Love, Sex, and Romance Sergio Garcia, 2003-02 We spend so much time worrying about the little things in life money objects bills insignificant things really We give these things much more importance than they deserve because these things are so truly trivial when compared to the significant things in life like love health family and friends We allow these trivial things to constantly overwhelm us and worry us sick We always wish for the future as opposed to rejoicing in the present and appreciating life for what it truly is a gift an opportunity to love and to be loved and by doing so opening our eyes to a truly beautiful reality a reality we fail to see without love We fail to see the true beauty of life the beauty of a brand new morning the beauty of a butterfly resting in a rose or the sweet melodies the bird sing Instead we focus on the petty things and by so doing we keep ourselves from achieving the true happiness we seek Time and time again I have encountered unhappiness in life and particularly in relationships People do not understand why their relationships are not going in the right direction People wonder why they are not as happy as they wish they could be and usually the reason for this is not an insurmountable one This unhappiness is mostly caused by a lack of communication lack of trust lack of honesty lack of attention or understanding Sometimes a combination of these prevents us from achieving true happiness but they can be overcome and with my help and your willingness to change you will achieve just that These problems unfortunately are very common but there is a solution a simple solution I want to share with you I want to change the status quo by providing you with the tools

you will need to overcome these problems I want to provide you with the tools you need to more successfully approach your love interest to better deal with your significant other and to even improve your marriage and everyday life I will show you how to communicate appreciate and better understand your partner above all I will help you love again The reason behind this book being written is the beautiful feeling one feels as soon as one falls in love a feeling that should never disappear It should evolve and become more objective but no less beautiful the flame of love should never vanish The honeymoon period whether you are married or have just entered into your first relationship should not fade and pass it should just transform and it can It will require a little effort and awareness of each other's preferences but remember all worthwhile endeavors do The origin of this book then rests in the predominant lack of understanding between the sexes in the predominant complaint My boyfriend pays more attention to his car than to me as well as My wife is always nagging no matter what I do she's never happy The origin of this book is due to the strong belief that I can change that that I can provide you the reader with a happy medium I strongly believe that I can show you how to meet halfway and become a happier person and a happier couple in the process I believe that I can help change those statements to something more positive I believe I can change those statements to something like my boyfriend enjoys spending time working on his car but he loves me I'm the most important thing in his life or my wife is the greatest she knows how much I love her and she knows any opportunity I get I want to be with her because I'm the most important person in her life Maybe you noticed the use of thing and person and that is a purposeful mistake as you will soon learn

Sex, Love, and Fidelity Kassia Wosick, 2012 Extremely well researched and coherently argued this book presents top quality research and draws appropriately on the existing knowledge in this area The focus on fidelity across different kinds of relationship structures is very original and will prove an important contribution to the field of relationship research A key strength of this study is that the analysis pays attention to both commonalities and diversity which is rare even in qualitative research The analysis is also both clearly expressed and sophisticated Dr Meg Barker Open University This is a fascinating investigation of the meaning of love sex and fidelity for different kinds of couples Kassia Wosick reports on a survey and in depth conversations with couples that were straight and gay monogamous and non monogamous traditional and polyamorous Love and being special are enormously important in all of these groups But she also finds startling differences For some sexual exclusiveness is critical For others being faithful means not loving anyone else but sex with others is ok For polyamorous couples having explicit rules and being open and honest is the heart of fidelity and being special And having sex can mean many different things This book persuasively argues that we need more flexible emotion focused concepts of love commitment and fidelity The traditional focus on sexual exclusivity does not fit many contemporary relationships This is a very valuable book for researchers and therapists and for all of us who care about love sex and faithfulness Professor Francesca Cancian University of California Irvine Engaging insightful thoroughly researched and well written Sex Love and Fidelity Study of Contemporary Romantic Relationships provides a compelling analysis of

evolving relationships with a unique focus on levels of monogamy that surpasses previous studies to contribute refreshing insights into current meanings of sexuality and love. Wosick untangles the myriad cultural assumptions underlying the concept of fidelity and details the various ways in which fidelity expresses in a range of contemporary relationships from dual fidelity and strict monogamy through veiled fidelity and almost monogamy to specified fidelity and non monogamy and ending with agentic fidelity and polyamory. Now that few people in the US expect to be monogamous in the classical sense of marrying as a virgin and remaining in one life long sexually exclusive relationship, Sex Love and Fidelity provides the information necessary for us to update our understandings of contemporary love and commitment.
