Hispanic New York Claudio Iván Remeseira, 2010 Over the past few decades a wave of immigration has turned New York into a microcosm of the Americas and enhanced its role as the crossroads of the English and Spanish speaking worlds Yet far from being an alien group within a mainstream and supposedly pure Anglo America people referred to as Hispanics or Latinos have been part and parcel of New York since the beginning of the city's history They represent what Walt Whitman once celebrated as the Spanish element of our nationality Hispanic New York is the first anthology to offer a comprehensive view of this multifaceted heritage Combining familiar materials with other selections that are either out of print or not easily accessible Claudio Iván Remeseira makes a compelling case for New York as a paradigm of the country's Latinoization His anthology mixes primary sources with scholarly and journalistic essays on history demography racial and ethnic studies music art history literature linguistics and religion and the authors range from historical figures such as José Martí Bernardo Vega or Whitman himself to contemporary writers such as Paul Berman Ed Morales Virginia Sánchez Korrol Roberto Suro and Ana Celia Zentella This unique volume treats the reader to both the New York and the American experience as reflected and transformed by its Hispanic and Latino components **Hispanic Literature of the United States** Nicolás

Protestantism in Guatemala Virginia Garrard-Burnett, 2010-07-22 Guatemala has undergone an unprecedented conversion to Protestantism since the 1970s so that thirty percent of its people now belong to Protestant churches more than in any other Latin American nation To illuminate some of the causes of this phenomenon Virginia Garrard Burnett here offers the first history of Protestantism in a Latin American country focusing specifically on the rise of Protestantism within the ethnic and political history of Guatemala Garrard Burnett finds that while Protestant missionaries were early valued for their medical clinics schools translation projects and especially for the counterbalance they provided against Roman Catholicism Protestantism itself attracted few converts in Guatemala until the 1960s Since then however the militarization of the state increasing public violence and the globalization of Guatemalan national politics have undermined the traditional ties of kinship custom and belief that gave Guatemalans a sense of identity and many are turning to Protestantism to recreate a sense of order identity and belonging
