Ragep, 2013-06-29 I was introduced to Tiisi and his Tadhkira some 19 years ago That first meeting was neither happy nor auspicious My graduate student notes from the time indicate a certain level of confusion and frustration I seem to have had trouble with such words as tadvlwr epicycle which was not to be found in my standard dictionary and with the concept of solid sphere astronomy which when found was pooh poohed in the standard sources I had another even more decisive reaction boredom Only the end of the term brought relief and I was grateful to be on to other more exciting aspects of the history of science A few years later I found myself thanks to fellowships from Fulbright Hays and the American Research Center in Egypt happily immersed in the manu script collections of Damascus Aleppo and Cairo Though I had intended to work on a topic in the history of mathematics I was drawn perhaps inevitably to a certain type of astronomical writing falling under the rubric of hay a At first this fascination was based on sheer numbers that so many medieval scientists could have written on such a subject must mean something I told myself I was in a sociological mode at the time      Naṣīr al-Dīn al-Ṭūsī's Memoir on Astronomy (al-Tadhkira fi cilm al-hay'a) F. *Nasir al-Din al-Tusi's Memoir on Astronomy - AlTadhkira fi Ilm al-Haya* Naṣīr al-Dīn Muḥammad ibn Muḥammad Ṭūsī, F. J. Ragep, 1993 Tusi 1201-1274 A.D. was an Arabic scholar whose writings became the standard texts in several disciplines for several centuries They include editions of Euclid's *Elements* and Ptolemy's *Almagest* as well as other books on mathematics and astronomy and books on logic ethics religion He wrote the *Tadhkira* to be a summary account of astronomy presented in narrative form The details are expounded and proofs of the validity are furnished in the *Almagest* Indeed ours would not be a complete science if taken in isolation from the *Almagest* for it is a report of what is established therein It is thus not only a sort of running commentary on the *Almagest* but also an account of medieval Arabic cosmology Jamil Ragep has not only translated the text of the *Tadhkira* but has also provided a lengthy introduction with a biography of Tusi and a discussion of the context in which the *Tadhkira* was written and its influence as well as a detailed and thorough commentary on each section of the text
