Lovejoy's College Guide ,1993 *Ethnicity in College* Anna M. Ortiz,Silvia J. Santos,2023-07-03 This book explores the importance and construction of ethnic identity among college students and how ethnicity interfaces with students interactions on campus and the communities in which they live Based on qualitative interviews with White Latina o African American and Asian students it captures both the college context and the individual experiences students have with their ethnicity through the immediacy of the students own voices The authors observe how students negotiate their ethnic identity within the process of becoming adults They identify the influences of family the importance of socio historical forces that surround students educational experiences and the critical role of peers in students ethnic identity development While research has begun to document the positive outcomes associated with diverse learning environments this study emphasizes and more closely delineates just how these outcomes come to be In addition the study reveals how the freedom to express and develop ethnic identity which multicultural environments ideally support promotes student confidence and achievement in ways which students themselves can articulate This work is distinctive in eschewing an ethnic minority perspective through which Whites are the primary reference group and the standard from which all ethnic and racial identity processes evolve as well as in considering the influences that growing up in a multi ethnic context may have on ethnic identity processes particularly where the other is not White This perspective is particularly important at a time when students entering universities are more likely to come from highly segregated high school environments and will confront ethnic and social differences for the first time in college This book is intended as a resource for researchers and practitioners in psychology and higher education It offers insights for student affairs and higher education administrators and leaders about the ways in which their campus policies and practices can positively influence the development of more supportive campus climates that draw on the strengths of each ethnic group to create an overarching pluralistic culture It can also serve as a cultural diversity text for upper division or graduate courses on pluralism Moreover understanding students ethnic identity their personal growth and adjustment to college it is central to preparing individuals for life in a pluralistic society
