Nation Building In Yugoslavia A Study Of Political Integration And Attitudinal:

Nation-building in Yugoslavia Gary K. Bertsch,1971 The Rise and Fall of Communist Yugoslavism Tomaž

Ivešić,2024-03-05 The Rise and Fall of Communist Yugoslavism Soft Nation Building in Yugoslavia examines how the Communist Party of Yugoslavia incorporated the idea of a Yugoslav nation into its ideology and created the Yugoslav Soft Nation Building project after the Second World War With an innovative approach of researching three levels of research from above from below and from the viewpoint of interethnic relations the book brings forward an original concept of soft nation building with a focus on the Slovenian Yugoslav dimension Drawing on archival sources from Ljubljana Zagreb Sarajevo and Belgrade the author argues that after the abandonment of the Yugoslav national idea two Yugoslavisms were created in the mid 1960s State based socialist Yugoslavism was propagated by the Party and had no ethnic connotations only a small proportion of the population identified themselves as Yugoslav in national terms The created vacuum was filled by old national identities The book is of interest to specialists and advanced students of cultural and intellectual history studies of nationalism but also history of science and institutions and the history of everyday life The book aims to appeal to scholars of Balkan South East European and Yugoslav history **Migration, Class and Transnational Identities** Val

Colic-Peisker,2010-10-01 Val Colic Peisker harnesses concepts and theories from sociology anthropology and political science to compare the vastly different experiences of two Croatian immigrant cohorts in the city of Perth Western Australia The populations explored represent an earlier group of working class migrants arriving from communist Yugoslavia from the 1950s to 1970s and a later group of urban professionals arriving in the 1980s and 1990s as independent or skills based migrants This latter group integrated into professional ranks but also used their Australian experience as a stepping stone in becoming part of a highly mobile global professional middle class Employing a refined theoretical analysis this rich ethnography challenges the domination of the ethnic perspective in migration studies and the idea of ethnic community itself It emphasizes the importance of class focusing on the intersection of class ethnicity and gender in the process of migration migrant incorporation and transnationalism In theorizing the connection of the two migrant cohorts with their native Croatia the study introduces concepts of ethnic and cosmopolitan transnationalism as two distinctive experiences mediated by class

Development's Influence on Yugoslav Political Values Cal Clark,Karl Fredrick Johnson,1976 *Balkan Worlds: The*

First and Last Europe Traian Stoianovich,2015-05-20 Encompassing the period from the Neolithic era to the troubled present this book studies the peoples societies and cultures of the area situated between the Adriatic Sea in the west and the Black Sea in the east between the Alpine region and Danube basin in the north and the Aegean Sea in the south This is not a conventional history of the Balkans Drawing upon archaeology anthropology economics psychology and linguistics as well as history the author has attempted a total history that integrates as many as possible of the avenues and categories of the Balkan experience **Saudi Arabia** Fouad Al-Farsy,2023-10-12 Saudi Arabia 1986 is a major study of the political and

administrative development of Saudi Arabia following its establishment as a leading world exporter of oil It looks at the status of oil in the development of the state as well as the political systems of government in the Kingdom **Political Integration Policy in Thailand** Panomporn Anurugsa,1989 Values and Community in Multi-national Yugoslavia Gary K.
