Lost Comrades Socialists Of The Front Generation 1918 1945

James C. Docherty, Peter Lamb

Lost Comrades Socialists Of The Front Generation 1918 1945:

Lost Comrades Dan S. White, 1992 The concept of generation as a historical category has never been used more effectively than in *Lost Comrades* The socialists of the Front Generation young men in 1914 were driven into political activity and ideological exploration by the experience of the First World War Their efforts to renew socialism to carry it beyond Marxism and beyond the working class were profound and original yet ultimately they failed *Lost Comrades* follows the Front Generation socialists from their questioning of Marxist orthodoxies in the 1920s into their confrontations with the twin challenges of fascism and world depression in the early 1930s Responding to these dangers they devised with little success counterpropaganda against the fascists and planning blueprints for the economy Eventually some of the most prominent Sir Oswald Mosley in Britain Hendrik de Man in Belgium Marcel Datin in France shifted their hopes to fascism or during the Second World War to collaborationism in Hitler's Europe Others however like Carlo Mierendorff and Theodor Haubach in Germany ended as martyrs in the anti Nazi resistance Yet even these divergent paths showed parallels reflecting their common starting point In tracing these unfulfilled careers White brings a new clarity to the hopes and limitations of European socialism between the two world wars

[A History of Fascism, 1914-1945](#) Stanley G. Payne, 1996-01-01 A History of Fascism is an invaluable sourcebook offering a rare combination of detailed information and thoughtful analysis It is a masterpiece of comparative history for the comparisons enhance our understanding of each part of the whole The term fascist used so freely these days as a pejorative epithet that has nearly lost its meaning is precisely defined carefully applied and skillfully explained The analysis effectively restores the dimension of evil Susan Zuccotti *The Nation* A magisterial wholly accessible engaging study Payne defines fascism as a form of ultranationalism espousing a myth of national rebirth and marked by extreme elitism mobilization of the masses exaltation of hierarchy and subordination oppression of women and an embrace of violence and war as virtues Publishers Weekly

European Socialism William Smaldone, 2019-10-16 This accessible text offers a concise but comprehensive introduction to European socialism which arose in the maelstrom of the industrial and democratic revolutions launched in the eighteenth century Striving for sweeping social economic cultural and political change socialists were a diverse lot However they were united by principles asserting the social and political equality of all people ideas that won the adherence of millions and struck fear in the hearts of their numerous opponents William Smaldone shows how over the course of 200 years socialists successfully promoted the democratization of European society and a more equitable division of wealth At the same time he illustrates how conflicts over the means of achieving their aims divided them into rival socialist and communist currents a rift that undercut the struggle against fascism and helped lay the groundwork for Europe's division during the Cold War Although many predicted the demise of socialism as a potent force after the end of the Cold War the Soviet Union's dissolution and the rise of neo liberal ideology recent developments show that such a judgment was premature The author argues that the growth of new socialist parties across Europe indicates that socialist

ideas remain vibrant in the face of capitalism's failure to solve chronic social and economic problems especially following the deep global crisis that began in 2008. Combining an analytical narrative with a selection of primary texts and visual images, this book provides undergraduate students with a brief readable history including an overview of how socialist political movements have evolved over time and stressing the rich diversity that has characterized socialism's foundations from its beginning. This new edition brings this text up to date and examines the European socialist movement in the face of 21st century challenges. It includes a new preface including the 2017 American election, updated bibliographies, two new chapters and an afterword.

The Labour Party, Denis Healey and the International Socialist Movement Ettore

Costa, 2018-05-18. This book describes how after the Second World War the Labour Party assumed leadership of the International Socialist Movement thanks to the achievements of the Attlee Government. International Secretary Denis Healey guided the reconstruction of the Socialist International through the early Cold War, making the British vision for socialist internationalism prevail over the French and Belgian. At first, the provisional Socialist International International Socialist Conference and Cominfo supported cohabitation with pro-communist socialists and the USSR, but with the Sovietisation of Eastern Europe, it committed to militant anti-communism. Ambiguity between the Labour Party and Labour Government influenced British policy in Austria, Czechoslovakia, Greece, Italy, and Poland, while the characterization and stereotypes of Eastern and Southern Europe shaped the language and actions of the British. Furthermore, the book shows how international contacts and the British and Swedish model encouraged the transition of socialist parties to responsible government parties, fully embracing Western democracy and preparing the ideological revision of the 1950s.

Historical Dictionary of Socialism

James C. Docherty, Peter Lamb, 2006-10-02. Primarily concerned with the historical roots and contemporary condition of socialism, the second edition of the *Historical Dictionary of Socialism* offers information on writers, activists, ideas, political parties, institutions, and movements that sought, and in many cases are still seeking, to change the social and political order. It reflects the diversity in the broad movement of the left, the many variants of which include reformist social democracy, revolutionary Marxism, the New Left, and contemporary anti-capitalism. Taking up where the first edition left off, this thoroughly revised dictionary shows how socialism has been reacting, reforming, and also expanding. This is done through a chronology, a list of acronyms and abbreviations, an introductory essay, a bibliography, and a cross-referenced dictionary section with 114 new entries, some on the current leadership, others on the many new parties of Central and Eastern Europe and the Third World, and yet others on the reaction to globalization. This book will provide a mine of information for teachers and students of political ideologies, comparative politics, political sociology, labor history, and political theory.

