Chacon, Rubén G. Mendoza, 2011-12-15 The decision to publish scholarly findings bearing on the question of Amerindian environmental degradation warfare and or violence is one that weighs heavily on anthropologists This burden stems from the fact that documentation of this may render descendant communities vulnerable to a host of predatory agendas and hostile modern forces Consequently some anthropologists and community advocates alike argue that such culturally and socially sensitive and thereby politically volatile information regarding Amerindian induced environmental degradation and warfare should not be reported This admonition presents a conundrum for anthropologists and other social scientists employed in the academy or who work at the behest of tribal entities This work documents the various ethical dilemmas that confront anthropologists and researchers in general when investigating Amerindian communities The contributions to this volume explore the ramifications of reporting and specifically of non reporting instances of environmental degradation and warfare among Amerindians Collectively the contributions in this volume which extend across the disciplines of archaeology anthropology ethnohistory ethnic studies philosophy and medicine argue that the non reporting of environmental mismanagement and violence in Amerindian communities generally harms not only the field of anthropology but the Amerindian populations themselves      **Think**, 1954      **Monet to Moore** Richard R. Ikehara-Tsukayama, Dawn Kriss, Joanne Pillsbury, 2023-05-05 Pottery is one of the world's most ancient and widespread technologies Containing the Divine Ancient Peruvian Pots explores how ceramic vessels can convey meaning far beyond their practical use As this Bulletin attests before the implementation of writing as we understand it today Andean artisans used the shape and decoration of jars and bottles to communicate essential information for ritual practice and to promote the exchange of ideas The more than 40 evocative works featured in these pages represent some 2 500 years of creativity in ancient Peru with a focus on how these imaginative works served as conduits to worldly and divine power Providing a rich opportunity to reflect on devotional practices of the past and today Containing the Divine also shows how the legacy of these pots has inspired subsequent generations worldwide from nineteenth century British potters and French Post Impressionist Paul Gauguin to contemporary Peruvian artist Juan Javier Salazar      Lectio Divina as Contemplative Pedagogy Mary Keator, 2017-12-14 Offering an original application of the ancient monastic practice of lectio divina to the humanities this book demonstrates the need for further emphasis on deep reading reflection and contemplation in contemporary university classrooms Each chapter provides readers with an historical overview of the four movements of this monastic method lectio reading meditatio interpreting oratio responding and contemplatio experiencing wisdom and suggests ways to incorporate these practices in humanities courses Keator demonstrates that the lectio divina method is a viable pedagogical tool to guide students slowly and methodically through literary texts and into a subjective experience of wisdom and meaning
