Nationalism and New States in Africa from about 1935 to the Present Ali Al'Amin Mazrui, Michael Tidy, 1984

Nationalism and New States in Africa, 1984 **Nationalism and the State** John Breuilly, 1994-02 Since its publication this important study has become established as a central work on the vast and contested subject of modern nationalism Placing historical evidence within a general theoretical framework John Breuilly argues that nationalism should be understood as a form of politics that arises in opposition to the modern state In this updated and revised edition he extends his analysis to the most recent developments in central Europe and the former Soviet Union He also addresses the current debates over the meaning of nationalism and their implications for his position Breuilly challenges the conventional view that nationalism emerges from a sense of cultural identity Rather he shows how elites social groups and foreign governments use nationalist appeals to mobilize popular support against the state Nationalism then is a means of creating a sense of identity This provocative argument is supported with a wide ranging analysis of pertinent examples national opposition in early modern Europe the unification movement in Germany Italy and Poland separatism under the Hapsburg and Ottoman empires fascism in Germany Italy and Romania post war anti colonialism and the nationalist resurgence following the breakdown of Soviet power Still the most comprehensive and systematic historical comparison of nationalist politics *Nationalism and the State* is an indispensable book for anyone seeking to understand modern politics Fighting for the Enemy Brandon Palmer, 2013-07-15 *Fighting for the Enemy* explores the participation of Koreans in the Japanese military and supporting industries before and during World War II first through voluntary enlistment and eventually through conscription Contrary to popular belief among Korean nationalists this involvement was not entirely coerced Brandon Palmer examines this ambiguous situation in the context of Japan's long term colonial effort to assimilate Koreans into Japanese sociopolitical life and documents the many ways Koreans short of openly resisting avoided full cooperation with Japanese war efforts Much media attention has been given to Japan's exploitation of comfort women in Korea and elsewhere in East Asia during the colonial period but until now there has been no extended objective analysis of the exploitation of the thousands of young Korean men who served in Japan's military and auxiliary occupations *The Palgrave Handbook of African Colonial and Postcolonial History* Martin S. Shanguhya, Toyin Falola, 2018-01-28 This wide ranging volume presents the most complete appraisal of modern African history to date It assembles dozens of new and established scholars to tackle the questions and subjects that define the field ranging from the economy the two world wars nationalism decolonization and postcolonial politics to religion development sexuality and the African youth experience Contributors are drawn from numerous fields in African studies including art music literature education and anthropology The themes they cover illustrate the depth of modern African history and the diversity and originality of lenses available for examining it Older themes in the field have been treated to an engaging re assessment while new and emerging themes are situated as the book's core

strength The result is a comprehensive vital picture of where the field of modern African history stands today **Colonial Mentality in Africa** Nkuzi Michael Nnam,2007-03-27 Intended for a broad audience Colonial Mentality in Africa explores the lingering effects of colonization in present day Africa Despite the independence of all African nations from their former colonizers mental slavery still persists This new work explores the social climate of Africa and the thriving colonial mentality The book explores issues such as matriarchy religion tradition and values law the influence of Islam and government

Colonial Ambivalence, Cultural Authenticity, and the Limitations of Mimicry in French-ruled West Africa, 1914-1956 James Eskridge Genova,2004 Colonial Ambivalence Cultural Authenticity and the Limitations of Mimicry in French Ruled West Africa 1914 1956 offers an innovative and provocative reassessment of the history and legacies of French colonial rule in West Africa between the First World War and the late 1950s Making critical use of postcolonial and cultural theory James E Genova argues that the colonizers and the colonized were locked in a struggle for authority increasingly structured by competing notions of what it meant to be French or African This book breaks new ground by demonstrating the centrality of the cultural question in the imperial encounters between France and West Africa It maps the emergence of the French educated elite as a social class in French West Africa as a window into the complex relationship between agency and structural context in the making of history A disjunction developed between decolonization and liberation in the colonial liaison of France and West Africa that left colonizers and colonized trapped in a neocolonial cultural framework actualizing Frantz Fanon s deepest fears about the postcolony **Creole Language, Democracy, and the Illegible State in Cabo Verde**

Abel Djassi Amado,2023-07-10 Creole Language Democracy and the Illegible State in Cabo Verde uses Cabo Verde as a case study to critically examine the language and politics nexus in a small Creole island state The current sociolinguistic condition of the country is that of diglossia whereby Portuguese assumes the language of power prestige and high culture at the expense of the mother tongue of its citizens the Cabo Verdean language locally known as Kriolu The postcolonial diglossic language policy stands on both domestic and international factors Thus Abel Djassi Amado explores the country s language policy history since colonial times and discusses how Portugal s diplomacy grounded on language spread policy has significantly contributed to the secundarization of the mother tongue The ultimate consequence of the current sociolinguistic situation is the development and crystallization of the illegible state as a large segment of the population cannot comprehend the processes operations and procedures of power carried out in a language they do not understand The illegible state has grave consequences on political participation and the overall quality of democracy **The African Charter on Human and Peoples' Rights Volume 1**

