U.S. Army War College Guide to National Security Policy and Strategy J. Boone Bartholomees, 2001 **National Security Case Studies in Policy Making & Implementation, Volume I, U.S. Department of Defense, 1994** Naval War College (U.S.), *National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two* Dr. Dan Mou, 2017-01-12

This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria **Project on National Security Reform Case Studies** ,2012 On November 26 2008 the Project on National Security Reform submitted its 2 year study of the national security system Forging a new shield to the President President elect and Congress The study found that the national security system was at risk of failure and needed serious reform Before the Project finalized the report s recommendations its Vision Working Group tested the findings against a diverse set of scenarios to determine if the recommendations were robust and effective This testing revealed that each of the five major findings improved the performance of the current national security system Volume 1

documents the scenario testing process used by the Vision Working Group. It includes the actual pre reform and post reform scenarios and details many other scenario techniques used in the overall study. The studies featured in Volume 2 span from the Eisenhower administration to the present day offering diverse lessons and covering a range of issues from public diplomacy to nonproliferation to biodefense to peacekeeping and alliance management among others. **National Security: U.S. contingency operations**, 1994 **Subject Guide to Books in Print**, 2001 Encyclopedia of Public Administration and Public Policy - 5 Volume Set Domonic A. Bearfield, Evan Berman, Melvin J. Dubnick, 2020-08-14. Now in its third edition, the Encyclopedia of Public Administration and Public Policy remains the definitive source for article length presentations spanning the fields of public administration and public policy. It includes entries for Budgeting, Bureaucracy, Conflict resolution, Countries and regions, Court administration, Gender issues, Health care, Human resource management, Law, Local government, Methods, Organization, Performance, Policy areas, Policy making process, Procurement, State government, Theories. This revamped five volume edition is a reconceptualization of the first edition by Jack Rabin. It incorporates over 225 new entries and over 100 revisions including a range of contributions and updates from the renowned academic and practitioner leaders of today as well as the next generation of top scholars. The entries address topics in clear and coherent language and include references to additional sources for further study. **National Security, Democracy, & Good Governance in Post-Military Rule Nigeria, Volume One** Dr. Dan Mou, 2016-12-30. This book shows that the security, economic, political, and social problems challenging national security, democracy, and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent (71%) of Nigerias population still living below poverty line. This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades. It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth, this country will witness the worst civil disobedience, violence, revolts, militancy, breakdown of law and order, more kidnappings, and more of the citizens trying to check out of the country to other parts of the world in future. It concludes, however, that under such intense pressures, the Government of Nigeria, even if it is simply for its self preservation, will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria. These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use.
