Film Art Phenomena Nicky Hamlyn, 2019-07-25 Alongside the commercial cinema of narrative and spectacle there has always been another practice call it avant garde experimental or artists film as opposed to art cinema It is this work that Nicky Hamlyn himself an acclaimed film maker in the alternative tradition investigates in Film Art Phenomena The work takes its cue from modern trends in other artforms notably painting and sculpture This is film making that emphasises the nature of its apparatus and medium in order to bring about a critical inquisitive state of mind in the viewer It deconstructs anatomises and reimagines what film images are it builds new machines it recreates the setting of cinema or expands into new kinds of performance and exhibition It often has a political dimension urging audiences to make a free and active response not a passive consumerist one Hamlyn's major new study treats artists film conceptually in order to explore key categories that connect different works and film makers from framing to digital media installation to interactivity point of view to sound In so doing he considers the work of Stan Brakhage Malcolm Le Grice and Michael Snow as well as younger artists such as Karen Mirza and Brad Butler Jennifer Nightingale and Colin Crockatt among many others Film Art Phenomena is a crucial intervention in debates about the modes of film making that diverge from and oppose the mainstream
