Stephen King's Contemporary Classics Philip L. Simpson, Patrick McAleer, 2014-11-13 Many readers know Stephen King for his early works of horror from his fiction debut *Carrie* to his blockbuster novels *The Shining* *The Stand* and *Misery* among others While he continues to be a best selling author King's more recent fiction has not received the kind of critical attention that his books from the 1970s and 1980s enjoyed Recent novels like *Duma Key* and *11/22/63* have been marginalized and arguably cast aside as anomalies within the author's extensive canon In *Stephen King's Contemporary Classics Reflections on the Modern Master of Horror* Philip L. Simpson and Patrick McAleer present a collection of essays that analyze assess and critique King's post 1995 compositions Purposefully side stepping studies of earlier work these essays are arranged into three main parts the first section examines five King novels published between 2009 and 2013 offering genuinely fresh scholarship on King the second part looks at the development of King's distinct brand of horror the third section departs from probing the content of King's writing and instead focuses on King's process By concentrating on King's most recent writings this collection offers provocative insights into the author's work featuring essays on *Dr Sleep* *Duma Key* *The Girl Who Loved Tom Gordon* *Joyland* *Under the Dome* and others As such *Stephen King's Contemporary Classics* will appeal to general fans of the author's work as well as scholars of Stephen King and modern literature

by censorship Malykhina presents the changes and continuities between rhetoric strategies of Soviet style media and postcommunist Russian media identifying the key literary and historical references in public discourse which are then picked up by the media The book analyzes the political cultural and social factors at play in the development and expansion of these allusions in both official and alternative discourses Examining the rise of the Internet which has remained wholly uncensored in Russia Malykhina reveals that the Russian Internet media began to function as alternative mass media Yet the success of the Internet media has also brought complex and unintended consequences Malykhina offers an empirically rich examination of conventional classical allusions in media discourse focusing mainly on the rhetorical techniques by which subversive meanings of these references were generated

Modern Hungarian Culture and the Classics Péter Hajdu, 2024-06-13 Péter Hajdu examines the cultivation of the Classics as an intellectual framework and crucial ingredient of the western aspect of Hungarian national identity This book approaches the relationship of modern Hungarian culture to classical heritage from the various viewpoints of identity politics education translation history scholarship and its impact on literature When the Hungarian nation building project developed ideas of national identity it necessarily incorporated the historical narrative according to which the Hungarians arrived at their current homeland in the Middle Ages and only later did it adopt European culture The duplicity of a mostly imagined Asian pagan barbaric or nomadic culture and a Western Christian civilized identity deeply rooted in European culture has played and continues to play a role in the Hungarian discourse Hajdu also studies the gradual disappearance of classics from the Hungarian school education since the 19th century which has been accompanied by fervid political debates However over this period translations of classical texts paradoxically became more frequent and popular with the decline of a classical education even though fewer readers had access to the original texts Despite this change the translation strategies tended to remain school bound The knowledge of classical literature still leaves traces on Hungarian literature which Hajdu explores using examples from nineteenth century novels and contemporary poetry This book sheds light on a topic of classical reception that has remained largely unexplored in this part of Europe but one which has an incredibly rich history culture and literary tradition

Contemporary Sino-French Cinemas Michelle E. Bloom, 2017-11-30 Transnational cinemas are eclipsing national cinemas in the contemporary world and Sino French films exemplify this phenomenon through the cinematic coupling of the Sinophone and the Francophone linking France not just with the Chinese mainland but also with the rest of the Chinese speaking world Sinophone directors most often reach out to French cinema by referencing and adapting it They set their films in Paris and metropolitan France cast French actors and sometimes use French dialogue even when the directors themselves don't understand it They tend to view France as mysterious sexy and sophisticated just as the French see China and Taiwan as exotic As Michelle E Bloom makes clear many films move past a simplistic opposition between East and West and beyond Orientalist and Occidentalist cross cultural interplay Bloom focuses on films that have appeared since 2000 such as Tsai Ming-liang's *What Time Is It There* Hou Hsiao

