Congress. House. Committee on Foreign Affairs. Subcommittee on Europe and the Middle East, 1983 Changing Threat Perceptions and Military Doctrines Laszlo Valki, 1992-06-18 Owing to the revolutionary changes in Eastern Europe and the Soviet Union the threat perceptions of the East and West have vanished The contributors to this volume report this social process and try to identify some of the new threat perceptions which will arise **Egyptian Foreign Policy From Mubarak to Morsi** Nael Shama, 2013-10-30 Egyptian Foreign Policy from Mubarak to Morsi explores an area rarely touched upon by researchers the relationship between regime security and the national interest Concentrating on Egyptian foreign policy under President Hosni Mubarak this book analyses how it was used to bolster his internal hold on power In considering Egyptian foreign policy two central case studies are examined Firstly Egypt's reluctance to re-establish diplomatic ties with Iran and secondly Egypt's response to the efforts of the Bush administration in promoting political reform in the Middle East When examining these case studies the impact of different societal factors on decision making is taken into consideration highlighting the role of business groups and the security apparatus in foreign policy decision making Concluding with a discussion of Egypt's foreign policy in the first year of Mohamed Morsi's rule and arguing that it has departed little from Mubarak's policy this book is a vital resource for anyone interested in contemporary Egyptian politics Middle East Studies and International Relations more broadly Middle Eastern Maze Itamar Rabinovich, 2023-02-27 An insider's analysis of the Arab Israeli conflict and peace process Middle East

Maze Israel the Arabs and the Region is an expanded and updated version of Itamar Rabinovich's *The Lingering Conflict* published by Brookings in 2012. This new book offers a unique narrative of the Arab Israeli conflict and peace process by a senior academic historian who has served as Israel's ambassador to the United States and as a peace negotiator with Syria. Rabinovich places the Arab Israeli relationship in the larger context of Middle Eastern regional and international politics. He also examines Iran's and Turkey's new roles in the region. An equally important place is given to the U.S. policy in the Middle East and to the U.S. special relationship with Israel. This revised new edition covers the signing of the Abraham Accords, the new policies pursued by the Trump and Biden administrations, the full fledged Syrian civil war, the heyday of the Islamic State, Russia's military intervention in Syria, the Iranian nuclear drive and the lengthy domestic political crisis in Israel. **The**

Foreign Policies of the EU's Mediterranean States and Applicant Countries in the 1990's Theodore

Coulombis, Stelios Stavridis, Thanos Veremis, Neville Waites, 2016-07-27. The book analyses the foreign policies of EU Mediterranean states and applicants in the context of wider EU Mediterranean relations. It provides a unique comparative analysis of current members and applicant Mediterranean states in the 1990s at a time when EU processes of enlargement and integration raise fundamental needs to define interests of the EU in its Southern and Eastern relationships. *China and North Africa* Adel Abdel Ghafar, 2021-08-26. As the United States slowly disengages from the Middle East and Europe faces internal challenges, a new actor is quietly exerting greater influence across North Africa. China's growing footprint in North Africa encompasses but is not limited to trade, infrastructure, development, ports, shipping, financial cooperation, tourism, and manufacturing. It is continuing to expand its co-operation with North African countries not only in the economic and cultural spheres but also those of diplomacy and defence. This engagement with North Africa relates to the key aim of President Xi Jinping's Belt and Road Initiative (BRI) which wants to connect Asia, Africa, and Europe and sees potential in North Africa's strategic geographic location. This book is the first to analyse China's role in North Africa. It comprises of five leading country experts: Anouar Boukhars, Yahia Zoubir, Sarah Yerkes, Tareki Magresi, and Nael Shama, who examine the various socio-economic, political, and security aspects of China's relationship with Algeria, Morocco, Libya, Tunisia, and Egypt. The book explores how China is displaying a development model that seeks to combine authoritarianism with economic growth, a model that has an eager audience among regimes across the MENA region. It reveals how the China-North Africa relationship fits within the broader dynamics of increasing China-US rivalry. In doing so, contributors explain why China's growing role in North Africa is likely to have far-reaching economic and geopolitical consequences for both countries in the region and around the world. [Routledge Handbook on Contemporary Egypt](#) Robert Springborg, Amr Adly, Anthony Gorman, Tamir Moustafa, Aisha Saad, Naomi Sakr, Sarah Smierciak, 2021-03-30. Investigating key features of contemporary Egypt, this volume includes Egypt's modern history, politics, economics, the legal system, environment, and its media and modes of cultural expression. It examines Egypt's capacities to meet developmental challenges ranging from responding to globalization and

regional competition to generating sufficient economic growth and political inclusion to accommodate the interests and demands of a rapidly growing population The macrohistory of Egypt is complemented by the microhistories of specific institutions and processes that constitute separate sections in this handbook The chapters revolve around political economy it is shaped by the people and their abilities political and legal institutions organization of the economy natural and built environments and culture and communication Politics has been overwhelmingly authoritarian and coercive since the military seized power in 1952 consequently the contributions address both the causes and consequences of unbalanced civil military relations military rule and persisting authoritarianism in the political society This multidisciplinary handbook serves a dual purpose of introducing readers to Egypt s history and contemporary political economy and as a comprehensive key resource for postgraduate students and academics interested in modern Egypt The United States Institute of Peace Journal