Historical Dictionary of Socialism Peter Lamb, 2024-02-20. Socialism has been an influential force for social change for almost two centuries. Its philosophy and ideology have inspired millions while simultaneously arousing fear and revulsion in its enemies. Having emerged after the French Revolution in the effort to build upon and develop the egalitarian ideas of the

Enlightenment socialism has taken many forms It has furthermore sometimes been manipulated and reformulated by opportunists who have built authoritarianism and totalitarian dictatorships in its name Opponents seize on such examples to frighten away people who may otherwise have found socialism attractive Socialism has survived such criticism and misrepresentation as its core principles have struck a chord with generations of people concerned with social justice Historical Dictionary of Socialism Fourth Edition contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 500 cross referenced entries on activists politicians political thinkers political parties and organizations and key topics concepts and aspects of socialist theory This book is an excellent access point for students researchers and anyone wanting to know more about socialism

One Hundred Years of Socialism Donald Sassoon, 2010-07-30 On 14 July 1889 the centenary of the French Revolution socialist parties from all corners of Europe met in Paris On the same day in the same city the Exposition Universelle was launched to mark the achievements of capitalist production The two events symbolized the beginning of the epic struggle between socialism and capitalism in Europe In this comprehensive study of a century of socialism the author traces the fortunes of the political parties of the Left in Western Europe From the rise of the Bolsheviks to the fall of the Berlin wall from the Second International through two world wars to the Cold War and the birth of the welfare state from the working class militancy and student uprisings of the 1960s through the revival of feminism and the arrival of green politics to the reluctant embrace of market economics en route to the millennium Donald Sassoon charts the course of socialism across 14 countries He shows that throughout their history the fortunes of socialism and capitalism have been inextricably linked They have grown up side by side each one challenging and seeking to destroy yet nourishing and shaping the other

Hendrik de Man and Social Democracy Tommaso Milani, 2020-06-15 The book investigates the intellectual and political trajectory of the Belgian theorist Hendrik de Man 1885-1953 by examining the impact that his works and activism had on Western European social democracy between the two world wars Based on multinational archival research the book highlights how the idea of economic planning became part of a wider effort to address an ideological crisis within the socialist movement and revitalise the latter amidst the Great Depression A heavily controversial figure also because of his subsequent involvement in Belgian wartime collaboration de Man played a pivotal role in challenging traditional Marxist assumptions about the role of the state under capitalism and in promoting transnational exchanges between unorthodox social democrats across Europe Starting from de Man's experience in World War I the book analyses his departure from Marxism his elaboration of an alternative social democratic paradigm his entry in Belgian politics as well as the reception of his thought in France and Britain

A Companion to Europe, 1900-1945 Gordon Martel, 2011-03-21 This volume brings together a distinguished group of international scholars to discuss the major debates in the study of early twentieth century Europe Brings together contributions from a distinguished group of international scholars Provides an overview of current thinking on the period Traces the great political social and economic

upheavals of the time Illuminates perennial themes as well as new areas of enquiry Takes a pan European approach highlighting similarities and differences across nations and regions **Everything Is Possible** Joseph Fronczak, 2023-01-24

The fascinating history of how the antifascist movement of the 1930s created the left as we know it today In the middle years of the Great Depression the antifascist movement became a global political force powerfully uniting people from across divisions of ideology geography race language and nationality Joseph Fronczak shows how socialists liberals communists anarchists and others achieved a semblance of unity in the fight against fascism Depression era antifascists were populist militant and internationalist They understood fascism in global terms and they were determined to fight it on local terms In the United States antifascists fought against fascism on the streets of cities such as Chicago and New York and they connected their own fights to the ones raging in Germany Italy and Spain As he traces the global trajectory of the antifascist movement Fronczak argues that its most significant legacy is its creation of the left as we know it today an international conglomeration of people committed to a shared politics of solidarity

Unveiling the Energy of Verbal Artistry: An Mental Sojourn through **Lost Comrades Socialists Of The Front Generation 1918 1945**

In some sort of inundated with screens and the cacophony of quick interaction, the profound power and psychological resonance of verbal art often disappear into obscurity, eclipsed by the regular assault of sound and distractions. However, set within the musical pages of **Lost Comrades Socialists Of The Front Generation 1918 1945**, a interesting work of fictional brilliance that impulses with organic feelings, lies an wonderful journey waiting to be embarked upon. Penned by a virtuoso wordsmith, that mesmerizing opus courses viewers on an emotional odyssey, gently exposing the latent potential and profound impact stuck within the complicated web of language. Within the heart-wrenching expanse of this evocative analysis, we can embark upon an introspective exploration of the book is main subjects, dissect their charming publishing fashion, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
