Nationalbolschewismus In Deutschland:

Nationalbolschewismus in Deutschland 1918-1933 Otto Ernst Schüddekopf, 1972 Rechtsextreme Ideologien in Geschichte und Gegenwart Uwe Backes, 2003 Die aktuelle Auseinandersetzung mit dem Rechtsextremismus erschöpft sich oft in einer kurzatmigen Gegenwartsdiagnose Dieser Band stellt die Debatte auf eine historisch fundierte Grundlage Bedeutende Konstellationen und Problemstellungen Gewalteskalation nach dem Ersten Weltkrieg Neuer Nationalismus NS Ideologie Verschwörungsideologien Neue Rechte jugendliche Subkulturen der Neonazis und Skinheads zeigen Inhalt und Bedeutung rechtsextremer Ideologien vom deutschen Kaiserreich bis in die Gegenwart Die deutsche Entwicklung wird dabei in den europäischen Kontext italienischer Faschismus französischer Nationalismus zwischen den Kriegen Rechtsextremismus im heutigen Russland eingebettet Die Autoren fragen nach der Rolle antikommunistischer wie antisemitischer Feindbild Konstruktionen den Wechselwirkungen mit dem ideologischen Gegenpol und den strukturellen Gemeinsamkeiten der Extremismen Totalitarismen In epochenübergreifenden Betrachtungen werden Kontinuitäten und Diskontinuitäten sichtbar Das Buch will Impulse für eine differenziertere Auseinandersetzung mit den gegenwertigen Formen des Rechtsextremismus geben Reading Germany Gideon Reuveni, 2006 By closely examining the interaction between intellectual and material culture in the period before the Nazis came to power in Germany the author comes to the conclusion that contrary to widely held assumptions consumer culture in the Weimar period far from undermining reading used reading culture to enhance its goods and values Reading material was marked as a consumer good while reading as an activity raising expectations as it did influenced consumer culture Consequently consumption contributed to the diffusion of reading culture while at the same time a popular reading culture strengthened consumption and its values Gideon Reuveni is Director of the Centre for German Jewish Studies at the University of Sussex He is the co editor of The Economy in Jewish History Berghahn 2010 and several other books on different aspects of Jewish history Presently he is working on a book on consumer culture and the making of Jewish identity in Europe **Visions and Ideas of Europe during the First World War** Matthew D'Auria, Jan Vermeiren, 2019-08-02 Given the destruction and suffering caused by more than four years of industrialised warfare and economic hardship scholars have tended to focus on the nationalism and hatred in the belligerent countries holding that it led to a fundamental rupture of any sense of European commonality and unity It is the central aim of this volume to correct this view and to highlight that many observers saw the conflict as a European civil war and to discuss what this meant for discourses about Europe Bringing together a remarkable range of compelling and highly original topics this collection explores notions images and ideas of Europe in the midst of catastrophe Germany's New Right as Culture and Politics R. Woods, 2007-01-10 This is the first full length study in English of the New Right in Germany and it breaks new ground by considering the New Right as a political and a cultural movement The book examines the often contradictory motives that feed into New Right political pronouncements and explores the cultural thinking that feeds into extreme political

commitment **The Thanks of the Fatherland** James M. Diehl, 2000-11-09 An account of the problems facing German veterans after WWII and the ways in which they were addressed in the decade following Germany's defeat The primary focus is on the major pieces of veterans legislation passed in the early years of the German Federal Republic Historical context is provided by the first two chapters and the conclusion which compares and contrasts the fate of veterans and their sociopolitical impact on German society following the two world wars Originally published in 1993 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Germany: 1789-1933* Heinrich August Winkler, 2006 Vivid succinct and highly accessible Heinrich Winkler's magisterial history of modern Germany offers the history of a nation and its people through two turbulent centuries It is the story of a country that while always culturally identified with the West long resisted the political trajectories of its neighbours This first volume of two begins with the origins and consequences of the medieval myth of the Reich which was to experience a fateful renaissance in the twentieth century and ends with the collapse of the first German democracy Winkler offers a brilliant synthesis of complex events and illuminates them with fresh insights He analyses the decisions that shaped the country's triumphs and catastrophes interweaving high politics with telling vignettes about the German people and their own self perception With a forthcoming second volume to take the story up to reunification in 1990 Germany The Long Road West will be welcomed by scholars students and anyone wishing to understand this most complex and contradictory of countries from back cover

in this newspaper How could the Germans seemingly among the most cultured people in Europe hand over their fate to the Nazis As this book demonstrates Der Angriff had much to do with the rise of National Socialism in Berlin and the cataclysmic results

A History of Fascism, 1914-1945 Stanley G. Payne, 1996-01-01 A History of Fascism is an invaluable sourcebook offering a rare combination of detailed information and thoughtful analysis It is a masterpiece of comparative history for the comparisons enhance our understanding of each part of the whole The term fascist used so freely these days as a pejorative epithet that has nearly lost its meaning is precisely defined carefully applied and skillfully explained The analysis effectively restores the dimension of evil Susan Zuccotti The Nation A magisterial wholly accessible engaging study Payne defines fascism as a form of ultranationalism espousing a myth of national rebirth and marked by extreme elitism mobilization of the masses exaltation of hierarchy and subordination oppression of women and an embrace of violence and war as virtues Publishers Weekly

