processing across

Mukoma's Marriage and other Stories Sigauke, Emmanuel, 2014-10-20 The stories in Mukoma s Marriage and Other Stories capture the lives of Zimbabwean men and the women they marry and the lives of women and the men they fall in love with each revealing the complexities of cultural and gender expectations against the backdrop of a changing country war in the 1970s political uncertainty in the 1980s and economic structural adjustment in the 1990s Fati sets out to tell Mukoma s story but ends up also telling his wives stories By telling his brother s story and that of his women he ends up telling his own story Fati is a new and interesting protagonist in Zimbabwean literature with a voice at times innocent yet increasingly incisive humorous and engaging These stories are deeply personal yet universal in their treatment of human relationships ambitions and misplaced cultural and gender expectations Whether he is telling the story of his brother s first marriage or remembers his brother s fights at a Parents Day event at Mhototi School whether he recalls the night Mukoma took him to see a new baby in the alleyways of Glen View Fati renders these stories with a measured composed voice which doesn t fail to delight with its unusual humour
