is not located in the brain and also can cause actions over distance that there is no solid matter in the universe it is all energy in one form or another He further states that a field of energy outside the material universe has been discovered where speeds exceed that of light It has also been found that our human consciousness is directly connected with matter and influences at least its microscopic particles The nature of the universe as being holographic is explored These scientific findings have profound spiritual significance He quotes experts on the future of mankind including Arthur C Clark Nobel physicist Brian Josephson Stephen Hawking etc and many more Reading this book will prepare you for the new age that is fast enveloping the earth The author s message is that in spite of the terrorism and devastation of the earth currently going on there is powerful hope There are powerful spiritual forces at work which will overcome the present chaos and lead us into a life of enlightenment and eventually of love

The Mafia Roberto M. Dainotto,2015-04-15 What is it about Tony Soprano that makes him so amiable For that matter how is it that many of us secretly want Scarface to succeed or see Michael Corleone as ultimately a hero What draws us into the otherwise horrifically violent world of the mafia In The Mafia Roberto M Dainotto explores the irresistible appeal of this particular brand of organized crime its history and the mythology we have developed around it Dainotto traces the development of the mafia from its rural beginnings in Western Sicily to its growth into a global crime organization alongside a parallel examination of its evolution in music print and on the big screen He probes the tension between the real mafia its violent often brutal reality and how we imagine it to be a mythical potpourri of codes of honor family values and chivalry But rather than dismiss our collective imagining of the mafia as a complete fiction Dainotto instead sets out to understand what needs and desires or material and psychic longing our fantasies about the mafia the best kind of the bad life are meant to satisfy Exploring the rich array of films books television
