

National Socialist Germany

Pamela E. Swett, S. Jonathan Wiesen

National Socialist Germany:

Hitler and Nazi Germany Jackson J. Spielvogel, 1992 Providing a clear straightforward and complete history both thematic and chronological of the rise of Hitler and the Nazi Party author Jackson J Spielvogel places the emergence of Hitler and the Third Reich within the social economic and political contexts that made it all possible Topics examined are the cultural and social aspects of the Nazi regime including sections on art and literature family and population policy and sex and morals Also provided is an in depth view of the Holocaust anti Semitism in Germany Hitler s personal racial ideology and vision of Aryan purity the mechanisms of terror and control and the Jewish perspective on these events New to the Fifth Edition Material on the political scene in Weimar Germany Hitler s early life The role of Gregor Strasser in rebuilding the Nazi Party Material on Darre and Blood and Soil The SS and the military between 1933 and 1939

Why Did the National Socialist Party in Germany Come Into Power? Marion Luger, 2009-09-22 Seminar paper from the year 2001 in the subject History of Germany National Socialism World War II grade 1 00 University of Sussex language English abstract In order to explain the rise of National Socialism in interwar Germany historians have proceeded from various assumptions Their theories have ranged from the notion of an evil disposition inherent in the German character to the very differing one of the Germans as victims of the malefactor Hitler and his system For a serious investigation about the origins of the Nazi movement however these two extreme standpoints have to be relocated Both presumptions tend to consider National Socialism as an incident that erupted suddenly and without any relation to historical circumstances Yet Fischer points out that human events in time and place are not inexplicable occurrences wholly unexpected and unconnected to past forms of behaviour Consequently we have to consider the roots of the ideology National Socialism section II In section III I will try to comprehend the evolution of National Socialism as a political movement Section IV reveals the link between those two aspects in the person of Adolf Hitler and the way he promoted both Finally the contribution of the German population to the rise of the NSDAP will be investigated section V

Gregor Strasser and the Rise of Nazism (RLE Nazi Germany & Holocaust) Peter D. Stachura, 2014-09-19 The most influential and substantial leader after Hitler in the pre 1933 National Socialist Party was Gregor Strasser This book originally published in 1983 but as yet not superseded is a comprehensive and scholarly assessment of Strasser s significant and ultimately tragic career based largely on previously unpublished German archival material Strasser s importance as a Nazi propagandist organiser ideologue and spokesman is examined and the analysis and interpretation which follow are fundamentally revisionist in that many of the accepted ideas about Strasser s career are challenged and shown to be untenable The book provides important insights into an interesting personality which in turn considerably enhances our understanding of the character of early National Socialism and the politics of the Weimar Republic

Visions of Community in Nazi Germany Martina Steber, Bernhard Gotto, 2018-07-16 When the Nazis seized power in Germany in 1933 they promised to create a new harmonious society under the leadership of the Führer Adolf Hitler

The concept of Volksgemeinschaft the people's community enshrined the Nazis vision of society a society based on racist social Darwinist anti democratic and nationalist thought The regime used Volksgemeinschaft to define who belonged to the National Socialist community and who did not Being accorded the status of belonging granted citizenship rights access to the benefits of the welfare state and opportunities for advancement while these who were denied the privilege of belonging lost their right to live They were shamed excluded imprisoned murdered Volksgemeinschaft was the Nazis project of social engineering realized by state action by administrative procedure by party practice by propaganda and by individual initiative Everyone deemed worthy of belonging was called to participate in its realization Indeed this collective notion was directed at the individual and unleashed an enormous dynamism which gave social change a particular direction The Volksgemeinschaft concept was not strictly defined which meant that it was rather marked by a plurality of meaning and emphasis which resulted in a range of readings in the Third Reich drawing in people from many social and political backgrounds

