Reminiscences of Old Gloucester, Or, Incidents in the History of the Counties of Gloucester, Atlantic and Camden, New Jersey Isaac Mickle, 1845 Decisions and Orders of the National Labor Relations Board United States. National Labor Relations Board, 1988 *Safety of Life at Sea* United States. Congress. Senate. Committee on Commerce. Cashman, 2002-01-01 With the increasing availability of biological and chemical materials the threat of terrorism grows daily Innocent bystanders the major targets of terrorists because they gain the most publicity create a vast number of potential victims In our changing world horrendous violence has become commonplace The growth of incidences involving chemical and biological agents has created a need for local response teams to be aware of the dangers they face Emergency Response to Chemical and Biological Agents serves as a training manual for emergency responders who handle incidents involving biological and chemical hazardous materials The author covers poisons such as nerve blood blister and choking gases and biological agents such as anthrax typhus and cholera Using examples ripped from the headlines he explains what is and is not a terrorist act and the difference in handling each incident In addition the author explains the standard operating procedures of Hazardous Materials Teams before during and after an incident Whether terrorist act or chemical spill local responders usually reach the scene first As these incidents multiply and they will these teams will need a blueprint for dealing with chemical and biological materials Emergency Response to Chemical and Biological Agents provides a clear concise plan of action for responding to these incidents

Europeans Abroad, 1450-1750 David Ringrose, 2018-08-10 This innovative book looks beyond the traditional history of European expansion which highlights European conquests empire building and hegemony in order to explore the more human and realistic dimensions of European experiences abroad David Ringrose argues that Early Modern Europe was relatively poor and that its industrial and military technology while distinctive in some ways was not obviously superior to that of Africa or Asia As a result the interaction between Europeans abroad and the peoples they met was vastly different from the relationship created by the economic and military imperialism of the post 1750 Industrial Revolution Instead the author depicts it as a process of cultural interaction collaboration and assimilation masked by narratives of European conquest or assertion of control Ringrose convincingly shows that Europeans who went abroad before 1700 engaged in an exchange of cross cultural contact and has framed the process in its own time rather than as the precursor of what came later Then as now historical actors knew nothing of the unexpected consequences of their actions Potcakes William J.

Fielding, Jane Mather, Maurice Isaacs, 2005 Annotation The dog population in the Bahamas consists mainly of mongrels called Potcakes a term unique to the greater Bahamas archipelago Potcakes provides the first systematic study of dog ownership in a Caribbean society by investigating the Bahamian perceptions of pet and responsible pet ownership in the context of both dog overpopulation concerns and how image dogs like Rottweilers and Pit Bulls have interacted with and altered the Potcake population *High Command* David Horner, 2021-03-30 Since it was first published in 1982 *High Command* had become the standard reference for anyone interested in Australia's participation in the Second World War this edition was originally published in 1992 The 50th anniversary of battles such as Singapore Coral Sea and Kokoda in 1942 reawakened interest in these milestones in Australia's struggle for independence Despite the well known exploits of Australian servicemen in a score of famous battles Australia's contribution to the war was ultimately determined by the strategic policy makers in Canberra Washington and London How competent were our politicians military leaders and advisers in formulating our own war strategy How much did the performance of Australian troops on the battlefield affect our ability to influence allied strategy The author describes the clash between Generals Rowell and Blamey in Greece He reveals the impact of the secretary of the Department of Defence Sir Frederick Shedden on strategic policy making He analyses the role of intelligence especially signals intelligence in allied strategy He shows how Blamey's miscalculation in 1944 removed any chance of Australian troops joining the Americans in the Philippines And he reveals how a British admiral challenged the authority of the Australian government *High Command* presents the remarkable full story of the political battles behind the military battles
