Robert J. Bunker

National Security Affairs Theoretical Perspectives And Contemporary Issues:

National Security Affairs B. Thomas Trout, James E. Harf, 1982 **National Security Issues**, 1986 **Rethinking National Security** Frances Scott, 1990 **Networks, Terrorism and Global Insurgency** Robert J. Bunker, 2014-01-14

This new book brings together leading terrorism scholars and defence professionals to discuss the impact of networks on conflict and war. Post modern terrorism and topics of global insurgency are also comprehensively covered. The text is divided into four sections to cover the key areas: introductory overview, theory, terrorism and global insurgency, Al Qaeda focus and networks. Eminent contributors include John Arquilla and David Ronfeldt, Brian Jenkins, Stephen Sloan, Graham Turbiville and Max Manwaring. This book was previously published as a special issue of the leading journal *Low Intensity Conflict and Law Enforcement*.

The Nonproliferation Predicament Joseph F. Pilat, 1985-01-01. The Nonproliferation Predicament is an authoritative and comprehensive look at U.S. nonproliferation policy. Top U.S. scholars, analysts and policymakers focus on the period since the Reagan administration took office and address several questions about the current state of nuclear proliferation. As the international non proliferation regime evolves, will it continue to be responsive to the problem of proliferation? Or will it become superannuated by new technologies or enmeshed in domestic and international political controversies and conflicting interests? What nonproliferation policies are likely to be effective in the 1980s and beyond as nations continue efforts to establish and expand nuclear industrial bases providing them with capabilities useful for the pursuit of weapons options in the future? Does the stagnation of the international nuclear market and the difficulties of nuclear threshold states like India give reasons for hope? Or will the limited proliferation of the past prove to have been a passing anomaly in military history?

Analyzing Strategic Nuclear Policy Charles L. Glaser, 2014-07-14. With sweeping changes in the Soviet Union and East Europe having shaken core assumptions of U.S. defense policy, it is time to reassess basic questions of American nuclear strategy and force requirements. In a comprehensive analysis of these issues, Charles Glaser argues that even before the recent easing of tension with the Soviet Union, the United States should have revised its nuclear strategy, rejecting deterrent threats that require the ability to destroy Soviet nuclear forces and forgoing entirely efforts to limit damage if all out nuclear war occurs. Changes in the Soviet Union suggests Glaser may be best viewed as creating an opportunity to make revisions that are more than twenty years overdue. Glaser's provocative work is organized in three parts. *The Questions* behind the Questions evaluates the basic factual and theoretical disputes that underlie disagreements about U.S. nuclear weapons policy. *Alternative Nuclear Worlds* compares mutual assured destruction capabilities, MAD, a world in which both superpowers societies are highly vulnerable to nuclear retaliation, to the basic alternatives: mutual perfect defenses, U.S. superiority and nuclear disarmament. Would any basic alternatives be preferable to MAD? Drawing on the earlier sections of the book, *Decisions in MAD* addresses key choices facing American decision makers. Originally published in 1990, The Princeton Legacy Library uses the latest print on demand technology to again make

available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Future Survey Annual 1983 Michael Marien, 1984-01-01

Special Bibliography Series, 1957 Special Bibliography Series United States Air Force Academy. Library, 1990

Arms Control and European Security (Enlarged Edition) Stephen J. Blank Investigation, Louis H. Jordan, Jr., Strategic Studies Institute, 2013-05-20

The following three papers comprise one of the panels from a conference on U S Russia relations that SSI co sponsored with the Carnegie Council at Pocantico NY from June 13 2011 Carnegie Council's Program on U S Global Engagement A Two Year Retrospective The papers offer three contrasting looks at one of the major issues in today's arms control agenda namely the future of the Conventional forces in Europe Treaty CFE The three papers are by leading experts in the field from the United States United Kingdom and Russia and provide a revealing glimpse into the very different assessments that are being made by those three governments and the difficult issues involved in attempting to regenerate the process that led to the original treaty in 1990 They also implicitly contribute to a better understanding of the intractabilities facing the major players in any effort to advance not only arms control but also European stability

