Love and Other Emotions Jason W. Brown, 2018-03-08 This book is an account of the psychology of romantic love in the context of a theory of emotions The account develops out of studies in brain psychology and the extension to topics in process philosophy such as the nature of value and belief and the central role of feeling in mental process The approach is subjectivist that is from the internal standpoint and in this respect it differs greatly from the externalist and objectivist trends in modern cognitive science and empiricist philosophy Love is the ultimate in value so that a theory of love is also a theory of the nature of value and its relation to feeling belief and to drive and desire The role of intention reason and appraisal is critiqued The relation to other feelings such as jealousy envy anger loss and grief is discussed in terms of a general theory of emotion and the basis in a process account of the mind brain state

Instincts and Emotions, Should They be Suppressed Or Harnessed? Roger Ward Babson, 1927 *The Complete Works of W.R. Bion* W. R. Bion, 2021-06-24 Cogitations is the name Bion gave to the occasional short notes he had begun to write in the February of 1958 in order to clarify his thinking about the difficulties of working with psychotic patients using an unmodified psychoanalytic method work informed by and shared with his two closest colleagues who like Bion were in analysis with Melanie Klein Hanna Segal and Herbert Rosenfeld That clinical work formed the foundation of the clinical papers reproduced in *Second Thoughts* and the formulations in the four books of the 1960s *Learning from Experience* *Elements of Psycho Analysis* *Transformations* and *Attention and Interpretation*

Cogitations Wilfred R. Bion, 2018-05-01 Cogitations the last of the posthumous publications is a collection of occasional writings representing Bion's attempts to clarify and evaluate both his own ideas and those of others by casting them in written form and frequently addressing them to an imaginary audience Covering a period between February 1958 and April 1979 Cogitations delves into a wide range of material psychoanalysis and science mathematics and logic literature and semantics Some form a

background to Bion's theoretical development showing the doubts and arguments leading to the ideas expressed in his books others highlighting and detailing some of the more abstract points in them and some exploring topics destined for books that were to remain unwritten

The Emotional Dynamics of Law and Legal Discourse Heather Conway, John Stannard, 2016-12-15 In his seminal work Emotional Intelligence Daniel Goleman suggests that the common view of human intelligence is far too narrow and that emotions play a much greater role in thought decision making and individual success than is commonly acknowledged The importance of emotion to human experience cannot be denied yet the relationship between law and emotion is one that has largely been ignored until recent years However the last two decades have seen a rapidly expanding interest among scholars of all disciplines into the way in which law and the emotions interact including the law's response to emotion and the extent to which emotions pervade the practice of the law In The Emotional Dynamics of Law and Legal Discourse a group of leading scholars from both sides of the Atlantic explore these issues across key areas of private law public law criminal justice and dispute resolution illustrating how emotion infuses all areas of legal thought The collection argues for a more positive view of the role of emotion in the context of legal discourse and demonstrates ways in which the law could in the words of Goleman become more emotionally intelligent

Move Past Your Past Alice Parker, 2018-01-25 Most of my numerous past lives I've been a teacher trainer So much of the information in this book has been given to me by my Angel Guides The rest is from teachers guides or classes I've had as well as life experiences of my past and my current life as a teacher trainer I have learned and believe that more than 90 percent of all our problems unhappiness even pain comes from our past experiences So it's time to let it go and I'll show you how I believe there are only two emotions love and fear Other emotions and feelings are derivatives of them with love being the powerful positive and fear the negative I also believe the opposite of love is not hate but apathy Hate has emotions attached but apathy is not caring it's the absence of emotions And I believe love is more powerful than fear or hate as it can overcome them when the love is honest To reach a point of you being happy means to learn how to release to let go of all your past stuff through steps in this book with exercises While I will repeatedly say that change and everything

else is a choice most people won't accept that They rationalize or believe their obligations or whatever will not allow them to do so But as you read through the seventy various directed parts and try some of the exercises you will see how truly amazing being free from your past can be This is not about organized religion it's my thirty years in spirituality It's found within a few religions but no religion is within spirituality It is considered the singular personal connection to Mother Father God Universe Source since that power is within each individual to have and use as promised through the Holy Spirit This is about finding one's own path for your destined journey Author of the Memoir Choices Changes Friends 1970s After Divorce with degrees in psychology marketing and English bilingual cultural studies in graduate school I've traveled to thirty six countries and forty states I lived in six and in Japan for seven years as a corporate business trainer I worked ten years in HR management in San Francisco and as a life coach teacher
