McAlindon,2022-02-24 A study of the poetry of Hardy Yeats and Larkin in relation to their shared preoccupation with time change and loss the most ancient and fertile theme in lyric and reflective verse known to earlier English poets as mutability Though the importance of the socio political and ideological context is in every case acknowledged the literary history context is viewed as primary hence the introductory survey of foundational Renaissance and Romantic poets with whose work Hardy Yeats and Larkin were thoroughly familiar Although a preoccupation with the subject of time and change in the work of these three poets is a critical commonplace no one has ever isolated it for special attention or used it to link them either together or with their historical predecessors This is an entirely new approach to their work The critical methodology employed is evidential and analytical rather than theoretical focussed throughout on the meaning and the mood of each poem and the distinctive individuality of each poet Flickers of Light, Love, and Air Twila Jessop,2017-07-28 All of us have heard

William C. Carroll, 2015-03-08 This book contends that in *Love's Labour's Lost* Shakespeare sought to discover the ways in which the imagination uses and abuses language. The author's critical reading shows that the characters are endowed with a wide variety of rhetorical disguises. Each assumes that his verbal and social point of view is correct and the limitations and virtues of each viewpoint are explored as the drama unfolds. In an elegant examination of theme and style, Professor Carroll heightens the reader's awareness of Shakespeare's marvellously inventive use of language. The author analyzes the different kinds of style, the characters' attitudes toward language, the play's theatrical modes, the frequent metamorphoses, and the debates. The term debate, justified by Shakespeare's use of the medieval *conflictus*, relates to both theme and structure. The author finds that the conflicting theories about the proper relation of language and imagination are resolved stylistically and thematically only in the final Debate between Spring and Winter, where the playwright reasserts the nature and value of good art.
