Nationalism and Development in Africa James Smoot Coleman,1994 As a result of his work Coleman has been recognized by Africanist scholars of diverse ideological persuasions in all parts of the world as a mentor and model

Nationalism and Development in Africa James S. Coleman, 2023-04-28 James Smoot Coleman was the leading theorist of his time in African political studies His work fused liberal democratic idealism and scientific realism These essays represent the evolution of his thought from deep insight into African nationalism to a refined theory of modernization The collection is an indispensable contribution to the intellectual history of comparative African politics essential to scholars and others who grapple with problems in African development James Smoot Coleman was the leading theorist of his time in African political studies His work fused liberal democratic idealism and scientific realism These essays represent the evolution of his thought from deep insight into African nationalism to a r **International Development** Anna Lanoszka, 2025-07-09 International Development Strategies and Legacies of Socio Economic Development examines the multifaceted challenges and strategies underlying socio economic progress in a globally interconnected world Grounded in a thorough historical and theoretical framework this book explores the evolution of developmental strategies from post colonial challenges the growing influence of international organizations and the role of state policies to the impacts of global market integration and demands for environmental sustainability It scrutinizes the effectiveness of international organizations and foreign aid agencies the resilience of local strategies and the persistent disparities shaped by historical legacies extractive and inclusive state institutions deficit of individual rights systemic poverty gender inequality armed conflicts environmental hazards and food insecurity Through case studies and document driven insights it highlights the intersection of institutional frameworks economic imperatives and human agency in shaping developmental outcomes By integrating environmental and sustainability considerations with economic strategies the book underscores the necessity of inclusive policies that address structural barriers and promote human centered development This new edition has been thoroughly updated to include material on decolonization the various effects of the Covid 19 pandemic gender and sexual orientation based discrimination climate change migration and economic insecurity With a multi disciplinary approach taking into account politics international relations economics sociology cultural studies and the history of development this book is an invaluable resource for students and scholars as well as policy makers and practitioners working and researching in those fields Traditional Leadership and Democratisation in Southern Africa Sandra Düsing, 2002 What are the impacts of ethnically based traditional political institutions on democratic state and nation building in Southern Africa and how do heterogeneous sources of legitimacy affect the prospects of long term democratic regime consolidation What are the impacts of traditionalism employed for purposes of party political mobilization An indicator for the political influence of traditional leadership in Southern Africa is the fact that a considerable number of democratically elected politicians in high office originate from aristocratic families

representing hereditary traditional leadership structures for centuries This is evident for the charismatic founding president of the new South Africa Nelson Mandela as well as for his adversary the prime minister in office Mangosuthu Buthelezi The careful reconsideration of this state behind the state has been identified as crucial in this study to make any realistic assessments of the prospects for sustainable democratization in Southern African countries in the near future African Diaspora Isidore Okpewho, Carole Boyce Davies, Ali Al'Amin Mazrui, 2001-11-09 This book examines the character of New World black cultures and their relationships with the plural societies within which they function This volume seeks a balanced look at the fate of the African presence in Western society as well as insights into the sources of periodic conflict between blacks and others R sum de l diteur Africa and U.S. National Interests Frances K. Scott, 1997 Modern Uganda Richard J. Reid, 2017-02-17 This book is the first major study in several decades to consider Uganda as a nation from its precolonial roots to the present day Here Richard J Reid examines the political economic and social history of Uganda providing a unique and wide ranging examination of its turbulent and dynamic past for all those studying Uganda s place in African history and African politics Reid identifies and examines key points of rupture and transition in Uganda s history emphasising dramatic political and social change in the precolonial era especially during the nineteenth century and he also examines the continuing repercussions of these developments in the colonial and postcolonial periods By considering the ways in which historical culture and consciousness has been ever present in political discourse art and literature and social relationships Reid defines the true extent of Uganda's viable national history Sustainable Development in Africa Walter Leal Filho, Rudi Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies Political Culture, Change, and Security Policy in Nigeria Kalu Kalu, 2018-03-15 Demonstrating how political culture facilitates or distorts political preferences and political outcomes this

book explores how the historical development of social conditions and the current social structures shape understandings and constrain individual and collective actions within the Nigerian political system Political Culture Change and Security Policy examines the extent to which specific norms and socialization processes within the political and civic culture abet corruption or the proclivity to engage in corrupt practices and how they help reinforce political attitudes and civic norms that have the potential to undermine the effectiveness of government It also delineates specific doctrinal models and strategic framework essential to the development and implementation of Nigeria's national security policy as well as innovative approaches to national development planning Professor Kalu N Kalu offers an exhaustive study that integrates several quantitative models in addressing a series of theoretical and empirical questions that inform historical and contemporary issues of the Nigerian project The general premise is that it is not enough to simply highlight the problems of the state and address the what question we must also address the why and how questions that drive political change policy preferences and competing political outcomes Western Primitivism Aidan Campbell, 1997 It is an old racist adage that Africans have just come down from the trees So why are young Europeans and Americans climbing back up them Primitivism has always had a place in flaming the West's conception of Africa whether in the form of the Noble Savage or crazed cults such as the Mau Mau If not everyone is quite ready to live in a tree house the primitivism viewpoint has still made major inroads into modern society NGO volunteers are central to the way the world relates to Africa these days Why are these educated and motivated young people from the West predisposed to defining Africans ethnically Privileging the Primitive argues that the popularity of modern primitivism in the West is highly relevant to the current recasting of African ethnicity Some scholars argue that ethnicity is a relapse into primordialism while others hold it be a more modern fluid entity. The notion that ethnicity can be a moral code is growing Historians argue over whether ethnicity is purely a product of African culture a political category invented by colonial administrators or a hybrid that mixes the two Aidan Campbell locates ethnicity s derivation in our changing perceptions of Western society and in particular in the rehabilitation of the West s jaded political A Constitutional History of the Kingdom of Eswatini (Swaziland), 1960-1982 Hlengiwe Portia institutions Dlamini, 2019-09-25 Swaziland recently renamed Eswatini is the only nation state in Africa with a functioning indigenous political system Elsewhere on the continent most departing colonial administrators were succeeded by Western educated elites In Swaziland traditional Swazi leaders managed to establish an absolute monarchy instead qualified by the author as benevolent and people centred a system which they have successfully defended from competing political forces since the 1970s This book is the first to study the constitutional history of this monarchy It examines its origins in the colonial era the financial support it received from white settlers and apartheid South Africa and the challenges it faced from political parties and the judiciary before King Sobhuza II finally consolidated power in 1978 with an auto coup d tat As Hlengiwe Dlamini shows the history of constitution making in Swaziland is rich complex and full of overlooked insight for historians of Africa
