**A World of Gangs** John M. M. Hagedorn, 2008-05-13 Street gangs mirror the inhuman ambitions and greed of society s trendsetters and deities even as they fight to the death over scraps from the table of the international drug trade

But John Hagedorn characteristically also finds hope in the contradictory values of outlaw youth selflessness solidarity and love amid cupidity and directionless rage and he maintains the hope that a culture of resistance will ultimately prevail over the forces of self destruction Whether one shares his optimism or not he makes a compelling case that the future of the world will be determined on the streets of our cities Mike Davis from the Foreword A World of Gangs is an illuminating journey around the cultures lives tragedies and dreams of millions of rebellious youth around the planet It is an indispensable work to understand the world we live in and essential reading for students of cities and communities Manuel Castells For the more than a billion people who now live in urban slums gangs are ubiquitous features of daily life Though still most closely associated with American cities gangs are an entrenched worldwide phenomenon that play a significant role in a wide range of activities from drug dealing to extortion to religious and political violence In A World of Gangs John Hagedorn explores this international proliferation of the urban gang as a consequence of the ravages of globalization Looking closely at gang formation in three world cities Chicago Rio de Janeiro and Capetown he discovers that some gangs have institutionalized as a strategy to confront a hopeless cycle of poverty racism and oppression In particular Hagedorn reveals the nihilistic appeal of gangsta rap and its street ethic of survival by any means necessary provides vital insights into the ideology and persistence of gangs around the world This groundbreaking work concludes on a hopeful note Proposing ways in which gangs might be encouraged to overcome their violent tendencies Hagedorn appeals to community leaders to use the urgency outrage and resistance common to both gang life and hip hop in order to bring gangs into broader movements for social justice John M Hagedorn is associate professor of criminal justice at the University of Illinois Chicago He is editor of Gangs in the Global City and author of the highly influential People and Folks Gangs Crime and the Underclass in a Rustbelt City MacArthur fellow Mike Davis is the author of many books including Planet of Slums and most recently Buda s Wagon A Brief History of the Car Bomb *The Journal of African American History*, 2006 **Youth Violence and Delinquency** Frank P.

Williams, Marilyn D. McShane, 2007-05-30 Juvenile crime and violence has always piqued the public s interest Indeed each generation of Americans tends to define the youth crime problem as more serious than any previous generation Even though juvenile homicides have been decreasing since the mid 1990s the media is still quick to provide dramatic examples of juvenile monsters who are terrorizing their communities Shootings at school gang banging and trafficking drugs school bullies and charging juveniles as adults are subjects that have recently received wide media coverage This three volume set on the nature incidence consequences and treatment of youth crime and violence will help readers understand the true nature of youth crime and violence from a variety of perspectives Each volume covers a different area and experts write on topics ranging from sex offending to fire starting from gangs to guns from juvenile probation to charging youths as adults from mandatory mental health treatment to police in school settings and more What drives a teenager to steal To kill Why does youth crime and violence occur Why are youths such vulnerable targets What can be done to stop youth offenders and what

can be done to help youthful victims How does the criminal justice system respond What do communities do to punish and protect youths What can schools do to intervene All these questions and more are answered in this set on this timely and important topic Our youth are our most precious commodity and protecting vulnerable children as well as helping offenders is of paramount importance for steering them toward safe and productive lives These volumes help readers better understand the causes and consequences of youth violence and crime and consider ways to address the problems

**The New Urban Sociology** Mark Gottdiener, Ray Hutchison, 2006 Previous ed Boston Mass McGraw Hill 2000

The Death Gap David A. Ansell, MD, 2021-06-16 We hear plenty about the widening income gap between the rich and the poor in America and about the expanding distance separating the haves and the have nots But when detailing the many things that the poor have not we often overlook the most critical their health The poor die sooner Blacks die sooner And poor urban blacks die sooner than almost all other Americans In nearly four decades as a doctor at hospitals serving some of the poorest communities in Chicago David A Ansell MD has witnessed firsthand the lives behind these devastating statistics In The Death Gap he gives a grim survey of these realities drawn from observations and stories of his patients While the contrasts and disparities among Chicago's communities are particularly stark the death gap is truly a nationwide epidemic as Ansell shows there is a thirty five year difference in life expectancy between the healthiest and wealthiest and the poorest and sickest American neighborhoods If you are poor where you live in America can dictate when you die It doesn't need to be this way such divisions are not inevitable Ansell calls out the social and cultural arguments that have been raised as ways of explaining or excusing these gaps and he lays bare the structural violence the racism economic exploitation and discrimination that is really to blame Inequality is a disease Ansell argues and we need to treat and eradicate it as we would any major illness To do so he outlines a vision that will provide the foundation for a healthier nation for all As the COVID 19 mortality rates in underserved communities proved inequality is all around us and often the distance between high and low life expectancy can be a matter of just a few blocks Updated with a new foreword by Chicago mayor Lori Lightfoot and an afterword by Ansell The Death Gap speaks to the urgency to face this national health crisis head on

**A Nation of Lords** David Dawley, 1992-03-01 An instructive and relevant look at an explosive period in urban history This savagely moving autobiography of a violent street gang covers its heyday in the 1960s when it had perhaps ten thousand members in at least twenty six branches on Chicago's West Side It is the story of a street gang that became a community organization supported by private foundations and corporations and dedicated to social economic and political development The gang's violent neighborhood was transformed into Head Start's most improved block where the crime rate decreased as did the number of gang related killings

Family Properties Beryl Satter, 2010-03-02 Part family story and part urban history a landmark investigation of segregation and urban decay in Chicago and cities across the nation The promised land for thousands of Southern blacks postwar Chicago quickly became the most segregated city in the North the site of the nation's worst ghettos

and the target of Martin Luther King Jr's first campaign beyond the South In this powerful book Beryl Satter identifies the true causes of the city's black slums and the ruin of urban neighborhoods throughout the country not as some have argued black pathology the culture of poverty or white flight but a widespread and institutionalized system of legal and financial exploitation In Satter's riveting account of a city in crisis unscrupulous lawyers slumlords and speculators are pitched against religious reformers community organizers and an impassioned attorney who launched a crusade against the profiteers the author's father Mark J Satter At the heart of the struggle stand the black migrants who having left the South with its legacy of sharecropping suddenly find themselves caught in a new kind of debt peonage Satter shows the interlocking forces at work in their oppression the discriminatory practices of the banking industry the federal policies that created the country's shameful dual housing market the economic anxieties that fueled white violence and the tempting profits to be made by preying on the city's most vulnerable population *Family Properties Race Real Estate and the Exploitation of Black Urban America* is a monumental work of history this tale of racism and real estate politics and finance will forever change our understanding of the forces that transformed urban America Gripping This painstaking portrayal of the human costs of financial racism is the most important book yet written on the black freedom struggle in the urban North David Garrow *The Washington Post*