Visions of Community in Nazi Germany scrutinizes Volksgemeinschaft as the Nazis central vision of community The contributors engage with individual appropriations examine projects of social engineering analyze the social dynamism unleashed and show how deeply private lives were affected by this murderous vision of society *Nazi Germany* Pamela E. Swett, S. Jonathan Wiesen, 2024-07-11 Nazi Germany provides a comprehensive survey of the National Socialist dictatorship artfully balancing social and cultural history with a political and military history of the regime The book unravels the complexities of the daily lives of perpetrators victims and bystanders in the Third Reich and it also places events in Germany from 1933 to 1945 in a transnational context Nazi Germany prompts readers to think about not only the historical debates but also the ethical questions that attend the study of this period Pamela E Swett and S Jonathan Wiesen address The movement's ideological origins and the party's rise to power The creation of a police state the use of propaganda and public support for Nazi ideas and programs The Nazis persecution of religious racial and sexual minorities The place of youth family gender and cultural expression in Nazi society The transnational influence of Nazism and preparations for war in Germany The Holocaust resistance to Nazism and the Second World War Swett and Wiesen explore how the violence and racism of the Nazis coexisted alongside Germany's self presentation as a normal state with happy productive citizens Through exposure to the voices of contemporaries readers will be prompted to consider key questions How did German democracy give way to a brutal dictatorship so quickly What was daily life like for average Germans and those labeled as biological and political outsiders Why did the Nazi dictatorship embark on a destructive war that led to the death of tens of millions of Europeans and to the demise of a political order that had become exceedingly popular by 1939 *Power Politics and Social Change in National Socialist Germany* John Michael Steiner, 1976 On the Jews see pt IV pp 129 165 and the notes on pp 306 347

Totalitarian Institutions and German Bureaucracy A Process of Escalation into Destruction **Hitler and Nazi Germany** Robert George Leeson Waite, 1965 Explaining German fascism is difficult since this species of social and political cannibalism

did not take place in a backward country a long time ago It occurred in the twentieth century among one of the world s most advanced and literate people How was it possible that such a people accepted Hitler and gave him their overwhelming support It is the purpose of this book of readings to provide evidence and interpretations that will help students to understand one of the most baffling periods in all history The three parts of this book examine one aspect of the Third Reich Hitler s personality reasons for the Nazi rise to power and the theory and practice of National Socialism The Nazi Machtergreifung (RLE Nazi Germany & Holocaust) Peter D. Stachura,2014-09-19 This book analyses some of the fundamental reasons for the triumph of National Socialism in 1933 Written in 1983 by historians at Canadian American and British universities it provides a clear and balanced historiographical perspective of the dynamics of socio political mobilization which helped make the Machtergreifung possible The relationship during the Weimar republic between the Nazi Party and various social groups constitutes a major element in the book as do the attitudes towards Hitler displayed by a number of influential institutions The Nazis successful mobilization of popular support before 1933 is illustrated through the impact of foreign policy and ideology propaganda on the Germans **The Formation of the Nazi Constituency 1919-1933 (RLE Nazi Germany & Holocaust)** Thomas Childers,2014-09-19 In the years preceding publication of this book in 1986 much progress was made in identifying the social sources of support for Hitler s NSDAP and in determining the tactics employed by the party to mobilise its constituency at grass roots level It has emerged that the Nazi s roots were far more diverse than previously assumed extending beyond the lower middle class to encompass both the affluent bourgeoisie and the working class This book collects together original studies which represent a distillation of some of the contemporaneous research **National Socialism** United States. Department of State. Division of European Affairs,1943 U S Dept of State Publication 1864 *A Companion to Nazi Germany* Shelley Baranowski,Armin Nolzen,Claus-Christian W. Szejnmann,2018-04-03 A Deep Exploration of the Rise Reign and Legacy of the Third Reich For its brief existence National Socialist Germany was one of the most destructive regimes in the history of humankind Since that time scholarly debate about its causes has volleyed continuously between the effects of political and military decisions pathological development or modernity gone awry Was terror the defining force of rule or was popular consent critical to sustaining the movement Were the German people sympathetic to Nazi ideology or were they radicalized by social manipulation and powerful propaganda Was the Final Solution the motivation for the Third Reich s rise to power or simply the outcome A Companion to Nazi Germany addresses these crucial questions with historical insight from the Nazi Party s emergence in the 1920s through its postwar repercussions From the theory and context that gave rise to the movement through its structural cultural economic and social impacts to the era s lasting legacy this book offers an in depth examination of modern history s most infamous reign Assesses the historiography of Nazism and the prehistory of the regime Provides deep insight into labor education research and home life amidst the Third Reich s ideological imperatives Describes how the Third Reich affected business the