German Intellectuals and the Challenge of Democratic Renewal Sean A. Forner, 2017-03-23 This book examines how democracy was rethought in Germany in the wake of National Socialism the Second World War and the Holocaust Focusing on a loose network of public intellectuals in the immediate postwar years Sean Forner traces their attempts to reckon with the experience of Nazism and scour Germany's ambivalent political and cultural traditions for materials with which to build a better future In doing so he reveals they formulated an internally variegated but distinctly participatory vision of democratic renewal a paradoxical

counter elitism of intellectual elites Although their projects ran aground on internal tensions and on the Cold War their commitments fueled critique and dissent in the two postwar Germanys during the 1950s and thereafter The book uncovers a conception of political participation that went beyond the limited possibilities of the Cold War era and influenced the political struggles of later decades in both East and West

The Rise and Fall of Weimar Democracy Hans Mommsen, 2017-11-01

In this definitive analysis of the Weimar Republic Hans Mommsen surveys the political social and economic development of Germany between the end of World War I and the appointment of Adolf Hitler as chancellor in 1933 His assessment of the German experiment with democracy challenges many long held assumptions about the course and character of German history Mommsen argues persuasively that the rise of totalitarianism in Germany was not inevitable but was the result of a confluence of specific domestic and international forces As long as France and Britain exerted pressure on the new Germany after World War I the radical Right hesitated to overthrow the constitution But as international scrutiny decreased with the recognition of the legitimacy of the Weimar regime totalitarian elements were able to gain the upper hand At the same time the world economic crisis of the early 1930s with its social and political ramifications further destabilized German democracy This translation of the original German edition published in 1989 brings the work to an English speaking audience for the first time

The Conservative Revolution in the Weimar Republic Roger Woods, 1996-03-25

Die Literatur der »Konservativen Revolution« Wojciech Kunicki, Natalia Źarska, Krzysztof Źarski, 2021-11-15

Um die Rolle der Literatur in der Konservativen Revolution möglichst vielseitig zu beleuchten gliedert sich der Band in vier Teile Im ersten Teil werden die literarischen Muster und Vordenker der Konservativen Revolution untersucht Im zweiten Teil wird gefragt welche sprachlichen und rhetorischen Neuproduktionen sich in den Schriften der Konservativen Revolution entdecken lassen Der dritte Teil geht den persönlichen Kontakten dem schriftlich dokumentierten Gedankenaustausch sowie den gemeinsam realisierten Publikationsprojekten nach Der vierte Teil widmet

sich schließlich der Rezeption des Gedankengutes der Konservativen Revolution nach 1945 Fascists and Conservatives Martin Blinkhorn, 2012-11-12 First published in 1990 During the last twenty years prodigious scholarly effort has gone into the study of fascism and the right in twentieth century Europe Quite apart from the study of particular fascist and national socialist movements and of individual right wing regimes Fascist Italy the Third Reich Franco's Spain etc scholars have striven to locate the essential nature of fascism to determine what is distinctive about its ideas programmes policies and support to identify what if anything differentiates it from other forms of rightism and to decide whether a satisfactory definition of fascism can be arrived at This volume is intended to assist the further consideration of these and related problems Doing Medicine Together Susan Gross Solomon, 2006-01-01 Analyzes aspects of the German Russian collaboration often overlooked by students of cross national science including the choice of friends across borders the activities of scientific entrepreneurs the tensions between bilateral and international science and the migration of scientists Of the many interwar connections between Germany and Russia one of the most unusual and least explored is medicine and public health Between 1922 and 1932 with high level political support and government funding Soviet and German physicians and public health specialists collaborated in joint research expeditions published joint articles launched a bilingual journal and established joint research institutions Surprisingly students of Soviet German relations have all but ignored this medical collaboration while historians of science have treated it as political history an exercise in cultural diplomacy designed to mitigate the impact of the post war exclusion of both nations from the international science The contributors to this volume who come from Germany Russia Britain the United States and Canada depart from the traditional approach to the subject Drawing on previously inaccessible archival materials the authors move beyond politics to examine the impact of this collaboration on scientific activity *Paper and Iron* Niall Ferguson, 2002-11-07 Few economic events have had a more profound or enduring impact than the German hyperinflation of 1923 still remembered popularly as a root cause of Hitler's rise to power Yet many historians have argued that inflationary policies were on balance advantageous to post 1918 Germany both boosting growth and helping to reduce reparations The scholarly consensus is that there was no viable alternative to inflation In *Paper and Iron* Niall Ferguson takes a different view He argues that inflation was indeed an economic and political disaster and further that there were alternative economic policies which could have stabilised the German currency in 1920 To explain why these were not adopted he points to long term defects in the political institutions of the Reich which went back as far as the 1890s and which persisted beyond 1918 The book therefore reveals the Wilhelmine origins of Weimar's failure as well as casting light on the origins of the Third Reich
