Denmark, 2019 Savannah's Midnight Hour argues that Savannah's development is best understood within the larger history of municipal finance public policy and judicial readjustment in an urbanizing nation In providing such context Lisa Denmark adds constructive complexity to the conventional Old South New South dichotomous narrative in which the politics of slavery secession Civil War and Reconstruction dominate the analysis of economic development Denmark shows us that Savannah's fiscal experience in the antebellum and postbellum years while exhibiting some distinctively southern characteristics also echoes a larger national experience Her broad account of municipal decision making about improvement investment throughout the nineteenth century offers a more nuanced look at the continuity and change of policies in this pivotal urban setting Beginning

in the 1820s and continuing into the 1870s Savannah's resourceful government leaders acted enthusiastically and aggressively to establish transportation links and to construct a modern infrastructure. Taking the long view of financial risk, the city municipal government invested in an ever widening array of projects: canals, railroads, harbor improvement, drainage, because of their potential to stimulate the city's economy. Denmark examines how this ideology of over-optimistic risk-taking, rooted firmly in the antebellum period, persisted after the Civil War and eventually brought the city to the brink of bankruptcy. The struggle to strike the right balance between using public policy and public money to promote economic development while at the same time trying to maintain a sound fiscal footing is a question governments still struggle with today.

An Outdoor Guide to Bartram's Travels Charles D. Spornick, Alan Cattier, Robert J. Greene, 2003. The author lovingly reconstructs the journey of eighteenth-century naturalist William Bartram retracing his painstaking survey of the flora, fauna, and cultures of the American Southeast. **Travel**

The Greenwood Encyclopedia of Homes through World History James M. Steele, 2009-03-30. The house throughout history in every place in the world has been built to provide shelter from the elements. The dwellings that have resulted are as different as the people that have built them, the social norms that prevailed at the time and place in which they were built, and the natural environment that they adapted to. Studying them now in a comprehensive way allows us to understand the social, political, economic, and religious conditions that existed for their inhabitants. They are a three-dimensional record of culture. Twenty-four pages of color images along with black and white images through three volumes illustrate the homes of people throughout the world. The volumes cover ancient times to the late Middle Ages, the Renaissance to the Industrial Revolution, and the Post-Industrial Revolution to the Present. **Johnny Mercer** Glenn T. Eskew, 2013-11-15. John Herndon Johnny Mercer 1909-76 remained in the forefront of American popular music from the 1930s through the 1960s, writing over a thousand songs, collaborating with all the great popular composers and jazz musicians of his day, working in Hollywood and on Broadway, and as co-founder of Capitol Records, helping to promote the careers of Nat King Cole, Margaret Whiting, Peggy Lee, and many other singers. Mercer's songs, sung by Bing Crosby, Billie Holiday, Judy Garland, Frank Sinatra, Ella Fitzgerald, Tony Bennett, Lena Horne, and scores of other performers, are canonical parts of the great American songbook. Four of his songs received Academy Awards: *Moon River*, *Days of Wine and Roses*, *On the Atchison Topeka and the Santa Fe*, and *In the Cool, Cool, Cool of the Evening*. Mercer standards such as *Hooray for Hollywood* and *You Must Have Been a Beautiful Baby* remain in the popular imagination. Exhaustively researched, Glenn T. Eskew's biography improves upon earlier popular treatments of the Savannah, Georgia-born songwriter to produce a sophisticated, insightful, evenhanded examination of one of America's most popular and successful chart toppers. **Johnny Mercer: Southern Songwriter for the World** provides a compelling chronological narrative that places Mercer within a larger framework of diaspora entertainers who spread a southern, multiracial culture across the nation and around the world. Eskew contends that Mercer and much of his music remained rooted in his native South, being deeply influenced by the folk music of

coastal Georgia and the blues and jazz recordings made by black and white musicians At Capitol Records Mercer helped redirect American popular music by commodifying these formerly distinctive regional sounds into popular music When rock n roll diminished opportunities at home Mercer looked abroad collaborating with international composers to create transnational songs At heart Eskew says Mercer was a jazz musician rather than a Tin Pan Alley lyricist and the interpenetration of jazz and popular song that he created expressed elements of his southern heritage that made his work distinctive and consistently kept his music before an approving audience

Bryant, 2015-07-13 Los Angeles Times Book Prize Finalist in History A dramatic work of historical detection illuminating one of the most significant and long forgotten Supreme Court cases in American history In 1820 a suspicious vessel was spotted lingering off the coast of northern Florida the Spanish slave ship Antelope Since the United States had outlawed its own participation in the international slave trade more than a decade before the ship's almost 300 African captives were considered illegal cargo under American laws But with slavery still a critical part of the American economy it would eventually fall to the Supreme Court to determine whether or not they were slaves at all and if so what should be done with them Bryant describes the captives harrowing voyage through waters rife with pirates and governed by an array of international treaties By the time the Antelope arrived in Savannah Georgia the puzzle of how to determine the captives fates was inextricably knotted Set against the backdrop of a city in the grip of both the financial panic of 1819 and the lingering effects of an outbreak of yellow fever Dark Places of the Earth vividly recounts the eight year legal conflict that followed during which time the Antelope's human cargo were mercilessly put to work on the plantations of Georgia even as their freedom remained in limbo When at long last the Supreme Court heard the case Francis Scott Key the legendary Georgetown lawyer and author of The Star Spangled Banner represented the Antelope captives in an epic courtroom battle that identified the moral and legal implications of slavery for a generation Four of the six justices who heard the case including Chief Justice John Marshall owned slaves Despite this Key insisted that by the law of nature all men are free and that the captives should by natural law be given their freedom This argument was rejected The court failed Key the captives
