

A NATION AT RISK

Our Nation is at risk. Our once unchallenged preeminence in commerce, industry, science, and technology innovation is being overtaken by competitors throughout the world. This report is concerned with only one of the many causes

A NATION REFORMED?

and dimensions of the problem, but it is the one that undergirds American prosperity. American Education 20 Years after

was released, a curriculum study that has been largely accomplished and contributed to the United States, and the well-being of its people, the educational foundations of our society are presently being eroded by a rising tide of mediocrity that threatens our very future as a Nation and a people. What is unimaginable a generation ago has begun to occur—foreign are matching and surpassing our educational attainments.

If our unscrupulously foreign power had attempted an invasion of America, the mediocre educational performance that exists today, we might well have viewed it as an insurmountable obstacle. At the same time, we have allowed this to happen to ourselves.

Reformed Theology Wallace M. Alston, Michael Welker, 2003 Christian theology classically defined is faith's intellectual work of seeking understanding not in order to prove its truth but to persuade those who hear it proclaimed Theology done from within the Reformed tradition has long displayed this quality and it continues to develop in response to our changing world Reformed Theology Identity and Ecumenicity is an excellent resource for readers interested in examining current trends and motifs in Reformed thought Written by systematic theologians from around the world this book explores the meaning of the Reformed tradition and its relevance for the contemporary church The contributors highlight ways that Reformed theology can enrich the church ecumenical even as they seek to realize a more catholic Reformed community of inquiry Contributors P Mark Achtemeier Wallace M Alston Jr H Russel Botman Eberhard Busch Dawn DeVries Margit Ernst Gabriel Fackre Douglas Farrow David Fergusson Botond Gaal Colin Gunton George Hunsinger William Stacy Johnson Yung Han Kim Ulrich H J Kortner Jan Mili Lochman Bruce L McCormack Peter McEnhill Daniel L Migliore Piet J Naude Milan Opocnsky Jan Rohls Dirk Smit George W Stroup A van de Beek Leanne Van Dyk Michael Weinrich Michael Welker Myung Yong Kim Carver T Yu *American Indian Constitutional Reform and the Rebuilding of Native Nations* Eric D. Lemont, 2009-08-17 Since 1975 when the U S government adopted a policy of self determination for American Indian nations a large number of the 562 federally recognized nations have seized the opportunity to govern themselves and determine their own economic political and cultural futures As a first and crucial step in this process many nations are revising constitutions originally developed by the U S government to create governmental structures more attuned to native people's unique cultural and political values These new constitutions and the governing institutions they create are fostering greater governmental stability and accountability increasing citizen support of government and providing a firmer foundation for economic and political development This book brings together for the first time the writings of tribal reform leaders academics and legal practitioners to offer a comprehensive overview of American Indian nations constitutional reform processes and the rebuilding of native nations The book is organized in three sections The first part investigates the historical cultural economic and political motivations behind American Indian nations recent reform efforts The second part examines the most significant areas of reform including criteria for tribal membership citizenship and the reform of governmental institutions The book concludes with a discussion of how American Indian nations are navigating the process of reform including overcoming the politics of reform maximizing citizen participation and developing short term and long term programs of civic education Nation Work Timothy Brook, André Schmid, 2010-08-04 As increasing attention is drawn to globalization questions arise about the fate of the nation a political and social unit that for centuries has seemed the common sense way to organize the world In *Nation Work* Timothy Brook and Andr Schmid draw together eight essays that use historical examples from Asian countries China India Korea and Japan to enrich our understandings of the origin and growth of nations Asia

provides fertile ground for this inquiry the volume argues because in Asia the history of the modern nation has been inseparable from global influences in the form of Western imperialism Yet while the impetus for building a modern national identity may have come from the need to fashion a favorable place in a world system dominated by Western nations those engaged in nationalist enterprises found their particular voices more often in relation to tensions within Asia than in relation to more generic tensions between Asia and the West With topics ranging from public health measures in nineteenth century Japan through textual scholarship of Tamil intellectuals the willful division of Korea's history from China's the development of China's cotton industry and the meaning of postnationalism for Chinese artists the essays reveal the fascinating array of sites at which nation work can take place This will be essential reading for historians and social scientists interested in Asia Timothy Brook is Professor of History Stanford University Andr Schmid is Assistant Professor of East Asian Studies University of Toronto

Sheils, 2013-12-02 The changes brought about during the English Reformation clearly reflected the desire of the Crown government and landed classes to reduce the political power and landed wealth of the late medieval Church This book covers the background to the Reformation the processes which brought about these major changes and the impact on the clergy and the general population

