Lua Thieng:

The Ethnic Chinese and Economic Development in Vietnam Khánh Trần, 1993 Economic reforms in Vietnam have allowed its ethnic Chinese citizens to prosper but growing Chinese economic strength harbours the seeds of political problems The topic is also meshed with the larger concern of Sino Vietnamese relations which in the best of times can be coloured by a suspicion which goes back centuries In the worst of times as in 1978 79 both sides were engaged in open warfare To understand the current situation *The Ethnic Chinese and Economic Development in Vietnam* delves into the origins of Chinese settlement in Vietnam tracking the flow of history through the major events which have shaped the Chinese mercantile community and made it what it is today The most significant feature of Dr Tran Khanh s work is that it draws on Western Russian and Vietnamese sources as well as the writer s own familiarity with the actual situation on the ground

Vietnamese Communism, 1925-1945 Kim Khánh Huỳnh,1986 From a cell of nine men in 1925 the Vietnamese Communists grew by December 1976 into a massive party with over 1 5 million members and the organizational and military capabilities to defeat the United States What factors account for the outstanding success of the Indochinese Communist

Party In this book Huynh Kim Khanh traces the Vietnamese Communist movement from its inception as a radical youth group founded by Ho Chi Minh then Nguyen Ai Quoc to its half planned half accidental victory in 1945 Understanding Vietnam Neil L. Jamieson, 2023-11-15 The American experience in Vietnam divided us as a nation and eroded our confidence in both the morality and the effectiveness of our foreign policy Yet our understanding of this tragic episode remains superficial because then and now we have never grasped the passionate commitment with which the Vietnamese clung to and fought over their own competing visions of what Vietnam was and what it might become To understand the war we must understand the Vietnamese their culture and their ways of looking at the world Neil L. Jamieson after many years of living and working in Vietnam has written the book that provides this understanding Jamieson paints a portrait of twentieth century Vietnam Against the background of traditional Vietnamese culture he takes us through the saga of modern Vietnamese history and Western involvement in the country from the coming of the French in 1858 through the Vietnam War and its aftermath Throughout his analysis he allows the Vietnamese both our friends and foes and those who wished to be neither to speak for themselves through poetry fiction essays newspaper editorials and reports of interviews and personal experiences By putting our old and partial perceptions into this new and broader context Jamieson provides positive insights that may perhaps ease the lingering pain and doubt resulting from our involvement in Vietnam As the United States and Vietnam appear poised to embark on a new phase in their relationship Jamieson's book is particularly timely The American experience in Vietnam divided us as a nation and eroded our confidence in both the morality and the effectiveness of our foreign policy Yet our understanding of this tragic episode remains superficial because then and now we have never grasped the passionate commitment with which the Vietnamese clung to and fought over their own competing visions of what Vietnam was and what it might become To understand the war we must understand the Vietnamese their culture and their ways of looking at the world Neil L. In Search of Moral Authority Van Nguyen-Marshall, 2008 In Search of Moral Authority The Discourse on Poverty Poor Relief and Charity in French Colonial Vietnam is a pioneering exploration of the discourses on poverty and poor relief activities in early twentieth century Northern Vietnam Treating poverty as a socially constructed idea Van Nguyen Marshall argues that poor relief was a domain where both French colonialists and Vietnamese intellectuals vied for moral authority For the French colonial officials poor relief fell within the purview of the French civilizing mission the official justification for imperialism However the colonial agenda racial prejudices and the French administrators own ambivalent attitudes toward the poor made any attempt at poor relief doomed for failure For Vietnamese intellectuals the discourse and activities on poor relief became a rallying call for patriotism nationalism and for some anti colonialism In Search of Moral Authority deals with social issues such as charity and poor relief as well as the construction of national and gender identity by Vietnamese intellectuals This book is essential reading for students and specialists of Vietnamese history as well as those interested in issues of poverty public welfare and charity Thailand and the Southeast Asian Networks of The Vietnamese Revolution, 1885-1954 Christopher E. Goscha, 2013-09-05 Christopher Goscha resituates the Vietnamese revolution and war against the French into its Asian context Breaking with nationalist and colonial historiographies which have largely locked Vietnam into Indochinese or Nation

