National Broadcasting Under Siege Eva Etzioni-Halevy, 1987 **National Broadcasting Under Siege** Eva Etzioni-Halevy, 1987-06-18 *Towards a Market in Broadcasting* C. Potschka, 2012-03-27 A comparative analysis of the evolution of UK and German broadcasting policies adding to the developing area of comparative research on media and communications policy The book focuses on processes of marketization and liberalization as they have affected policy making national regulatory frameworks and media structures Pluralism, Politics and the Marketplace Suzanne Hasselbach, Vincent Porter, 2002-09-11 Since the mid 1980s broadcasting in the Federal Republic of Germany has been extensively re regulated The traditional duopoly of the public broadcasters Ard and ZDF has been challenged by new private networks in both radio and television In two historic judgements handed down in 1986 and 1987 the Federal Constitutional Court set out terms for a new dual order of private and public broadcasting But how were the guidelines of the court interpreted in practice Pluralism Politics and the Marketplace traces the economic and political influences which shaped the emergence of a pluralistic broadcasting system in the federal republic and examines the conflicts between public and private broadcasting both in West Germany and in the European Community as a whole *Comparing Media Systems* Daniel C. Hallin, Paolo Mancini, 2004-04-12 Building on a survey of media institutions in eighteen West European and North American democracies Hallin and Mancini identify the principal dimensions of variation in media systems and the political variables which have shaped their evolution They go on to identify three major models of media system development the Polarized Pluralist Democratic Corporatist and Liberal models to explain why the media have played a different role in politics in each of these systems and to explore the forces of change that are currently transforming them It provides a key theoretical statement about the relation between media and political systems a key statement about the methodology of comparative analysis in political communication and a clear overview of the variety of media institutions that have developed in the West understood within their political and historical context Muting Israeli Democracy Amit M. Schejter, 2010-10-01 The result of years of critical analysis of Israeli media law this book argues that the laws governing Israeli electronic media are structured to limit the boundaries of public discourse Amit M Schejter posits the theory of a mute democracy one in which the media are designed to provide a platform for some voices to be heard over others While Israel s institutions may be democratic and while the effect of these policies may be limited this book contends that free speech in Israel is institutionally muted to ensure the continued domination of the Jewish majority and its preferred interpretation of what Israel means as a Jewish democratic state Analyzing a wide range of legal documents recorded in Israel from 1961 to 2007 Muting Israeli Democracy demonstrates in scrupulous detail how law and policy are used to promote the hegemonic national culture through the constraints and obligations set on electronic media The Daily Planet Patricia Aufderheide, 2000-01-01 The Daily Planet is a long awaited selection of Patricia Aufderheide s most important critical essays updated and organized

thematically to demonstrate the breadth of her thinking on media and film public telecommunications policy and contemporary society The result is a pithy and provocative exploration of the culture of daily life under capitalism Here Aufderheide demonstrates criticism that is both activist and analytical She probes the processes that shape our culture by examining diverse subjects including the struggle to create quality children s television programming the meaning of Paul Harvey the evolution of the war film over the past thirty years and the ways journalism is changed by the Internet and other new technologies Throughout Aufderheide foregrounds democratic values displaying the penetrating insights that have made her a leading public intellectual and commentator on contemporary culture *Public Broadcasting and Political Interference* Chris Hanretty,2011-05-03 Examines the consequences of interference by political parties in the work of public broadcasters **Routledge Revivals: Radio Broadcasting from 1920 to 1990 (1991)** Diane Foxhill Carothers,2016-11-10 First published in 1991 this book presents a comprehensive annotated bibliography of radio broadcasting Its eleven chapter categories cover almost the entire range of radio broadcasting with the exception of radio engineering due to its technical complexity although some of the historical volumes do encompass aspects thus providing background material Entries are primarily restricted to published books although a number of trade journals and periodicals are also included Each entry includes full bibliographic information including the ISBN or ISSN where available and an annotation written by the author with the original text in hand *Rich Democracies* Harold L. Kenyon,2021-06-17 Free speech has positive dimensions of enablement and negative dimensions of non restraint both of which require protection for democracy to have substantial communicative legitimacy In *Democracy of Expression* Andrew Kenyon explores this need for sustained plural public speech linked with positive communicative freedom Drawing on sources from media studies human rights political theory free speech theory and case law Kenyon shows how positive dimensions of free speech could be imagined and pursued While recognising that democratic governments face challenges of public communication and free speech that cannot be easily solved Kenyon argues that understanding the nature of these challenges including the value of positive free speech at least makes possible a democracy of expression in which society has a voice formulates judgments and makes effective claims of government In this groundbreaking work Kenyon not only reframes how we conceptualize free speech but also provides a roadmap for reform Media Power and Hegemony in South Africa Blessed Ngwenya,2020-11-15 This book critically explores how meanings of independence are constructed and reconfigured by public service broadcasters

in the global south with a particular focus on the South African Broadcasting Corporation SABC Blessed Ngwenya questions the institutional political economy and world systems paradigms born out of coloniality which continue to influence broadcasting and media in the global south and instead presents a radical local understanding of freedom in the present day The author draws on detailed empirical interviews with members of staff from across the SABC including board members senior management and journalists offering an intimate insight into how the participants themselves perceive understand and deal with the issues and problems they face in relation to independence Framed by a rich analysis of the historical context this book provides readers with the theoretical and empirical toolkit needed to place the everyday experiences and needs of their subjects first and to ultimately arrive at an accurate understanding of independence in its several senses Contributing to growing global debates on the decolonisation of knowledge this book is critical reading for advanced scholars and researchers of African media culture communication and epistemic freedom **Language and Communication in**
