Hypnosis in the Realm of De Sign shows how to integrate semiotic systems pragmatism and De sign principles to analyze actual hypnotherapeutic experiences As with every De sign situation each patient requires a unique therapeutic strategy and approach that is individually appropriate for them The author thereby encourages therapists to become de signers working with not for their subjects to create a context within which their subjects can awaken their therapeutic potential By doing so patients can then bring into focus that which could be rather than focusing on that which is **Love, Henri** Henri J.
