Hong Kong's sources of resilience against encroachments on its rule of law that may come under the guise of national security. It points to what may be needed to maintain Hong Kong's rule of law once China's 50 year commitment to its autonomy ends in 2047. The contributors to this book include world renowned scholars in comparative public law and national security law. The collection covers a variety of disciplines and jurisdictions and both scholarly and practical perspectives to present a forward looking analysis on the rule of law in Hong Kong. It illustrates how Hong Kong may succeed in resisting pressure to advance China's security interests through repressive law. Given China's growing international stature the book's reflections on China's approach to security have much to tell us about its potential impact on the global political security and economic order.

**National Security and Fundamental Freedoms** Hualing Fu, Carole J. Petersen, Simon N.M. Young, 2005-03-01

There has been intense interest in the proposals to implement Article 23 both in Hong Kong and abroad. This book will be valuable to anyone who has followed or participated in that debate or has an interest in the delicate balance between civil liberties and national security. The book will be particularly useful for legislators, policy makers, lawyers, journalists, historians, teachers and students especially in the fields of law and the social sciences. The statutory Appendix will assist teachers and students to draw comparisons between existing law and the government's proposals. In 2003 more than 500,000 people marched in Hong Kong against the National Security Legislative Provisions Bill which would have prohibited treason, sedition, secession and subversion against the national government of China and included new mechanisms for proscribing political organisations. This edited collection analyses that legislation particularly the implications for civil liberties and the one country two systems model. Although the massive protest compelled the Hong Kong government to withdraw the Bill from the legislature in 2003 it will likely propose similar legislation in the future because Hong Kong has a constitutional obligation to implement Article 23 of the Basic Law. The book provides detailed and balanced commentary on the Bill, explains why certain proposals proved so controversial and offers concrete recommendations on how to improve the proposals before the next legislative exercise.