economy and the culture including sports entertainment and religion Delves into the social militarization in the lead up to war and examines the social and historical complexities that allowed genocide to take place Shows how modern day Germany confronts and deals with its recent history Today s political climate highlights the critical need to understand how radical nationalist movements gain an audience then followers then power While historical analogy can be a faulty basis for analyzing current events there is no doubt that examining the parallels can lead to some important questions about the present Exploring key motivations environments and cause and effect this book provides essential perspective as radical nationalist movements have once again reemerged in many parts of the world **Nazi Germany** Jane Caplan,2019-07-25 Any consideration of the 20th century would be incomplete without a discussion of Nazi Germany an extraordinary regime which dominated European history for 12 years and left a legacy that still echoes with us today The incredible force of the destructive vision at the heart of Nazi Germany led to a second world war when the world was still aching from the first one and an incomprehensible death count both at home and abroad In this Very Short Introduction Jane Caplan s insightful analysis of Nazi Germany provides a highly relevant reminder of the fragility of democratic institutions and the ways in which the exploitation of national fears mass political movements and frail political opposition can lead to the imposition of dictatorship Considering the emergence and popular appeal of the Nazi party she discusses the relationships between belief consent and terror in securing the regime alongside the crucial role played by Hitler himself Covering the full history of the regime she includes an unflinching look at the dark stains of war persecution and genocide At the same time Caplan offers unexpected angles of vision and insights asking readers to look behind the handful of over used images of Nazi Germany we are familiar with and to engage critically with a history that that is so abhorrent it risks seeming beyond interpretation ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Hitler and Nazi Germany Jackson J. Spielvogel,David Redles,2010 This text is a brief yet comprehensive survey of the Third Reich based on current research findings and it is written for students and general readers who want a deeper understanding of this period in German history It provides a balanced approach in examining Hitler s role in the history of the Third Reich and includes coverage of the economic social and political forces that made the rise and growth of Nazism possible the institutional cultural and social life of the Third Reich the Second World War and the Holocaust Hallmark Features An in depth portrait of Adolf Hitler the man and the leader Coverage includes the influences on his early development his character traits his oratorical skills his messianic pretensions and an analysis of his ideology based on quotations from his writings and speeches A thorough examination of the Holocaust Includes coverage of anti-Semitism in Germany Hitler s personal racial ideology and vision of Aryan purity the mechanisms of terror and control and the machinery