hsien's *Flight of the Red Balloon* and Dai Sijie's *Balzac and the Little Chinese Seamstress*. She views the work of these well-known directors through a Sino-French optic applying the tropes of *métissage* or biraciality, intertextuality, adaptation and remake, translation and imitation to shed new light on their work. She also calls attention to important lesser-studied films: Taiwanese director Cheng Yu-chieh's *Yang Yang* which depicts the up-and-coming Taiwanese star Sandrine Pinna as a mixed-race beauty and Emily Tang Xiaobai's debut film *Conjugation* which contrasts Paris and post-Tiananmen Square Beijing: the one an incarnation of liberty, the other a place of entrapment. Bloom's insightful analysis also probes what such films reveal about their Taiwanese and Chinese creators. Scholars have long studied Sino-French literature, but this inaugural full-length work on Sino-French cinema maps uncharted territory, offering a paradigm for understanding other cross-cultural interminglings and tools to study transnational cinema and world cinema. The Sino-French, rich and multifaceted, linguistically, culturally and ethnically constitutes an important part of film studies, Francophone studies, Sinophone studies and myriad other fields. This is a must-read for students, scholars and lovers of film.

Japanese Classical Theater in Films Keiko I. McDonald, 1994. Noh, Kabuki and Bunraku are the three distinct genres of classical theater that have made Japan's dramatic art unique. The audience steeped in these traditional theatrical forms sees many aspects of stage conventions in Japanese cinema. This intimacy makes the aesthetic intellectual experience of films more enriching. *Japanese Classical Theater in Films* aims at heightening such awareness in the West, the awareness of the influence that these three major dramatic genres have had on Japan's cinematic tradition. Using an eclectic critical framework, a solid combination of historical and cultural approaches reinforced with formalist and auteurist perspectives, Keiko I. McDonald undertakes this much-needed ambitious task.

Classical Storytelling and Contemporary Screenwriting Brian Price, 2017-12-14. Since we first arrived on the planet

we've been telling each other stories whether of that morning's great saber tooth tiger hunt or the latest installment of the Star Wars saga. And throughout our history despite differences of geography or culture we've been telling those stories in essentially the same way. Why? Because there is a RIGHT way to tell a story, one built into our very DNA. In his seminal work *Poetics*, Aristotle identified the patterns and recurring elements that existed in the successful dramas of his time as he explored precisely why we tell stories, what makes a good one, and how to best tell them. In *Classical Storytelling and Contemporary Screenwriting*, Brian Price examines Aristotle's conclusions in an entertaining and accessible way and then applies those guiding principles to the most modern of storytelling mediums, going from idea to story to structure to outline to final pages and beyond, covering every relevant screenwriting topic along the way. The result is a fresh new approach to the craft of screenwriting, one that's only been around a scant 2,500 years or so, ideal for students and aspiring screenwriters who want a comprehensive step-by-step guide to writing a successful screenplay the way the pros do it. **A History of**

William Baker, 2015-07-29 This book is both a celebration of the life and career of the eminent literary scholar, critic, and journalist John Sutherland and an extension of Sutherland's work in various fields, including nineteenth and twentieth-century Anglo-American literature, the publishing industry, and its impact upon creativity and literary puzzles. With contributions from over twenty-five distinguished critics, literary journalists, and scholars, this book goes beyond merely describing Sutherland's work. The essayists pay homage to Sutherland while also staking their own critical scholarly claims. From investigating the publishing dimension of Victorians' major and minor works to the complexities of Dickens and George Eliot, the archeology of *Pride and Prejudice* to examining the implications of Shakespearean souvenirs, literary puzzles, and Non-Victorians, the essays offer fresh dimensions to Sutherland's rich career as a professor, critic, and journalist. *Quarterly*
