*Synagogues of New York City* Oscar Israelowitz, 2000      **Oscar Israelowitz's Guide to Jewish Europe** Oscar Israelowitz, 1999      *Borough Park*, 1998      *Directories in Print*, 2011      **Oscar Israelowitz's United States Jewish Travel Guide** Oscar Israelowitz, 2003      *Tour Book* American Automobile Association, 2006      *Handbook of the Linguistic Atlas of the Middle and South Atlantic States* William A. Kretzschmar, William A. Kretzschmar Jr., 1993-09-15 Who uses skeeter hawk snake doctor and dragonfly to refer to the same insect Who says gum band instead of rubber band The answers can be found in the *Linguistic Atlas of the Middle and South Atlantic States* LAMSAS the largest single survey of regional and social differences in spoken American English It covers the region from New York state to northern Florida and from the coastline to the borders of Ohio and Kentucky Through interviews with nearly twelve hundred people conducted during the 1930s and 1940s the LAMSAS mapped regional variations in vocabulary grammar and pronunciation at a time when population movements were more limited than they are today thus providing a unique look at the correspondence of language and settlement patterns This handbook is an essential guide to the LAMSAS project laying out its history and describing its scope and methodology In addition the handbook reveals biographical information about the informants and social histories of the communities in which they lived including primary settlement areas of the original colonies

Dialectologists will rely on it for understanding the LAMSAS and historians will find it valuable for its original historical research. Since much of the LAMSAS questionnaire concerns rural terms, the data collected from the interviews can pinpoint such language differences as those between areas of plantation and small farm agriculture. For example, LAMSAS reveals that two waves of settlement through the Appalachians created two distinct speech types. Settlers coming into Georgia and other parts of the Upper South through the Shenandoah Valley and on to the western side of the mountain range had a Pennsylvania-influenced dialect and were typically small farmers. Those who settled the Deep South in the rich lowlands and plateaus tended to be plantation farmers from Virginia and the Carolinas who retained the vocabulary and speech patterns of coastal areas. With these revealing findings, the LAMSAS represents a benchmark study of the English language, and this handbook is an indispensable guide to its riches.

**Assessing Urban Design** Richard W. Berman, 2006-01-01 How do people perceive urban design? What is it about design that influences our perceptions? *Assessing Urban Design* is a search to better understand how people perceive the physical environments that surround them. Touching on issues of urban design, planning, architecture, historic preservation, and tourism, Berman combines theoretical essays and empirical research to explore waterfront sites in Philadelphia and Yokohama. Topics discussed include The Distinct and the Unique, Predictability and Surprise, Packaging and Historical Ambience. Berman's research consists of photo surveys and interviews conducted on the waterfronts of the chosen cities. His findings are useful in deepening our understanding of people's preferences in urban design and historic preservation. An important work for scholars and students of architecture, urban planning, historic preservation, and tourism.
