meticulous reconstruction in architecture It argues that the politics of reconstruction go far beyond aesthetic considerations Taking architecture as a major source of history and regional identity the impact of large scale reconstruction is deeply intertwined with political and social factors Furthermore memories and associations correlated with lost buildings of a bygone era are heavily influenced by their re appearance something which often contradicts historical events Reconstruction has become an established way of building and dealing with the past yet so far there is no comprehensive scientific study on it By bringing together eight case studies from Eastern Europe France Spain China Japan Israel and Brazil it provides valuable insights into this topic The chapters analyse the political background of the reconstructions and identify the protagonists In doing so this volume adds to our understanding of the impact of reconstruction to memory and oblivion as well as the critical power of reconstruction regarding contemporary architecture and urbanism **Political Sentiments**

The Communist Quest for National Legitimacy in Europe, 1918-1989 Martin Mevius, 2013-09-13 There are two popular myths concerning the relationship between communism and nationalism The first is that nationalism and communism are wholly antagonistic and mutually exclusive The second is the assertion that in communist Eastern Europe nationalism was oppressed before 1989 to emerge triumphant after the Berlin Wall came down Reality was different Certainly from 1945 onwards communist parties presented themselves as heirs to national traditions and guardians of national interests The communist states of Central and Eastern Europe constructed socialist patriotism a form of loyalty to their own state of workers and peasants Up to 1989 communists in Eastern Europe sang the national anthem and waved the national flag next to the red banner The use of national images was not the exception but the rule From Cuba to Korea all communist parties attempted to gain national legitimacy This was not incidental or a deviation from Marxist orthodoxy but ingrained in the theory and practice of the communist movement since its inception The study of communist national legitimacy is an exciting new field This book presents examples of communist attempts to co opt nationalism from both sides of the iron curtain and lays bare the striking similarities between such diverse cases as the socialist patriotism of the Bulgarian Communist Party and the national line of the Portuguese communists between Romanian communist nation building and the national ideology of the Spanish Communist Party This book was published as a special issue of Nationalities Papers

Religion and Politics in Post-Communist Romania Lavinia Stan, Lucian Turcescu, 2007-10-25 In the post communist era it has become evident that the emerging democracies in Eastern Europe will be determined by many factors only some of them political Throughout the region the Orthodox Roman Catholic and Greek Catholic churches have tried to impose their views on democracy through direct political engagement Moreover surveys show that the churches and the army enjoy more popular confidence than elected political bodies such as parliaments These results reflect widespread disenchantment with a democratization process that has allowed politicians to advance their own agendas rather than work to solve the urgent socio economic problems these countries face In this penetrating study Lavinia Stan and Lucian Turcescu investigate the interaction of religion and politics in one such country Romania Facing internal challenges and external competitions from other religions old and new the Orthodox Church in Romania has sought to consolidate its position and ensure Romania s version of democracy recognizes its privileged position of national Church enforcing the Church s stances on issues such as homosexuality and abortion The post communist state and political elite in turn rely on the Church for compliance with educational and cultural policies and to quell the insistent demands of the Hungarian minority for autonomy

Stan and Turcescu examine the complex relationship between church and state in this new Romania providing analysis in key areas church collaboration with communist authorities post communist electoral politics nationalism and ethno politics restitution of Greek Catholic property religious education and sexual behavior and reproduction As the first scholars to be given access to confidential materials from the archives of the communist political police the notorious Securitate Stan and Turcescu also examine church archives legislation news reports and interviews with politicians and church leaders This study will move the debate from common analyses of nationalism in isolation to more comprehensive investigations which consider the impact of religious actors on a multitude of other issues relevant to the political and social life of the country

Vacationing in Dictatorships Adelina Stefan,2024-12-15 *Vacationing in Dictatorships* examines the political effects of international tourism in socialist Romania and Francoist Spain in the postwar era Despite sharp economic and political differences between the two dictatorial regimes at the start of the Cold War significant similarities existed as both states took advantage of international tourism to improve their image abroad and pursued processes of economic modernization to acquire hard currencies By the end of the 1970s though the two countries achieved rather different results in terms of tourism development despite the fact that both shared many features in the 1940s and 1950s By comparing the rise and evolution of international tourism on different sides of the Iron Curtain Adelina Stefan provides a different assessment of the geopolitics of postwar Europe that further refines the Cold War s geographies separating Eastern and Western Europe As a result *Vacationing in Dictatorships* reveals a new perspective on the Cold War that reveals not only the developmental similarities between Eastern and Southern Europe but also the ideological struggle that pitted socialist East against capitalist West

Fragmented Identities Denise Roman,2007-01-01 Combining sharp observation a native s ease in the city and talent as a storyteller Denise Roman spiritedly presents the myriad details and the diverging cultural strands of life in postcommunist Bucharest Roman focuses on identity formation and identity politics among youth Jews women and queers

