**Dialogues of Love and Government** Alice Spencer, 2009-03-26 Dialogues of Love and Government examines the use of the pseudo Boethian didactic dialogue form in a wide range of Medieval texts on the theme of love by authors including Machaut Froissart Dante Chaucer Gower Usk and Hoccleve Although the broad almost universal influence of Boethius in the Middle Ages has been much documented the present study can be said to break new ground on several fronts Firstly whereas scholars have so far tended to focus on the visionary Apocalyptic conventions deployed in the Consolatio and or its stoical conclusions this is the first study to examine the influence of the text qua philosophical dialogue Secondly Dialogues of Love and Government contains the first thorough exploration of the recurrent binding together of the dialogue form with the courtly love theme in the Middle Ages proposing a theory that the origins of such a connection might be traced back to the ancient association between Socratic Platonic elenchus and the spirit Eros Finally it analyses the political implications of this relationship suggesting that the vertical trajectory of the erotic dialogue with its abstraction away from the many to the one naturally lends itself to the elitism and absolutism of Platonic politics The frequent ambiguity and irony of courtly love dialogues the fact that dialogism to borrow a term from Bakhtin is rarely fully overcome can thus be read as implying scepticism about or even an outright rejection of notions of love and politics which are Platonic in origin

**Pathologies of Love** Judy Kem, 2019-12-01 Pathologies of Love examines the role of medicine in the debate on women known as the querelle des femmes in early modern France Questions

concerning women's physical makeup and its psychological and moral consequences played an integral role in the querelle. This debate on the status of women and their role in society began in the fifteenth century and continued through the sixteenth and as many critics would say well beyond. In querelle works early modern medicine, women's sexual difference, literary reception, and gendered language often merge. Literary authors perpetuated medical ideas such as the notion of allegedly fatal lovesickness, and physicians published works that included disquisitions on the moral nature of women. In *Pathologies of Love*, Judy Kem looks at the writings of Christine de Pizan, Jean Molinet, Symphorien Champier, Jean Lemaire de Belges, and Marguerite de Navarre, examining the role of received medical ideas in the querelle des femmes. She reconstructs how these authors interpreted the traditional courtly understanding of women's pity or mercy on a dying lover, their understanding of contemporary debates about women's supposed sexual insatiability and its biological effects on men's lives and fertility, and how erotomania or erotic melancholy was understood as a fatal illness. While the two women who frame this study defended women and based much of what they wrote on personal experience, the three men appealed to male authority and tradition in their writings.

**The Allegory of Love in the Early Renaissance** James Calum O'Neill, 2023-07-31  
Described as the most beautiful book ever printed, previous research has focused on the printing history of the *Hypnerotomachia* and its copious literary sources. This monograph critically engages with the narrative of the *Hypnerotomachia* and with Poliphilo as a character within this narrative, placing it within its European literary context. Using narratological analysis, it examines the journey of Poliphilo and the series of symbolic allegorical and metaphorical experiences narrated by him that are indicative of his metamorphosing interiority. It analyses the relationship between Poliphilo and his external surroundings in sequences of the narrative pertaining to thresholds, the symbolic architectural, topographical, and garden forms and spaces, and Poliphilo's transforming interior passions, including his love of antiquarianism, language, and Polia, the latter of which leads to his elegiac description of lovesickness. Besides examinations of numerosophical symbolism in number form and proportion of the architectural descriptions and how they relate to the narrative.

**Distracted Subjects** Carol Thomas Neely, 2004  
*Distracted Subjects* offers a feminist analysis of early modern madness. Carol Neely reveals the mobility, heterogeneity of discourses of distraction, the most common term for the condition in late 16th/early 17th century England. *The Dark Side of Love*, She explores how to develop a psychological immune system to protect against the potentially destructive elements in relationships and allow for a constructive expression of love's dark side. Her book should be read by psychoanalysts and psychotherapists, individuals who have suffered from the pains and hurts of love, and indeed by those who are interested in human motivation and behavior.

BOOK JACKET *Happiness or Its Absence in Art* William Barcham, Ronit Milano, 2014-10-02  
The concept of happiness is central to most civilized cultures. This volume investigates the many ways in which Western art has visualized the concept from the early Middle Ages to the present. Employing different methodological approaches, the essays gathered here situate the concept of human happiness

within discourses on gender religion intellectual life politics and New Age culture Operating as a cultural agent art communicates the idea of happiness as both a physical and spiritual condition by exploiting specific formulae of representation This volume combines art history cultural analyses and intellectual studies in order to explore the complexities of iconographic programs that represent various forms of happiness or its explicit absence and to expose the implications embedded in the artistic works in question Through innovative readings the ten authors presented in this book survey different artistic and or cultural paradigms and offer new interpretations of happiness or of its absence *Disability and Knighthood in Malory's Morte Darthur* Tory Pearman, 2018-10-03 This book considers the representation of disability and knighthood in Malory's *Morte Darthur* The study asserts that Malory's unique definition of knighthood which emphasizes the unstable nature of the knight's physical body and the body of chivalry to which he belongs depends upon disability As a result a knight must perpetually oscillate between disability and ability in order to maintain his status The knight's movement between disability and ability is also essential to the project of Malory's book as well as its narrative structure as it reflects the text's fixation on and alternation between the wholeness and fragmentation of physical and social bodies Disability in its many forms undergirds the book helping to cohere the text's multiple and sometimes disparate chapters into the whole book that Malory envisions The *Morte* thus construes disability as an as an ambiguous even liminal state that threatens even as it shores up the cohesive notion of knighthood the text endorses **Writings on Love in the English Middle Ages** H. Cooney, 2006-09-02 This is a set of essays from many of the leading scholars in the world of medieval studies which addresses a wide diversity of texts and genres and their diverse perspectives on love Attention is given to interaction between English writings and putative continental and international influences with particular emphasis on the works of Chaucer The Opal, 1854 *German and English* Christoph Friedrich Grieb, 1863
