The Tribune Almanac and Political Register for ... ,1891      **The Tribune Almanac and Political Register** Horace Greeley, John Fitch Cleveland, F. J. Ottarson, Alexander Jacob Schem, Edward McPherson, Henry Eckford Rhoades, 1901

**The Gatekeepers** Kevin Lyles, 1997-10-28 There are more than 600 Federal district judges serving today and they decide some 230 000 civil cases each year About 90% of the decisions they reach are final Lyles argues that these lower court judges not only influence the flow of information to the judicial hierarchy but they formulate questions that influence how higher courts including the Supreme Court respond As such they are key elements in the formulation and implementation of public policy To cite a few examples they desegregate school districts run mental institutions and prisons break up monopolies and reapportion legislatures Lyles begins by examining the structure and function of federal courts and detailing the history operation and purpose of the district courts He then turns to the selection nomination and appointment of district judges Lyles then analyzes the extent to which presidents might advance policy objectives through their judicial appointments to the district courts After examining how African American Latino and white judges male and female view their roles as policy actors Lyles concludes with a discussion of the implications of the study Important for students and scholars of contemporary public policy and the court system      The Political Economy of American Industrialization,

1877-1900 Richard Franklin Bensel, 2000-11-06 In the late nineteenth century the United States underwent an extremely rapid industrial expansion that moved the nation into the front ranks of the world economy At the same time the nation maintained democratic institutions as the primary means of allocating political offices and power The combination of robust democratic institutions and rapid industrialization is rare and this book explains how development and democracy coexisted in the United States during industrialization Most literature focuses on either electoral politics or purely economic analyses of industrialization This book synthesizes politics and economics by stressing the Republican party's role as a developmental agent in national politics the primacy of the three great developmental policies the gold standard the protective tariff and the national market in state and local politics and the impact of uneven regional development on the construction of national political coalitions in Congress and presidential elections      **Tribune Almanac and Political Register ...** ,1897      *Roots of Reform* Elizabeth Sanders, 1999-08 Offering a revision of the understanding of the rise of the American regulatory state in the late 19th century this book argues that politically mobilised farmers were the driving force behind most of the legislation that increased national control      **The Agricultural Outlook for 1930** ,1930      **Miscellaneous Publication** ,1930      A Bibliography of the History of Agriculture in the United States Everett Eugene Edwards, 1930      **Recommendations of the Bureau of Animal Industry on Problems of Livestock Production** Arthur Frederick Sievers, Everett Eugene Edwards, John Robbins Mohler, Maude A. Thompson, Ruth O'Brien, Stuart Bevier Show, Willard Hull Wright, H. B. Raffensperger, 1930 It is the purpose of this publication to assist those interested in medicinal plant identification and to

furnish other useful information in connection with the work      **The Civil War Veteran** Larry M. Logue, Michael Barton, 2007 The Civil War Veteran presents a profound but often troubling story of the postwar experiences of Union and Confederate Civil War veterans Most ex soldiers and their neighbors readjusted smoothly However many arrived home with or developed serious problems poverty drug and alcohol addiction and other manifestations of post traumatic stress syndrome such as flashbacks and paranoia plagued these veterans Black veterans in particular suffered a particularly cruel fate they fought with distinction and for their freedom but postwar racism obliterated recognition of their wartime contributions Despite these hardships veterans found some help from federal and state governments through the establishment of a national pension system and soldiers homes Yet veterans did not passively accept this assistance some influenced and created policy in public office while others joined together in veterans organizations such as the Grand Army of the Republic to fight for their rights and to shape the collective memory of the Civil War As the number of veterans from wars in the Middle East rapidly increases the stories in the pages of The Civil War Veteran give us valuable perspective on the challenges of readjustment for ex soldiers and American society      *Party Campaign Funds* James Kerr Pollock, 1926

**The American Political Science Review** Westel Woodbury Willoughby, John Archibald Fairlie, Frederic Austin Ogg, 1925 American Political Science Review APSR is the longest running publication of the American Political Science Association APSA It features research from all fields of political science and contains an extensive book review section of the discipline

*The Tribune Almanac and Political Register for* ,1909      *Power Shifts* John A. Dearborn, 2021-09-10 That the president uniquely represents the national interest is a political truism yet this idea has been transformational shaping the efforts of Congress to remake the presidency and testing the adaptability of American constitutional government The emergence of the modern presidency in the first half of the twentieth century transformed the American government But surprisingly presidents were not the primary driving force of this change Congress was Through a series of statutes lawmakers endorsed presidential leadership in the legislative process and augmented the chief executive s organizational capacities But why did Congress grant presidents this power In *Power Shifts* John A Dearborn shows that legislators acted on the idea that the president was the best representative of the national interest Congress subordinated its own claims to stand as the nation s primary representative institution and designed reforms that assumed the president was the superior steward of all the people In the process Congress recast the nation s chief executive as its chief representative As Dearborn demonstrates the full extent to which Congress s reforms rested on the idea of presidential representation was revealed when that notion s validity was thrown into doubt In the 1970s Congress sought to restore its place in a rebalanced system but legislators also found that their earlier success at institutional reinvention constrained their efforts to reclaim authority Chronicling the evolving relationship between the presidency and Congress across a range of policy areas *Power Shifts* exposes a fundamental dilemma in an otherwise proud tradition of constitutional adaptation      The Chronicles of America Series ...
