Vietnamese State Industry and the Political Economy of Commercial Renaissance Adam Fforde, 2007-02-28 This book is based upon extensive and repeated fieldwork close observation and familiarity with institutional detail It traces Vietnam's early attempts to create in State Owned Enterprises SOEs a basis for a military industrial complex and the ways in which these attempts failed which explains the nature of state commercialism through the 1980s and into recent years Since the 1990 breakout to a market economy Vietnam has shown outstanding development

success with rapid GDP growth macroeconomic stability swift poverty reduction maintenance of social spending and extensive globalisation Her SOEs have played a major role not only in showing that performance gains in 1989 91 could compensate for loss of the large Soviet bloc aid program but also as major players in the rapid economic change of the 1990s during which the officially reported state share of GDP remained high By the middle of the 2000s however a rising private sector was in harness with a large presence of foreign companies sharply increasing pressures upon SOEs Against this background the book concludes with an assessment of the extent to which Vietnam s commercialised SOEs are now no longer seen as an effective compromise but acting as a major hindrance to Vietnam s development Historical analysis of the process by which Vietnam s SOEs shifted from central planning to operation in an increasingly globalised market economy Draws upon regular and repeated fieldwork going back to the late 1970s Uses a wide range of Vietnamese language and other sources

Tria Kerkvliet,2018-07-05 Ordinary people s everyday political

behavior can have a huge impact on national policy that is the central conclusion of this book on Vietnam In telling the story of collectivized agriculture in that country Benedict J Tria Kerkvliet uncovers a history of local resistance to national policy and gives a voice to the villagers who effected change Not through open opposition but through their everyday political behavior villagers individually and in small unorganized groups undermined collective farming and frustrated authorities efforts to correct the problems The Power of Everyday Politics is an authoritative account based on extensive research in Vietnam s National Archives and in the Red River Delta countryside of the formation of collective farms in northern Vietnam in the late 1950s their enlargement during wartime in the 1960s and 1970s and their collapse in the 1980s As Kerkvliet shows the Vietnamese government eventually terminated the system but not for ideological reasons Rather collectivization had become hopelessly compromised and was ultimately destroyed largely by the activities of villagers Decollectivization began locally among villagers themselves national policy merely followed The power of everyday politics is not unique to Vietnam Kerkvliet asserts He advances a theory explaining how everyday activities that do not conform to the behavior required by authorities may carry considerable political weight *Vietnam* Martin Gainsborough,2013-07-04
