## **Love To Hate Americas Obsession With Hatred And Violence:**

*Love to Hate* Jody M. Roy, 2002 Memory enables us to make experience meaningful and to form coherent identities for ourselves and intelligible perceptions of others. Indeed our ability to imagine, anticipate and create the future is directly commensurate with our ability to retrieve and recollect past experiences. But for all its vital importance in human cognition for all that it seems so ordinary and obvious, memory remains in many ways as complex and mysterious today as it seemed to ancient philosophers. We need only to think about the tip of the tongue experience to wonder how memories are formed where they reside in our brains and why some are retained while others are forgotten. What is the difference between long and short term memory? Can memory be strengthened? *Memories Are Made of This* is an account of current memory science that offers answers to these and a host of other questions, comprehensively distilling much diverse and rigorous science. It delves into the biology of memory functions and researches into the mechanics and genetics of memory and the importance of emotions, particularly those resulting from trauma in the memory process. Of special focus are investigations of cognition in other species: Are we the only animals who remember and forget? If not, are there commonalities in the memories of different species? The book also surveys our understanding of the effects of injury and disease on memory and concludes with an assessment of emerging pharmacological efforts to preserve and protect our memories and in turn ourselves.

**Love to Hate** Jody Roy, 2002-08-27 Why is the simple impulsive question we ask when confronted by horrible acts of hatred and violence: Why do students shoot fellow students or employees their coworkers? Why do mothers drown their children or husbands stalk and kill their wives? *Love to Hate* challenges us to turn this question upon ourselves at a deeper level. Why as a culture are we so fascinated by these acts? Why do we bestow celebrity on the perpetrators while allowing the victims to fade into a second death of obscurity? Are we as Pope John Paul II famously accused, a culture of death? And if so, how can we break free of this unacknowledged aspect of the cycle of violence? Unlike those who point solely to media imagery, splintered families or lax gun control laws in search of the roots of America's endemic violence, Jody M. Roy suggests that we all must be held responsible. She argues that we reveal our love affair with hatred and violence in the ways we think and speak in our daily lives and in our popular culture. The very words we use function as building blocks of callousness and contempt, betraying our immersion in subtexts of violence and hatred. These subtexts are further revealed in our complex attitudes toward street gangs, school shooters, serial killers, and hate groups, and the paroxysms of violence they unleash. As spectators driven by our impulse to watch, we become an integral part of the equation of violence. In the book's final section, *Freeing Ourselves of Our Obsession with Hatred and Violence*, Roy offers practical steps we can take as parents, consumers, and voters to free ourselves from linguistic and cultural complicity and to help create in America a culture of life.

**Violence in America** Robert Klein, Victor Schermer, 2018-10-11 Violence is a growing problem in American society and hardly a day goes by that we don't hear about yet another heart wrenching episode of mass violence. Such events unfortunately are only the

most public manifestation of violence in America The full nature and extent of daily violence the various and pervasive forms it takes and the enormous social emotional moral and economic consequences that result remain largely outside of our awareness More importantly our ability to identify the root causes and know how best to effectively intervene remains limited Most investigations in this field have focused on the individual psychodynamic characteristics of the perpetrators The underlying group dynamic factors that include consideration of broader social cultural socioeconomic and historical variables have received less attention This volume brings together for the first time a collection of distinguished group psychotherapists all of whom have been trained to recognize both individual psychodynamic characteristics and group dynamic factors to apply the lessons learned through years of clinical practice to arrive at a deeper understanding of the etiology treatment and prevention of violence This book was originally published as a special issue of the International Journal of Group Psychotherapy

**The Culture of Vengeance and the Fate of American Justice** Terry K. Aladjem, 2008-01-14  
America is driven by vengeance in Terry Aladjem's provocative account a reactive public anger that is a threat to democratic justice itself From the return of the death penalty to the wars on terror and in Iraq Americans demand retribution and moral certainty they assert the rights of victims and make pronouncements against evil Yet for Aladjem this dangerously authoritarian turn has its origins in the tradition of liberal justice itself in theories of punishment that justify inflicting pain and in the punitive practices that result Exploring vengeance as the defining problem of our time Aladjem returns to the theories of Locke Hegel and Mill He engages the ancient Greeks Nietzsche Paine and Foucault to challenge liberal assumptions about punishment He interrogates American law capital punishment and images of justice in the media He envisions a democratic justice that is better able to contain its vengeance