of the Final Solution The Jewish perspective is woven throughout this coverage Engaging coverage of the following topics Anti Jewish policies and the involvement of ordinary Germans in the Holocaust The political scene in Weimar Germany The role of Gregor Strasser in rebuilding the Nazi Party Walter Darr and Blood and Soil The internal consolidation of power Party state relations Early Nazi economic policy The SS and the military between 1933 1939 Provides the most up to date research Pedagogical Features Student Pedagogy Includes maps photos bibliographies and suggestions for further reading David Redles Associate Professor of History at Cuyahoga Community College contributed his expertise to the latest revision by revising and updating the text in accordance with the most recent scholarship in the field Coverage of World War I has been reorganized to improve flow Includes a substantial amount of NEW coverage of cultur National-Socialist Archaeology in Europe and its Legacies Martijn Eickhoff, Daniel Modl, Katie Meheux, Erwin Nuijten, 2023-08-14 This edited volume is dedicated to national socialist archaeology as a Europe wide phenomenon It analyses national socialist attempts to denationalize the archaeologies of European nations by creating a new unifying European archaeology on a racial basis From the beginning of the nineteenth century archaeology began to develop into an important force behind processes of nation building At the same time structures of transnational academic collaboration contributed strongly to the internal dynamics of the research field which was primarily organized on a national basis In those European countries that were confronted with national socialist occupation and repression between 1939 and 1945 these transnational archaeological networks were to prove crucial for the development of national socialist archaeological policies This volume will reveal how national socialist archaeology was to an extent valued positively in its time as highly innovative even influencing the archaeology of non occupied countries Although in the final instance it generally failed to displace the national archaeologies in Europe the volume also analyses the long term impact of national socialist rule on the development of European archaeology How did the attempts to create a unified European archaeology after 1945 continue to influence networks methods and terminologies institutional structures or popular representations of the early past *Nazi Germany's New Aristocracy* Herbert F. Ziegler, 2014-07-14 The first book length presentation on the social origins of the prewar SS leadership this volume offers a complete picture of the men who between 1925 and 1939 joined the vanguard of National Socialism and rose to the rank of SS F hrer Herbert Ziegler reveals that the Black Order was composed of people from all walks of life Young Gymnasium and university graduates rubbed elbows with former gardeners mechanics and office clerks while old fighters of the pre 1933 Nazi movement climbed the ladder of SS ranks alongside those who did not find their enthusiasm for Hitler s new order until after the Nazi seizure of power Within the confines of Heinrich Himmler s new knighthood was created a people s community in microcosm furnishing many a recruit a vehicle for upward social mobility Moving beyond earlier explanations of who provided the support for National Socialism Ziegler describes practices within the SS that were akin to a democracy of personnel selection and that resulted by 1939 in a leadership corps characterized by social heterogeneity rather than

homogeneity Taking advantage of the detailed information contained in the thousands of SS personnel files located at the Berlin Document Center and using the tools of statistical analysis he also probes the connections between social reality and the ideological credos and promises of the Third Reich Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **A**

History of Nazi Germany Joseph W. Bendersky, 2000 This balanced history offers a concise readable introduction to Nazi Germany Combining compelling narrative storytelling with analysis Joseph W Bendersky offers an authoritative survey of the major political economic and social factors that powered the rise and fall of the Third Reich The book incorporates significant research of recent years analysis of the politics of memory postwar German controversies about World War II and the Nazi era and more on non Jewish victims Delving into the complexity of social life within the Nazi state it also reemphasizes the crucial role played by racial ideology in determining the policies and practices of the Third Reich Bendersky paints a fascinating picture of how average citizens negotiated their way through both the threatening power behind certain Nazi policies and the strong enticements to acquiesce or collaborate His classic treatment provides an invaluable overview of a subject that retains its historical significance and contemporary importance Text refers to later edition The Rise of

National Socialism and the Working Classes in Weimar Germany Conan Fischer, 1996 Before seizing power the Nazi movement assembled an exceptionally broad social coalition of activists and supporters Many were working class but there remains considerable disagreement over the precise size and structure of this constituency and still more over its ideology and politics An indispensable work for scholars of interwar Germany and Nazism in general **The Explorer's Roadmap**

to National-Socialism Sarah K. Danielsson, 2016-03-16 Whilst terms such as Lebensraum are commonly associated with National Socialist ideology of the 1930s and 40s ideas of racial living space were in fact generated in the previous decades by an international geographic community of explorers and academics Focusing on one of the most influential figures within this group Sven Hedin this is the first study that systematically connects the geographic community to the intellectual history of the development of National Socialist ideology and genocidal practices The book demonstrates how colonial racial and nationalistic policies were often spearheaded by explorers and geographers such as Hedin In Germany Britain France and Russia their positions as publicly recognized authors and reputable academics made them highly influential with politicians Whilst this influence was to become most visible within Hitler's Germany the debates were not by any means restricted to or even originated in Germany Germany was the home of some of the most prominent geographers but this scientific community had a tradition of international debate and exchange with especially British French and Russian geographic societies and

institutions Many issues that were later discussed and championed by National Socialist ideology were aired and debated in this international setting raising important questions about the international character and impact of National Socialism Tracing the intellectual history of the international geographic community and its relationship to National Socialism this study provides an assessment of Hedin s close involvement with the Nazi elite as a culmination of decades of political and scientific work In so doing the book uncovers a long ignored or overlooked important connection between exploration geographers and genocide

