Peraino,2011-11-17 The lyrics of medieval courtly love songs are characteristically self conscious Giving Voice to Love investigates similar self consciousness in the musical settings Moments and examples where voice melody rhythm form and genre seem to comment on music itself tell us about musical responses to the courtly chanson tradition and musical reflections on the complexity of self expression Modeling Love Dynamics Sergio E. T. Al RINALDI,2015-10-22 This book shows for the very first time how love stories a vital issue in our lives can be tentatively described with classical mathematics Focus is on the derivation and analysis of reliable models that allow one to formally describe the expected evolution of love affairs from the initial state of indifference to the final romantic regime The models are in full agreement with the basic philosophical principles of love psychology Eight chapters are theoretically oriented and discuss the romantic relationships between important classes of individuals identified by particular psychological traits The remaining chapters are devoted to case studies described in classical poems or in worldwide famous films Suburban Space, the Novel and Australian Modernity Brigid Rooney,2018-11-15 Suburban Space the Novel and Australian Modernity investigates the interaction between suburbs and suburbia in a century long series of Australian novels It puts the often trenchantly anti suburban rhetoric of fiction in dialogue with its evocative and imaginative rendering of suburban place and time Suburban Space the Novel and Australian Modernity rethinks existing cultural debates about suburbia in Australia and elsewhere by putting novelistic representations of suburbs suburban interiors homes streets forms and lives over time in dialogue with the often negative idea of suburbia in fiction as an amnesic and conformist cultural wasteland Suburban space the novel and Australian modernity shows in other words how Australian novels dramatize the collision between the sensory terrain of the remembered suburb and the cultural critique of suburbia It is through such contradictions that novels create resonant mental maps of place and time Australian novels are a prism through which suburbs as sites of everyday colonization defined by successive waves of urban development are able to be glimpsed sidelong **The Form of Love** James Kuzner,2021-08-03 Can poetry articulate something about love that philosophy cannot The Form of Love argues that it can In close readings of seven metaphysical poems the book shows how poets of the early modern period and beyond use poetic form to turn philosophy to other ends in order not to represent the truth about love but to create a virtual experience of love in all its guises The Form of Love shows how verse creates love that can t exist without poetry s specific affordances and how poems can in their impossibility prompt love s radical re imagining Like the philosophies on which they draw metaphysical poems imagine love as an intense form of non sovereignty of giving up control They even imagine love as a liberating bondage to a friend a beloved a saint a God or a garden Yet these poems create strange striking versions of such love made in rather than

through the devices structures and forces where love appears Tracing how poems think Kuzner argues requires an intimate form of reading close even too close attention to and thinking with the text Showing how poetry thinks of love otherwise than other fields the book reveals how poetry and philosophy can nevertheless enter into a relation that is itself like love

German Literature of the High Middle Ages Will Hasty, 2006 New essays on the first flowering of German literature in the High Middle Ages and especially during the period 1180 1230 The High Middle Ages and particularly the period from 1180 to 1230 saw the beginnings of a vibrant literary culture in the German vernacular While significant literary achievements in German had already been made in earlier centuries they were a somewhat precarious vernacular extension of Christian Latin culture But the vernacular literary culture of the High Middle Ages was an integral part of broader cultural developments in which the unquestioned validity of traditional authoritative models began to lose its hold A secular culture began to emerge in which positive value began to be attached to the however transitory allegiances pleasures and loves of life In new essays dealing with the most significant literary genres the heroic epics the romances the love lyrics and political poetry and with broader political social and cultural issues control of aggression territorialization this third volume of the Camden House History of German Literature demonstrates how the emergence of a vernacular literary culture in Germany was an important part of a broader cultural transformation in which medieval people began to redefine themselves their relationships to one another and the position of humanity in the scheme of things Contributors Albrecht Classen Nicola McLelland Rodney Fisher Neil Thomas Marion Gibbs and Sidney Johnson R diger Krohn Will Hasty Nigel Harris Susann Samples Sara Poor Michael Resler R diger Brandt Elizabeth A Andersen Ulrich M ller and Franz Viktor Spechtler Ruth Weichselbaumer W H Jackson Charles Bowlus Will Hasty is Professor of German Studies and co founder and co director of the Center for Medieval and Early Modern Studies at the University of Florida

Gastrofascism and Empire Simone Cinotto, 2024-08-08 Food stood at the centre of Mussolini's attempt to occupy Ethiopia and build an Italian Empire in East Africa Seeking to redirect the surplus of Italian rural labor from migration overseas to its own Empire the fascist regime envisioned transforming Ethiopia into Italy's granary to establish self sufficiency demographic expansion and strengthen Italy's international political position While these plans failed the extensive food exchanges and culinary hybridizations between Ethiopian and Italian food cultures thrived and resulted in the creation of an Ethiopian Italian cuisine a taste of Empire at the margins In studying food in short lived Italian East Africa *Gastrofascism and Empire* breaks significant new ground in our understanding of the workings of empire in the circulation of bodies foodways and global practices of dependence and colonialism as well as the decolonizing practices of indigenous food and African anticolonial resistance In East Africa Fascist Italy brought older imperial models of global food to a hypermodern level in all its political technoscientific environmental and nutritional aspects This larger story of food sovereignty entered in racist mass settler colonialism is dramatically different from the plantation and trade colonialisms of other empires and has never been comprehensively told Using an original decolonizing

The aim of this study is to provide an outline of the development from the earliest times to the present day of all the English syntactical constructions with a verbal form as their nucleus Professor Visser's description is based on a very extensive collection of documentary material covering every kind of writing in prose and poetry in the Old Middle and Modern periods drawing on quotations illustrating syntactical phenomena in Bosworth Toller O E D M M E D E D D and D O S T but also making reference to obsolete usages not found in any grammar and to the views of English and American grammarians of the 17th 18th and 19th centuries on the various syntactical constructions The volumes of this work originally appeared in the early sixties and seventies and were well received by readers and reviewers Volumes 1 and 2 underwent correction in the light of these early reactions We should like to think that this work will continue to be available to the scholarly world without great increases in the price We are however only reprinting the individual volumes in small numbers and so we have decided that in order to guarantee a consistent reprint and pricing policy for the future the work should be available henceforth only as a set of four volumes **An Historical Syntax of the English Language** F.Th. Visser,2023-05-08

Frederik Theodor Visser's *An Historical Syntax of the English Language* published in four massive volumes between 1963 and 1973 is certainly one of the cornerstones of research in English linguistics Visser's achievements can hardly be overestimated Before the advent of modern corpus linguistics he compiled a remarkable wealth of detailed philological data from all periods of English and combined this with current grammatical analyses of his time This has made this publications an indispensable resource for anyone investigating the history of English syntax This reproduction of Visser's volumes is more than welcome and timely as the volumes have been out of print for quite some time and were sometimes a little bit difficult to navigate Having a searchable and easy to use online version although maybe not perfect available now means a revival for scholarship that celebrates its fiftieth birthday without losing any of its relevance
