Love's Executioner Irvin D. Yalom, 2012-06-05 A NEW YORK TIMES BEST SELLER An utterly absorbing collection of ten classic tales from the therapist's chair by renowned psychiatrist and best selling author Irvin D Yalom Newsday Why was Saul tormented by three unopened letters from Stockholm What made Thelma spend her whole life raking over a long past love affair How did Carlos's macho fantasies help him deal with terminal cancer In this engrossing book Irvin Yalom gives detailed and deeply affecting accounts of his work with these and seven other patients Deep down all of them were suffering from the basic human anxieties isolation fear of death or freedom a sense of the meaninglessness of life that none of us can escape completely And yet as the case histories make touchingly clear it is only by facing such anxieties head on that we can hope to come to terms with them and develop Throughout Dr Yalom remains refreshingly frank about his own errors and prejudices his book provides a rare glimpse into the consulting room of a master therapist Love's Executioner Irvin D. Yalom, 1991 Contains eight case studies of people the author has treated including a woman of 67 obsessively pining with love for her 32 year old previous therapist and a woman of 19 stone who has emotional difficulties because of her weight problem This title includes stories that reveal the diversity of human motivation *Love's Executioner and Other Tales of Psychotherapy* Irvin D. crisis point in what is currently taken as psychotherapeutic knowledge A focus point is the relentless move in psychotherapy and psychotherapy trainings towards evidence based practice It is suggested that such developments can be usefully challenged if we are to consider Can starting with theory be a form of violence Should a primacy be given to practice Does reliance on empirical research mean we start from the wrong place From a critical existential analytic psychotherapeutic perspective the answer to all three of these questions is yes This perspective therefore is fundamentally different from what psychological therapists are increasingly purporting to do and further challenges other current notions from diagnosis and treatment to dominant discourses in psychology The aim of this book is to consider some ways in which the psychological therapies might be able to move away from the crisis mainly caused by what is currently wrongly being understood in terms of evidence based practice as the nature of psychotherapeutic knowledge Instead it is proposed that primacy be given to practice considering theories having implications rather than applications and privileging thoughtfulness with notions of research being seen more as cultural practices This book is based on a special issue of the European Journal of Psychotherapy Counselling