Not Peace But a Sword Stephen Baskerville, 2018-08-21 *Not Peace But a Sword* provides a case study in religious radicalism as exemplified by the Puritanism of the English Revolution Based on sermons preached to the Long Parliament and other political bodies Stephen Baskerville demonstrates how Puritan religious and political ideas transformed the English Civil War into the world's first great modern revolution To understand why Baskerville analyzes the underlying social changes that gave rise to Puritan radicalism The Puritan intellectuals developed the sermon into a medium that conveyed not only popular political understanding but also a sophisticated political sociology that articulated a new social and political consciousness In the process they challenged the traditional political order and created a new order by appealing to the needs and concerns of a people caught up in the problems of rapid social and economic change The book explores the social psychology behind the rise of Puritanism as the Puritan ministers themselves presented it through textual criticism of their own words placing them in the mental context of

their time and offers a new understanding of the link between religious ideas and revolutionary politics *The Reformed Presbyterian and Covenanter*, 1890 *Protestant Nations Redefined* Pasi Ihalainen, 2005-10-01 This volume reconstructs the various meanings attached to the concepts of nation and fatherland in eighteenth century English Dutch and Swedish political preaching After discussing sermons as a medium of national ideology it analyses the decline of the Israelite prototype of nation the changing relationship between religious and national communities international Protestantism the weakening stereotype of popery redefinitions of the Protestant monarchy and the diversification of national vocabulary It also compares the rise of non theological languages of classical patriotism freedom economy and nature in three political cultures revealing how the secular worship of nation arose even within the public presentation of religion As post nationalist comparative history this study will be welcomed by readers with varied national and scholarly backgrounds interested in the Enlightenment and nationalism **A History of All Nations: Philippon, M. Writing the Early Modern English Nation, 2021-11-22 While there is overwhelming evidence that nationalism reached its peak in the later nineteenth century views about when precisely national thinking and sentiment became strong enough to override all other forms of collective unity differ considerably When one looks for the historical moment when the concept of the nation became a serious and subsequently victorious competitor to the monarchic dynasty as the most effective principle of collective unity one must at least for England go back as far as the sixteenth century The decisive change occurred when a split between the dynastic ruler and England could be widely conceived of and intensely felt a split that established the nation as an autonomous and more precious body Whereas such a differentiation between king and country was still imperceptible under Henry VIII it was already an historical reality during the reign of Queen Mary That the most important factors in this radical change were the Reformation and the printing press is by now well known The particular aim of this volume is to demonstrate the pivotal role of pamphleteering and the growing importance of public opinion in a steadily widening sense within the process of the historical emergence of the concept of the nation as a culturally and politically guiding force When it came to the voicing of dissident opinions above all under Queen Mary and later during the reign of King James and Charles I the printed pamphlet proved to be a far superior form of communication This does not mean that books played no role in the early development and dissemination of the concept of an English nation Especially the compendious new English histories written at the time did much to support the growth of cultural identity **The Missionary Expansion of the Reformed Churches** John Anderson Graham, 1898 **Proceedings at the Annual Meeting of the National Civil-Service Reform League** National Civil Service Reform League (U.S.). Meeting, 1912

Protestant Periodicals in Transition, 2023-08-14 Protestant Periodicals in Transition From the Twentieth Century to the Digital Age demarcates the field of religious periodical studies by offering a range of historical and contemporary case studies from different Protestant traditions drawn from various regions of the world Taking religion periodicals and their

cultures seriously this volume focuses not only on content but on the people processes networks technologies and economics involved in periodical publishing Case studies explore the role of the Protestant magazine in defining policing and extending the boundaries of religious communities of engaging with and influencing the surrounding society through political activism and lifestyle advice and adapting to and sometimes spearheading technological changes to keep relevant in changing times

The Monastic Footprint in Post-Reformation Movements Kenneth C. Carveley, 2022-04-19 This book examines the influence of the monastic tradition beyond the Reformation Where the built monastic environment had been dissolved desire for the spiritual benefits of monastic living still echoed within theological and spiritual writing of the seventeenth and eighteenth centuries as a virtual exegetical template The volume considers how the writings of monastic authors were appropriated in post Reformation movements by those seeking a more fervent spiritual life and how the concept of an internal cloister of monastic ascetic spirituality influenced several Anglican writers during the Restoration There is a careful examination of the monastic influence upon the Wesleys and the foundation and rise of Methodism Drawing on a range of primary sources the book will be of particular interest to scholars of monastic and Methodist history and to those engaged in researching ecclesiology and in ecumenical dialogues