The Future of Air Power in the Aftermath of the Gulf War Robert L. Pfaltzgraff, Richard H. Shultz, 1992 This collection of essays reflects the proceedings of a 1991 conference on The United States Air Force Aerospace Challenges and Missions in the 1990s sponsored by the USAF and Tufts University The 20 contributors comment on the pivotal role of airpower in the war with Iraq and address issues and choices facing the USAF such as the factors that are reshaping strategies and missions the future role and structure of airpower as an element of US power projection and the aerospace industry's views on what the Air Force of the future will set as its acquisition priorities and strategies The authors agree that aerospace forces will be an essential and formidable tool in US security policies into the next century The contributors include academics high level military leaders government officials journalists and top executives from aerospace and defense contractors

Weapons Under Fire Lauren Holland, 2013-11-26 First Published in 1997 In an effort to find the validity of middle ground this book offers a comprehensive analysis that looks further than the House Committee on National Security's actions on the B 2 bomber President Clinton's campaign promise to support the Seawolf submarine and the Pentagon's use of a concurrent and risky management strategy for the 71.6 billion F 22 fighter aircraft program It provides a dissection of the decision making process for a representative sample of major weapons systems to invalidate the claims that pork and malfeasance are both pervasive and determinate

Ambassador Stephen Krasner's Orienting Principle for Foreign Policy (and Military Management) Max G. Manwaring, 2012 The principle security threat of the past several centuries war between or among major powers is gone Two new types of threats have been introduced into the global

security arena Violent nonstate actors and other indirect political economic and social causes of poverty social exclusion corruption terrorism transnational crime the global drug problem and gangs are a few examples of these new threats to global security and stability More and more national security implies protection through a variety of nonmilitary and military ways and means of popular interests that add up to well being This broadened definition of the contemporary security problem makes the concept so vague as to render it useless as an analytical tool The genius of Ambassador Stephen Krasner however helps solve the problem His orienting principle for foreign policy and military management responsible sovereignty legitimate governance focuses on the need to create nation states capable of legitimate governance and to realize stability security and well being for citizens This concept has serious implications for the transition and relevance of armed forces and other instruments of power as well as foreign policy Thus we 1 define the contemporary security dilemma and the larger principle of Krasner s responsible sovereignty 2 outline the major components of a legitimate governance paradigm 3 discuss some considerations for foreign policymaking and military management and 4 argue that substantially more sophisticated security stability concepts policy structures and decision and policymaking precautions are necessary if the United States is to play more effectively in the security arena now and in the future Publisher s website [Quarterly Review of Military Literature](#) ,1983

[The United States and the Persian Gulf](#) Alvin J. Cottrell,Michael Moodie,1984-01-01 **China's**

Foreign Policy since 1978: Return to Power Nicholas Khoo,2020-11-27 The success of China s post 1978 reforms has provided it with significant resources to reshape its external environment This book shows how China has leveraged this power from a neorealist perspective projecting military and economic power to advance Chinese interests **Singapore's**

Foreign Policy Amitav Acharya,2008 The conventional understanding of Singapore s foreign policy can be summarized in three main propositions first it is dictated by the imperatives of being a small state second its primary purpose is to ensure Singapore s survival given its small size and third this logic of survival dictates a realpolitik approach to foreign policy and national security This book argues that an exclusively realist view of Singapore s foreign policy is inadequate Singapore s foreign policy is also shaped by the positive effects of economic interdependence and regional institution building instruments that realists tend to dismiss but which Singapore has self consciously tried to promote as instruments of regional order The book first looks at the evolution of Singapore s foreign policy before analyzing Singapore s international relations and national security in the context of economic growth and terrorism It concludes with an interesting chapter on the impact of the rise of China and India on the regional landscape [Beyond Combat](#) Edward G.
