Love for Sale Colleen Lucey,2021-09-15 Love for Sale is the first study to examine the ubiquity of commercial sex in Russian literary and artistic production from the nineteenth century through the fin de si cle Colleen Lucey offers a compelling account of how the figure of the sex worker captivated the public s imagination through depictions in fiction and fine art bringing to light how imperial Russians grappled with the issue of sexual commerce Studying a wide range of media from little known engravings that circulated in newspapers to works of canonical fiction Lucey shows how writers and artists used the topic of prostitution both to comment on women s shifting social roles at the end of tsarist rule and to express anxieties about the incursion of capitalist transactions in relations of the heart Each of the book s chapters focus on a type of commercial sex looking at how the street walker brothel worker demimondaine kept woman impoverished bride and madam traded in sex as a means to acquire capital Lucey argues that prostitution became a focal point for imperial Russians because it signaled both the promises of modernity and the anxieties associated with Westernization Love for Sale integrates historical analysis literary criticism and feminist theory and conveys how nineteenth century beliefs about the fallen woman drew from medical judicial and religious discourse on female sexuality Lucey invites readers to draw a connection between rhetoric of the nineteenth century and today s debate on sex workers rights highlighting recent controversies concerning Russian sex workers to show how imperial discourse is recycled in the twenty first century

Evolutionary Forensic Psychology Joshua Duntley,Todd K. Shackelford,2008-08-20 The field of forensic psychology explores the intersection of psychology and the law The purpose of this book is to examine topics in the field using the powerful multidisciplinary conceptually integrated approach that the natural sciences have embraced for decades with great

success Darwin's theory of evolution by natural selection is the meta theoretical framework that unifies the field of biology. It unites research and understanding of the development, control, and organization of behavior. The study of humans, which includes all of the social sciences, is part of the field of biology. Darwin's theory provides a powerful meta theoretical framework that can unify and energize forensic psychology just as it has the biological sciences. Evolutionary processes undoubtedly shaped physiological characteristics to help solve problems of survival and reproduction. The lungs, for example, with their vast surface area and moist membranes are marvelous adaptations for extracting oxygen and releasing carbon dioxide. Natural selection is the only known process capable of shaping complex functional mechanisms. Just as it shaped physiological adaptations with specific problem solving functions, it also shaped our thoughts and emotions to guide behaviors toward solving recurrent problems of survival and reproduction. With this logic, we can use knowledge of ancestral problems to guide our understanding of how the mind works. Evolutionary Forensic Psychology is a necessary step toward a unified and complete understanding of psychology and the law. It recognizes that crimes such as murder, non-lethal violence, rape, and theft are manifestations of evolutionarily recurrent selection when they gave individuals an advantage in competition for resources. Each of the chapters that comprise this volume has been selected to provide the first unified examination of important research contributions and future directions of Evolutionary Forensic Psychology.

The Social History of Crime and Punishment in America Wilbur R. Miller, 2012-07-20. Several encyclopedias overview the contemporary system of criminal justice in America, but full understanding of current social problems and contemporary strategies to deal with them can come only with clear appreciation of the historical underpinnings of those problems. Thus, this five volume work surveys the history and philosophy of crime, punishment, and criminal justice institutions in America from colonial times to the present. It covers the whole of the criminal justice system from crimes, law enforcement, and policing to courts, corrections, and human services. Among other things, this encyclopedia explicates philosophical foundations underpinning our system of justice, charts changing patterns in criminal activity and subsequent effects on legal responses, identifies major periods in the development of our system of criminal justice, and explores in the first four volumes, supplemented by a fifth volume containing annotated primary documents, evolving debates and conflicts on how best to address issues of crime and punishment. Its signed entries in the first four volumes, supplemented by a fifth volume containing annotated primary documents, provide the historical context for students to better understand contemporary criminological debates and the contemporary shape of the U.S. system of law and justice.

Red Light Labour Elya M. Durisin, Emily van der Meulen, Chris Bruckert, 2018-09-01. In 2013, the Supreme Court ruled in *Canada v Bedford* that key prostitution laws were unconstitutional. The decision provoked wide interest but little new insight into sex work. *Red Light Labour* addresses Canada's new legal regime regulating sex work through the analysis of past and present policy approaches and consideration of how laws and those who uphold them have constructed, controlled, and criminalized sex workers, their clients, and their workspaces. This

groundbreaking collection also offers nuanced interpretations of commercial sexual labour that foreground the personal perspectives of workers and activists The contributors highlight the struggle for civic and social inclusion by considering sex workers advocacy tactics successes and challenges Red Light Labour promotes social and economic justice within a sex work as labour framework This book is a timely intervention that showcases up to date legal policy and social analysis of sex work in Canada