HITLER'S NATIONAL SOCIALISM Ian Tinny,Libertarian Literary Criticism, Relying on new revelations this book reconstructs Adolf Hitler s semiosis iconography and goals It shows that Hitler launched a form of National Socialism that is concealed by the mainstream media and its social media lackeys They hide how Hitler was inspired by Germany s other infamous political philosopher Karl Marx Germany s two top white male racist socialists stay in vogue even though their policies remain a mystery to the multitudes For example the following facts with credit to the archives of the swastikologist Dr Rex Curry will come as news to the huddled masses 1 NEW SWASTIKA DISCOVERY Hitler s symbol is the reason why Hitler renamed his political party from DAP to NSDAP National Socialist German Workers Party because he needed the word Socialist in his party s name so that Hitler could use swastikas as S letter shaped logos for SOCIALIST as the party s emblem The party s name had to fit in Hitler s socialist branding campaign that used the swastika and many other similar alphabetical symbols including the SS and SA and NSV and VW etc He was selling socialism by selling flags and related merchandise It resembled the advertising campaign of the American socialist Francis Bellamy 2 The term swastika never appears in the original Mein Kampf There is no evidence that Hitler ever used the word swastika The symbol that Hitler did use was intended to represent S letter shapes for socialist 3 NEW LENIN S SWASTIKA REVELATION Vladimir Lenin s swastika is exposed herein The impact of Lenin s swastikas was reinforced at that time with additional swastikas on ruble money paper currency The swastika became a symbol of socialism under Lenin It s influence upon Adolf Hitler is explained in this book 4 Hitler altered his own signature to reflect his S shapes for socialism logo branding 5 Hitler and Marx were popular in the USA Two famous American socialists the cousins Edward Bellamy and Francis Bellamy were heavily influenced by Marx The American socialists returned the favor Francis Bellamy created the Pledge of Allegiance to the Flag that produced Nazi salutes and Nazi behavior The Bellamy cousins were American national socialists 6 The classic military salute to the brow also contributed to the creation of the Nazi salute with the right arm extended stiffly 7 The Bellamy cousins promoted socialist schools that imposed segregation by law and taught racism as official policy 8 Hitler and his supporters self identified as socialists by the very word in voluminous speeches and writings The term Socialist appears throughout Mein Kampf as a self description by Hitler 9 Hitler never called himself a Nazi There was no Nazi Germany There was no Nazi Party Those terms are slang to hide how Hitler and his comrades self identified SOCIALIST 10 Hitler never called himself a Fascist That term is misused to hide how Hitler and his comrades self identified SOCIALIST 11 The term

Nazi isn't in Mein Kampf nor in Triumph of the Will 12 The term Fascist never appears in Mein Kampf as a self description by Hitler 13 Mussolini was a long time socialist leader with a socialist background raised by socialists to be a socialist and he joined socialists known as fascio fasci and fascisti 14 Fascism came from a socialist e g Mussolini Communism came from a socialist e g Marx Fascism and Communism came from socialists 15 German socialists and Soviet socialists partnered for International Socialism in 1939 They launched WWII invading Poland together and continued onward from there killing millions Soviet socialism had signed on for Hitler's Holocaust 16 After Hitler's death Stalin continued the plan he had made with Hitler for Global Socialism Stalin took over the same areas that Hitler had captured He used the same facilities that Hitler had used Hitler's Holocaust never ended Stalin replaced Hitler [Complete Idiot's Guide to Nazi Germany](#) Robert Smith Thompson, 2003 A comprehensive guide to the Third Reich this book chronicles the events leading up to the rise of Adolf Hitler and the Nazi Party to the downfall of both