state straightjackets Goscha takes Thailand as his point of departure for exploring how the Vietnamese revolution was intimately linked to Asia between the birth of the Save the King Movement in 1885 and the Battle of Dien Bien Phu in 1954 But his study is more than just a political history Goscha brings geography to bear on his subject with a passion While he considers the little known political movements of such well known faces as Phan Boi Chau and Ho Chi Minh across Southeast Asia the author takes us into the complex Asian networks stretching from northeastern Thailand and the port of Bangkok to southern China and Hong Kong and beyond There we see how Ho and Chau drew upon an invisible army of Vietnamese and Chinese traders criminals prostitutes sailors and above all the thousands of emigres living in Vietnamese communities in Thailand

The Vietnamese Family in Change Pham Van Bich, 2013-10-11 Like most societies Vietnam has seen marked changes in family structures and dynamics this century For Vietnam however these changes have been especially radical After decades of French acculturation the 1940s brought sweeping economic changes and a move away from collectivism Perhaps because of Vietnam's long isolation from the late 1970s into the early 1990s very little has been written on the Vietnamese family This text provides an examination of the Vietnamese family focusing on two fundamental relationships husband wife and parent children within their wider social and historical context The author explores how and why marital partners are chosen individual's domains within the family reproduction and birth control son preference ancestor worship and the role of the state As such the study will be of interest not just to sociologists but also to those scholars looking to understand the current social transformation of Vietnam

The Chinese State at the Borders Diana Lary, 2011-11-01 In this ground breaking study Hsiao Ting Lin demonstrates that the Chinese frontier was the subject neither of concerted aggression on the part of a centralized and indoctrinated Chinese government nor of an ideologically driven nationalist ethno-politics Instead nationalist sovereignty over Tibet and other border regions was the result of rhetorical grandstanding by Chiang Kai shek and his regime Tibet and Nationalist China's Frontier makes a crucial contribution to the understanding of past and present China Tibet relations A counterpoint to erroneous historical assumptions this book will change the way Tibetologists and modern Chinese historians frame future studies of the region

Facing the Future, Reviving the Past John Kleinen, 1999 A Study of Social Change in a Northern Vietnamese Village is based on anthropological fieldwork between 1992 and 1996 in a small Red River delta village It treats the history of the village since its foundation in the mid seventeenth century based on existing French and Vietnamese archival materials At the same time the book discusses the essentialist character of the Vietnamese village community Special interest is devoted to internal politics within the village which enable powerful lineages and groups to regain political and social power within the village The recent revival of religious activities as a result of the renovation policy is taken into consideration Since Vietnamese society is changing at a very fast pace a longitudinal study of this nature provides the reader with a firsthand account of the interplay between the reform under a Marxist regime and local village society

Approaching Transnationalisms Brenda Yeoh, Michael W. Charney, Tong Chee

Kiong,2003-06-30 The term transnationalism has gained considerable academic and popular currency despite a lack of clear definitions in part because its overall form changes as its influence incorporates additional spheres of daily life on a variety of scales and contexts The purpose of this volume is to bring together different perspectives on this phenomenon using case studies that represent some of the most current thinking on transnationalism in a wide range of disciplines Central themes which this book explores include legal and economic reactions to transnational migration the re negotiation of identities in the context of changing national social and cultural identities and the emergence of new imaginings of home and social space in transnational communities Approaching Transnationalisms Studies on Transnational Societies Multicultural Contacts and Imaginings of Home foregrounds powerful transnational forces crossing the boundaries of nation states and at the same time gives attention to the continued significance of the nation state and the diversity of localized reactions to transnational challenges Select List of Recent Publications East-West Center.
