Love, a Treatise on the Science of Sex-attraction Bernard Simon Talmey, 1915 **Love a Treatise on the Science of Sex-attraction Newly Rev. and Enl** B. S. Talmey, 1939 Love Talmey, 1919 *Love's A Treatise on the Science of Sex-Attraction, for the Use of Physicians and Students of Medical Jurisprudence* Bernard S. Talmey, 1919 Love; a Treatise on the Science of Sex-attraction, for the Use of Physicians and Students of Medical Jurisprudence Bernard S Talmey, 2019-09 This book has been considered by academicians and scholars of great significance and value to literature This forms a part of the knowledge base for future generations So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published Hence any marks or annotations seen are left intentionally to preserve its true nature *Love; A Treatise on the Science of Sex-Attraction, for the Use of Physicians and Students of Medical Jurisprudence* HardPress, Talmey Bernard Simon 1862-1926, 2013-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **Love A Treatise on the Science of Sex-Attraction** Bernard S. Talmey M.D., 1919 Love Bernard Simon Talmey, 1938 Not only among laymen but also among serious thinkers and writers on medical topics the opinion is generally prevalent that there is a vast difference in the degree of intensity of the sex impulse in men and women Upon this supposition rests the justification of the double standard of sexual morality of the two sexes If the intensity of the amatory emotions is the same in both sexes then there is no justification for a double standard of sexual morality Now an emotion is in its nature subjective Its intensity can never be objectively determined Men and women may dispute the question of the different degree of intensity of the amatory emotions till the end of time still they will never reach a definite conclusion The only way to determine the nature of an emotion is to study its pathology If it can be shown that the same pathological entities of the sex instinct are found in men and women the inference is justified that the normal emotions are also the same or similar in both sexes To prove the similarity or identity of the intensity of the sex impulse in both sexes the author published several books dealing with the amatory emotions of men and of women with the need of proper sexual

instruction for children and the causes of sexual impotence It occurred to the author that if the amatory emotions are the same in men and women they ought to be treated together in one volume Hence the present work But while the books referred to are the basis for several chapters of Love still every author grows with his work After years of study of the subject of sex the author was able to expand the sphere of his previous efforts so that readers will find some new points in this book of value and interest If the reader should agree with this opinion the author will consider himself well paid for his labors