,1992-02 **What the West is Getting Wrong about the Middle East** Ömer Taspinar,2020-09-17 The West s actions in the Middle East are based on a fundamental misunderstanding political Islam is repeatedly assumed to be the main cause of conflict and unrest in the region The idea that we can decipher Jihadist radicalization or problems in the Middle East simply by reading the Qur an has now become symptomatic of our age This dangerous over simplification and the West s obsession with Islam dominates media and policy analysis ultimately skewing intervention and preventing long term solutions and stability in the region mer Taspinar who has 20 years research and policymaking experience explains here what is really going on in the Middle East The book is based on three of the most pressing cases currently under the spotlight the role of Erdogan and the unrest in Turkey the sectarian clashes in Iraq Syria Yemen and Lebanon and the existence of the so called Islamic State Islam is often seen as the root cause of the challenge associated with these cases But by unpacking the real issues such as entrenched authoritarianism vast energy resources excessive defense spending and the youth bulge the book demystifies what is happening and cites governance and nationalism as the main drivers of conflict The book shows the importance of treating the causes which are economic social and institutional rather than the symptom the continued and growing success of Islamist parties and jihadist movements in assessing the Middle East In revealing exactly how Islamism is activated and by analyzing the structural challenges of the region this unique insider s account provides a map to

understanding Middle Eastern wars and conflicts and the prospects for the future **Greek-Turkish Relations in an Era of Détente** Barry Rubin,Ali Çarkoglu,2020-05-04 Greek Turkish conflict ridden relations have long occupied a problematic position in the Western alliance first in NATO then more dramatically within the context of the newly developing European Union and its defence initiatives Following three major earthquakes on both sides of the Aegean the two countries have now experienced firstly a public empathy towards each other and secondly a significant diplomatic rapprochement This rapprochement though has failed to resolve the Cyprus conflict and is now at risk of reverting back to a series of conflicts This book addresses the crucial issues between Greece and Turkey from a critical perspective and provides an up to date

assessment of the current state of the Greek Turkish rapprochement and its future development This book was previously published as a special issue of the journal Turkish Studies Contested State Identities and Regional Security in the Euro-Mediterranean Area Raffaella A. Del Sarto,2006-07-07 Del Sarto argues that internal disputes over national identity limit the ability of states to participate in regional forums This is a close look at problems faced in negotiating the Euro Mediterranean Partnership EMP as a regional security project with particular attention to case studies of Israel Egypt and Morocco **Japan's Threat Perception during the Cold War** Eitan Oren,2023-02-10 Oren re examines Japan s threat perception during the first two decades of the Cold War using a wide range of source materials including many unavailable in English or only recently declassified There is a widely shared misconception that during the Cold War the Japanese were largely shielded from threats due to the American military protection the regional balance of power Japan s geographical insularity and domestic aversion to militarism Oren dispels this showing how security threats pervaded Japanese strategic thinking in this period By dispelling this misconception Oren enables us to more accurately gauge the degree to which Japan s threat perception has evolved during and after the end of the Cold War and to enhance our understanding of Tokyo s strategic calculus in the current situation of rivalry between China and the United States This book will be of great value to both scholars of Japanese history and contemporary international relations **State Responses to Nuclear Proliferation** Brian K. Chappell,2021-01-07 Contemporary fears of rogue state nuclear proliferation and nuclear terrorism pose unique challenges for the global community This book offers a unique approach by examining why states that have the military capability to severely damage a proliferating state s nuclear program instead choose to pursue coercive diplomacy The author argues cognitive psychological influences including the trauma derived from national tragedies like the September 11th attacks and the Holocaust and a history of armed conflict increase the threat perceptions of foreign policy decision makers when confronting a state perceived to be challenging the existing power structure by pursuing a nuclear weapon The powerful state s degree of perceived threat combined with its national security policies military power projection capabilities and public support then influence whether it will take no action use coercive diplomacy sanctions or employ military force to address the weaker state s nuclear ambitions Threat of Ballistic Missiles in the Middle East Arie Stav,2004-06-01 This addresses the complex issue of defence against ballistic missiles by intercepting them at various stages of their trajectory The book poses both technical and conceptual questions regarding the issue of missile to missile interception and other options
