Loyalists And Loners:

Loyalists and Loners Michael Foot, 1986-01 **Loyalists and Loners** Michael Foot, 1986 This is a collection of Michael Foot's essays. The volume is split into four categories: A Labour Party Gallery, Four Prime Ministers, A Miscellany of Cross Breeds, and Some True Prophets.

Of Herds and Hermits Terry Reed, 2009 Celebrated for its commitment to independence and fearless individualism, America in fact dismisses independent thinkers and nonconformists in favor of the team player, the company man, and the go-along-to-get-along mentality. This anti-intellectual mindset despises and discredits those who are solitary and reclusive. While we look up to literary loners like Poe and Melville and Dickinson, the man in the street is a compulsive joiner of clubs and herds, from university frats to the Order of the Pink Goat. To the contrary, this book is a paean vigorously endorsing America's lone wolves, cultural hermits, and all such independent thinkers, solitary and marginalized figures who are the cultural bedrock of the nation that detests them.

Eminent Parliamentarians Philip Norton, 2012-10-22 To celebrate the centenary of the 1911 Parliament Act, John Bercow, Speaker of the House of Commons, instigated a series of public lectures in which current parliamentarians assessed the careers and characters of parliamentary giants. The result was a sequence of fascinating appraisals covering a distinguished but eclectic array of politicians who made a name for themselves not only in the House of Commons but also throughout the country. The subjects of the lectures came from diverse backgrounds, advocated very different political philosophies, and indeed some make surprising bedfellows. But they all had one thing in common: driven by a set of particular beliefs, they were prepared to do whatever was necessary in pursuit of their goals. From Nicholas Soames's warm familial tribute to his grandfather Winston Churchill to Neil Kinnock's account of an affectionate though sometimes fraught relationship with Michael Foot, the roll call of both lecturers and subjects is outstanding. With his subject sitting in the audience, Tristram Hunt delivers the lecture on Tony Benn. Shirley Williams looks at the life of Nancy Astor, the first woman to take her seat in Parliament. Philip Norton and Peter Tapsell tackle the towering figures of Enoch Powell and F.E. Smith as an authority on his subject. Kenneth Morgan discusses David Lloyd George, while fellow historian Gordon Marsden speaks on Aneurin Bevan. Douglas Hurd reflects on the life of Iain Macleod, and Andrew Adonis and John Whittingdale both provide an insider's insight into the parliamentary lives of Roy Jenkins and Margaret Thatcher. With a foreword by John Bercow and an introduction by Philip Norton, this is an impressive collection of lectures delivered by expert speakers on the most eminent of parliamentarians.

Contemporary Postcolonial Theory Padmini Mongia, 2021-01-07 There is a crisis in contemporary postcolonial theory while an enormous body of challenging research has been produced under its auspices severely critical questions about the validity and usefulness of this theory have also been raised This Reader is positioned at the juncture where it can address these contestations It makes available some of the classics of the field engages with the issues raised by

contemporary practitioners but also offers several of the arguments that strongly critique postcolonial theory. Although postcolonial theory purports to be inter disciplinary and frequently anti foundationalist traces of disciplinary formations and linearity have continued to haunt its articulations. This Reader on the other hand offers a uniquely inter disciplinary mapping. It is concerned with three main areas: definitional problems and contests including the current challenges to postcolonial theory; the disciplining of knowledge where the multiple resonances of the word disciplining are all engaged; and the location of practice where the relations between intellectual practice and historical conditions are explored. Finally, since the guiding principle of this Reader is simultaneous attention to the enabling and constraining mechanisms of historical realities and institutional practices, the commentary problematizes the writing of histories, the formations of canons and indeed the production of Readers.

Choosing the Labour Leader Timothy Heppell, 2010-08-30. The change in the method of selecting the Labour Party leader from an elite parliamentary ballot to a mass participatory Electoral College which occurred in 1981 was ideologically motivated. However, the strategy of the Left to enhance the accountability of the incumbent party leader to the wider Labour movement and the Left's chances of securing an ideological succession in the party leadership failed. Drawing together debates on the method of party leadership selection and the ideological positioning of leadership candidates, this book examines each leadership election since 1963 as a means of

charting the decline of the left within the Labour Party Given the bypassing of the Electoral College to appoint Gordon Brown in 2007 and the debates surrounding his authority and legitimacy as Labour Party leader thereafter this book offers a comprehensive and timely examination of Labour Party leadership elections from Wilson to Brown which will be invaluable for scholars of British Politics and the history of the Labour Party **R.H.
