Resilience and Opportunity Amy Liu, Roland Vanglin, Richard M. Mizelle, 2011-08-18 Hurricanes Katrina and Rita devastated the Gulf Coast in 2005. Commentary and analysis typically focused on what went wrong in the post disaster emergency response. This forward looking book however presents a more cautiously optimistic view about the region's ability to bounce back after multiple disasters. Catastrophes come in different forms: hurricanes, recessions, and oil spills, to name a few. It is imperative that we learn how best to rebuild in the wake of disasters and what capacities and conditions are needed to improve future resilience. Since the devastating summer of 2005, leaders have made important inroads to restoring communities in more prosperous ways. *Resilience and Opportunity* is an important contribution to our collective learning from a teachable moment. EDUCATIONAL MANAGEMENT: A Unified Approach of Education S. L. Sharma, 2009-12. This book focuses on management in school administration. It explains that school administrators play a vital role in the success of a school. Therefore, it is of the utmost

importance that these leaders and future school leaders understand how to be integrative thinkers It has been proven that integrative thinkers are more effective leaders and effective leaders create successful work environments Further it elaborates on school based management which involves the formal change in the structures of school governance that leads to a more democratic administrative approach in which planning and decision making are devolved to the individual school and role of principal where the conceptual notion at work here is that of creating a bridge between the performance field and a practice field It also emphasizes on superintendent preparation and training school leadership preparation etc Our People and Our History Rodolphe Lucien Desdunes,2001-10-01 Translated and Edited by Sister Dorothea Olga McCants Daughter of the Cross In Our People and Our History originally published in French in 1911 and translated into English in 1973 Rodolphe Lucien Desdunes records the lives of fifty prominent Creoles who lived in New Orleans at the end of the nineteenth century Although he received little formal education Desdunes himself a Creole was an articulate observer of his times and culture His portraits of black doctors lawyers teachers musicians artists and writers are powerful evidence of the extraordinary role that Creoles played in the cultural and political history of Louisiana

Visual Art and the Urban Evolution of the New South Deborah C. Pollack,2015-01-18 Visual Art and the Urban Evolution of the New South recounts the enormous influence of artists in the evolution of six southern cities Atlanta Charleston New Orleans Louisville Austin and Miami from 1865 to 1950 In the decades following the Civil War painters sculptors photographers and illustrators in these municipalities employed their talents to articulate concepts of the New South aestheticism and Gilded Age opulence and to construct a visual culture far beyond providing pretty pictures in public buildings and statues in city squares As Deborah C Pollack investigates New South proponents such as Henry W Grady of Atlanta and other regional leaders she identifies cultural strivers philanthropists women s organizations entrepreneurs writers architects politicians and dreamers who united with visual artists to champion the arts both as a means of cultural preservation and as mechanisms of civic progress Aestheticism made popular by Oscar Wilde s southern tours during the Gilded Age was another driving force in art creation and urban improvement Specific art works occasionally precipitated controversy and incited public anger yet for the most part artists of all kinds were recognized as providing inspirational

incentives for self improvement civic enhancement and tourism art appreciation and personal fulfillment through the love of beauty Each of the six New South cities entered the late nineteenth century with fractured artistic heritages Charleston and Atlanta had to recover from wartime devastation The infrastructures of New Orleans and Louisville were barely damaged by war but their social underpinnings were shattered by the end of slavery and postwar economic depression Austin was not vitalized until after the Civil War and Miami was a post Civil War creation Pollack surveys these New South cities with an eye to understanding how each locale shaped its artistic and aesthetic self perception across a spectrum of economic political gender and race issues She also discusses Lost Cause imagery present in all the studied municipalities While many art history volumes concerning the South focus on sultry landscapes outside the urban grid *Visual Art and the Urban Evolution of the New South* explores the art belonging to its cities whether exhibited in its museums expositions and galleries or reflective of its parks plazas marketplaces industrial areas gardens and universities It also identifies and celebrates the creative urban humanity who helped build the cultural and social framework for the modern southern city

Only in New Orleans Luis Mirón, Brian R. Beabout, Joseph L. Boselovic, 2015-07-22 With 2015 marking the 10th commemoration of Hurricane Katrina education reform in New Orleans continues to garner substantial local national and international attention Advocates and critics alike have continued to cite test scores new school providers and different theories of governance in making multiple arguments for and against how contemporary education policy is shaping public education and its role in the rebuilding of the city Rather than trying to provide a single unified account of education reform in New Orleans the chapters in this volume provide multiple ways of approaching some of the most significant questions around school choice and educational equity that have arisen in the years since Katrina This collection of research articles essays and journalistic accounts of education reform in New Orleans collectively argues that the extreme makeover of the city's public schools toward a new market based model was shaped by many local historically specific conditions In consequence while the city's schools have been both heralded as a model for other cities and derided as a lesson in the limits of market based reform the experience of education reform that has taken place in the city and its impacts on the lives of students families and educators could have happened only in New Orleans