The Balkans and the West Andrew Hammond,2017-03-02 This collection of essays locates investigates and challenges the manner in which the Balkans and the West have constructed each other since 1945 Scholars from the two sections of the continent explore a wide range of fiction film journalism travel writing and diplomatic records both to analyse Western European balkanism and to study Balkan representations of the West over the last fifty years The first section looks back to the Cold War examining the divergent often favourable images of the Balkans that existed in Western culture as well as the variety of responses that appeared in South East European writings on the West The second section analyses the transitions that took place in representation during the 1990s Here contributors explore both the harsh denigration of the Balkans which came to dominate western discourse after the initial euphoria of 1989 and the emerging tradition of contesting Western balkanism in South East European cultural production Through this dual emphasis the volume exposes the representational practices that help to maintain a deeply divided Europe and challenges the economic and political injustices that result

Despite the rise to prominence of postcolonial theory with its awareness of global inequality the current crises in many parts of South East Europe have received scant attention in literary and cultural studies *The Balkans and the West* addresses this deficiency Ranging in focus from Serbian cinema to Romanian travel literature from Western economic writings to Yugoslav fiction and from public discourse in Albania to NATO's vast propaganda machine the essays offer wide insight into representation and power in the contemporary European context **Democratising Capitalism?** Liliana Pop, 2006-09-19 Liliana Pop offers a comprehensive analysis of post communist transformations in the economy politics and culture of Romania and considers the influence of international financial institutions and the European Union which Romania are preparing to join **Romanians in Western Europe** Remus Gabriel Anghel, 2013-07-22 In recent years Romanians have become the second largest migrant group in Western Europe Following the liberalization of border controls and the massive economic and political changes in Eastern Europe human mobility has increased and is becoming a permanent feature of post Cold War Europe The arrival of many Eastern Europeans with Romanians being the largest migrant group has produced public concerns on immigration in some West European countries This is particularly the case in Italy where Romanian irregular migrants are often stigmatized as poor troublemakers by authorities and the mass media This book challenges such commonly held assumptions that artificially divide migrants into categories of wished and unwished immigrants winners and losers of international migration This book compares two migrant groups The first is composed of ethnic Germans who migrated legally from Timisoara Romania to Nuremberg Germany The second is made up of those who migrated irregularly from Borsa Romania to Milan Italy The analysis highlights a paradoxical situation Irregular Romanian migrants in Milan had fewer rights and opportunities yet through migration they gained prestige and came to enjoy a sense of success Alternately the Germans who had migrated to Nuremberg who received more rights and opportunities perceived that they had suffered a loss of social prestige The focus on migrants social status employed in the book seeks to clarify this puzzle and provide an analytical framework for researching the linkages between the migration and incorporation of Romanians who are today European citizens and European states migration policies and migrant transnationalism *Postwar* Tony Judt, 2006-09-05 Finalist for the Pulitzer Prize Winner of the Council on Foreign Relations Arthur Ross Book Award One of the New York Times's 100 Best Books of the 21st Century Impressive Mr Judt writes with enormous authority *The Wall Street Journal* Magisterial It is without a doubt the most comprehensive authoritative and yes readable postwar history *The Boston Globe* Almost a decade in the making this much anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement *Postwar* is the first modern history that covers all of Europe both east and west drawing on research in six languages to sweep readers through thirty four nations and sixty years of political and cultural change all in one integrated enthralling narrative Both intellectually ambitious and compelling to read thrilling in its scope and delightful in its small details *Postwar* is a rare joy **Theatre, Globalization and the Cold War** Christopher B.

Balme, Berenika Szymanski-Düll, 2017-06-05 This book examines how the Cold War had a far reaching impact on theatre by presenting a range of current scholarship on the topic from scholars from a dozen countries They represent in turn a variety of perspectives methodologies and theatrical genres including not only Bertolt Brecht Jerzy Grotowski and Peter Brook but also Polish folk dancing documentary theatre and opera production The contributions demonstrate that there was much more at stake and a much larger investment of ideological and economic capital than a simple dichotomy between East versus West or socialism versus capitalism might suggest Culture and theatrical culture in particular with its high degree of representational power was recognized as an important medium in the ideological struggles that characterize this epoch Most importantly the volume explores how theatre can be reconceptualized in terms of transnational or even global processes which it will be argued were an integral part of Cold War rivalries *Socialist Heritage* Emanuela Grama, 2019-12-01 This prize winning study of post WWII Romania examines the fraught relationship between national heritage and Socialist statecraft In *Socialist Heritage* ethnographer and historian Emanuela Grama explores the socialist state's attempt to create its own heritage as well as the ongoing legacy of that project While many argue that the socialist regimes of Central and Eastern Europe aimed to erase the pre war history of the socialist cities Grama shows that the communist state in Romania sought to exploit the past for its own benefit The book traces the transformation of Bucharest's Old Town district from the early twentieth century into the twenty first Under socialism politicians and professionals used the district's historic buildings especially the ruins of a medieval palace to emphasize the city's Romanian past and erase its ethnically diverse history Since the collapse of socialism the cultural and economic value of the Old Town has become highly contested Its poor residents decry their semi decrepit homes while entrepreneurs see it as a source of easy money Such arguments point to recent negotiations about the meanings of class political participation and ethnic and economic belonging in today's Romania Grama's rich historical and ethnographic research reveals the fundamentally dual nature of heritage every search for an idealized past relies on strategies of differentiation that can lead to further marginalization and exclusion Winner of the 2020 Ed A Hewitt Book Prize
