The Practice of International and National Courts and the (De-)Fragmentation of International Law Ole Kristian Fauchald, André Nollkaemper, 2014-10-01 In recent decades there has been a considerable growth in the activities of international tribunals and the establishment of new tribunals Furthermore supervisory bodies established to control compliance with treaty obligations have adopted decisions in an increasing number of cases National courts further add to the practice of adjudication of claims based on international law While this increasing practice of courts and supervisory bodies strengthens the adjudicatory process in international law it also poses challenges to the unity of international law Most of these courts operate within their own special regime functional regional or national and will primarily interpret and apply international law within the framework of that particular regime The role of domestic courts poses special challenges as the powers of such courts to give effect to international law as well as their actual practice in applying such law largely will be determined by national law At the same time both international and national courts have recognised that they do not operate in isolation from the larger international legal system and have found various ways to counteract the process of fragmentation that may result from their jurisdictional limitations This book explores how international and national courts can and do mitigate fragmentation of international law It contains case studies from international regimes including the WTO the IMF investment arbitration and the ECtHR and from various national jurisdictions including Japan Norway Switzerland and the UK providing a basis for conclusions to be drawn in the final chapter

Enforcing International Cultural Heritage Law

Francesco Francioni, James Gordley, 2013-06-06 The idea of cultural heritage as an international public good can be traced back to the Preamble of the 1954 Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict according to which damage to cultural property belonging to any people whatsoever means damage to the cultural heritage of all mankind How this idea of cultural heritage as a global public good can be reconciled with the effective enforcement of protection norms is the subject of this study Bringing together world experts in protecting cultural heritage *Enforcing International Cultural Heritage Law* examines the different ways that cultural heritage property can be protected including protection at the international level enforcement in domestic courts and the role of alternative dispute resolution mechanisms The book is divided into three sections The first section assesses international law and analyses the interaction between international and domestic norms of public and private law It discusses the different methods of international enforcement the role of international and mixed criminal tribunals and courts and the means for protecting cultural heritage in times of armed conflict The second section addresses the role of national courts discussing such topics as barriers to domestic enforcement of international norms the refusal to enforce foreign law the difficulty of territorial boundaries in relation to underwater heritage and the application of criminal sanctions by domestic courts The final section of the book surveys alternatives to the legal enforcement of the norms protecting cultural heritage including arbitration soft law and diplomacy *Białystok Volume on Law & Culture* Anna Piszcz, 2014

The Settlement of International Cultural Heritage Disputes Alessandro Chechi, 2014-03-13 The past forty years have seen a wide proliferation of disputes under international law concerning cultural heritage These have included the restitution of stolen art objects or the protection of monuments Unlike other fields of international law international cultural heritage law does not have an ad hoc mechanism of dispute settlement As a result controversies are to be settled through negotiation or if it fails through existing dispute resolution means This can result in similar cases being settled in different ways thereby bringing about an incoherent and fragmentary enforcement of the law This book offers a comprehensive and innovative analysis of the settlement of cultural heritage disputes This examination is two fold First it assesses the existing legal framework and the available dispute settlement means Second it explores the feasibility of two solutions for overcoming the lack of a specialized forum The first is the establishment of a new international court The second concerns existing judicial and extra judicial fora and their interaction through the practice of cross fertilization The book focuses on the substance of such interaction and identifies a number of culturally sensitive parameters the common rules of adjudication It argues that existing judicial and non judicial fora should adopt a cross fertilizing perspective to use and disseminate jurisprudence containing these common rules of adjudication It sets out how such an approach would enhance the effectiveness and coherence of decision making processes and would be conducive to the development of a *lex culturalis* This can be defined as a composite body of rules designed to

protect cultural heritage by excluding the mechanical application of the norms established for standard business transactions of ordinary goods *Native American Cultural Preservation Act* United States. Congress. Senate. Select Committee on Indian Affairs,1987 Tourism, Heritage and National Culture in Java Heidi Dahles,2013-10-11 Based on anthropological fieldwork in the 1990s this book provides an ethnographic perspective in its examination of the politics and policies of cultural tourism as they were played out under the Indonesian New Order regime The successful New Order tourism policy ensured that tourism development both contributed to and benefited from increasing economic prosperity and a long stretch of political stability However that success has come at a price the policy to encourage mainly high quality tourism revolved around carefully constructed and controlled tourist experiences that have led to local inequalities The failure of this policy is analysed in a detailed case study of the city of Yogyakarta **Standing to Enforce European Union Law before National Courts** Hilde K Ellingsen,2021-03-25 Access to court has long been recognised as an essential element of a Union based on the rule of law This book asks how can Member States ensure that their rules on standing guarantee that right The book answers this question by analysing the requirements of EU law from two angles first the effective protection of Union rights second the effectiveness of Union law per se With detailed case law examination the book formulates an autonomous Union law doctrine of standing based on the principle of effective judicial protection It then goes further setting out an effectiveness test of Member States enforcement mechanisms to ensure that EU law is rendered operative in practice This is a rigorous study on a question of immense importance Cultures of Legality Javier Couso,Alexandra Huneus,Rachel Sieder,2010-04-30 Ideas about law are undergoing dramatic change in Latin America The consolidation of democracy as the predominant form of government and the proliferation of transnational legal instruments have ushered in an era of new legal conceptions and practices Law has become a core focus of political movements and policy making This volume explores the changing legal ideas and practices that accompany cause and are a consequence of the judicialization of politics in Latin America It is the product of a three year international research effort sponsored by the Law and Society Association the Latin American Studies Association and the Ford Foundation that gathered leading and emerging scholars of Latin American courts from across disciplines and across continents Criticism and Compliment Kevin Sharpe,Kevin M. Sharpe,1987 *Criticism and Compliment* examines the poems plays and masques of the three figures who succeeded Ben Jonson as authors of court entertainments in the England of Charles I The courtly literature of Caroline England has been dismissed by critics and characterised by historians as propaganda for Charles I s absolutism penned by sycophantic hirelings Kevin Sharpe questions the assumptions on which these evaluations have been based Challenging the traditional argument for a polarity between court and country cultures in early Stuart England he re reads the plays poems and masques as primary documents of political attitudes articulated at court Far from being confined to a decade or a party the courtly literature of the 1630s is relocated within the broader humanist tradition of counsel Through the language of love a language it is argued that was

part of the discourse of politics in Caroline England the court poets criticised fundamental premises of the King's political ideology and counselled traditional and moderate modes of government Labour Law in the Courts Silvana Sciarra, 2001-03-23 The research underpinning this book was designed to support and further develop ideas already described in broader and more theoretical studies about the dialogues happening among national courts and the ECJ as a key factor of European integration The role played by the courts as part of the interplay of institutions within the European Union has been recognised as crucial and this research which was conducted at the European University Institute homes in upon some specific examples It deals with six Member States of the European Union Denmark France Germany Italy Spain and the UK analysing two select but significant areas of substantive law transfer of undertakings and equality legislation The analysis dwells on these key areas although some other fields of social law were selected in order to prove the main theory underlying the whole research While on the one hand offering a comparative assessment of developments in the six member states chosen for study the research also highlights national peculiarities as well as the factors perceived to be driving national actors towards the preliminary ruling procedures This work will be of interest to all scholars of EU law and labour law
