

# Guide for Mental Health Carers

on the National Disability Insurance Scheme

## Who is this guide for?

This guide is for people who provide unpaid care and support to a family member or friend with a **psychosocial disability\*** associated with a mental illness or mental health condition.

*\*Words and acronyms in bold are explained at the end of this guide.*

## Where is this guide available?

This guide is available from the Mental Health Australia and Carers Australia websites:

## What is psychosocial disability?

You might notice some differences between the terms used in National Disability Insurance Scheme (NDIS) materials<sup>1</sup> which refer to “impairments” attributable to a “psychiatric condition” and “reduced psychosocial functioning”, and this guide, which refers to **psychosocial disability**.

Mental Health Australia and Carers Australia prefer to use the term **psychosocial disability**, which describes the experience of people with impairments and participation restrictions related to **mental health conditions**. These impairments can include a loss of ability to function, think clearly, experience full physical health, and manage the social and emotional aspects of their lives.

**Psychosocial disability** relates to the ‘social consequences of disability’—the effects on someone’s ability to participate fully in life as a result of mental ill-health. Not everyone with a mental illness will have a level of impairment that will result in a **psychosocial disability**.<sup>2</sup>