Nat Rubner,2023 Landmark study of the African Charter on Human and Peoples Rights that positions it within the African Lives Matter struggle to assert an African identity rather than as simply a human rights document *Diplomacy and Borderlands* Katharina Coleman,Markus Kornprobst,Annette Seegers,2019-10-28 This book examines Africa s internal and external relations by focusing on three core concepts orders diplomacy and borderlands The

contributors examine traditional and non traditional diplomatic actors and domestic regional continental and global orders They argue that African diplomats profoundly shape these orders by situating themselves within in between spaces of geographical and functional orders It is in these borderlands that agency despite all kinds of constraints flourishes Chapters in the book compare domestic orders to regional ones and then continental African orders to global ones They deal with a range of functional orders including development international trade human rights migration nuclear arms control peacekeeping public administration and territorial change By focusing on these topics the volume contributes to a better understanding of African international relations sharpens analyses of ordering processes in world politics and adds to our comprehension of how diplomacy shapes orders and vice versa The studies collected here show a much more nuanced picture of African agency in African and international affairs and suggest that African diplomacy is far more extensive than is often assumed This book will be of much interest to students of diplomacy studies African politics and International Relations

Zoogah,2022-02-28 Ethnos Oblige Theory and Evidence presents revelatory findings on the drivers of ethnic identity and related contingencies as well as suggestions for organizational implications for employee relations organization behavior institutional entrepreneurship and overall business strategy *Ngugi's Novels And African History* James Ogude,1999-07-20 Ngugi wa Thiong o is one of Africa s most controversial and renowned literary figures This comprehensive study explores the relationship between history and narrative in his novels , **International Human Rights Law in Africa** Frans Viljoen,2012-03-29 This book provides a comprehensive and analytical overview of human rights law in Africa It examines the institutions norms and processes for human rights realization provided for under the United Nations system the African Union and sub regional economic communitites in Africa and explores their relationship with the national legal systems of African states Since the establishment of the African Union in 2001 there has been a proliferation of regional institutions that are relevant to human rights in Africa These include the Pan African Parliament the Peace and Security Council the Economic Social and Cultural Council and the African Peer Review Mechanism of the New Partnership for Africa s Development This book discusses the links between these institutions It further examines the case law stemming from Africa most important human rights instrument the African Charter on Human and Peoples Rights which entered into force on 21 October 1986 This new edition contains a new chapter on the African Children s Rights Committee as well as full coverage of new developments and instruments such as the Convention on the Rights of Persons with Disabilities the Convention on Enforced Disappearances and the African Charter on Democracy Elections and Governance Three cross cutting themes are explored throughout the book national implementation and enforcement of international human rights law legal and other forms of integration and the role of human rights in the eradication of poverty The book also provides an introduction to the relevant human rights concepts *The Ties that Divide* Stephen M. Saideman,2001 Ethnic conflicts have created crises within NATO and between NATO and Russia produced massive flows of refugees destabilized neighboring

countries and increased the risk of nuclear war between Pakistan and India Interventions have cost the United States the United Nations and other actors billions of dollars While scholars and policymakers have devoted considerable attention to this issue the question of why states take sides in other countries ethnic conflicts has largely been ignored Most attention has been directed at debating the value of particular techniques to manage ethnic conflict including partition prevention mediation intervention and the like However as the Kosovo dispute demonstrated one of the biggest obstacles to resolving ethnic conflicts is getting the outside actors to cooperate This book addresses this question Saideman argues that domestic political competition compels countries to support the side of an ethnic conflict with which constituents share ethnicities He applies this argument to the Congo Crisis the Nigerian Civil War and Yugoslavia's civil wars He then applies quantitative analyses to ethnic conflicts in the 1990s Finally he discusses recent events in Kosovo and whether the findings of these case studies apply more broadly

The Spirit of the Laws in Mozambique Juan Obarrio, 2014-10-30 Mozambique has been hailed as a success story by the international community which has watched it evolve through a series of violent political upheavals from colonialism through socialism to its current democracy As Juan Obarrio shows however this view neglects a crucial element in Mozambique's transition to the rule of law the reestablishment of traditional chieftainship and customs entangled within a history of colonial violence and civil war Drawing on extensive historical records and ethnographic fieldwork he examines the role of customary law in Mozambique to ask a larger question what is the place of law in the neoliberal era in which the juridical and the economic are deeply intertwined in an ongoing state of structural adjustment Having made the transition from a people's republic to democratic rule in the

1990s Mozambique offers a fascinating case of postwar reconstruction economic opening and transitional justice one in which the customary has played a central role Obarrio shows how its sovereignty has met countless ambiguities within the entanglements of local community nation state and international structures The postcolonial nation state emerges as a maze of entangled jurisdictions Ultimately he looks toward local rituals and relations as producing an emergent kind of citizenship in Africa which he dubs customary citizenship forming not a vestige of the past but a yet ill defined political future

National Liberation Movements in Office Elena Torreguitar, 2009 Originally presented as the author's thesis Ph D Boston University 2008 **Canada's Global Villagers** Ruth Compton Brouwer, 2013-09-27 Established in 1961 the same year as the US Peace Corps Canadian University Service Overseas CUSO became the first Canadian NGO to undertake development work from a secular stance and in a context of rapid decolonization Drawing on extensive research and interviews Ruth Compton Brouwer tells the story of a group of young women and men who confronted the complexities of underdevelopment in countries such as India and Nigeria and who overcame their initial naiveté as they sought to fit into their host communities Later as returned volunteers they brought unique skills to the Canadian International Development Agency CIDA and other development organizations and a new level of global consciousness and cultural diversity to Canadian society *The Dynamics of Global Dominance* David B. Abernethy, 2000-01-01 For centuries Europeans ruled vast portions of the world as inhabitants of west European countries sailed to distant continents and took possession of territories whose societies and economies they set out to change How and why did these farflung empires form persist and finally fall David Abernethy addresses these questions in this magisterial survey of the rise and decline of European overseas empires Abernethy identifies broad patterns across time and space interweaving them with fascinating details of cross cultural encounters He argues that relatively autonomous profit making religious and governmental institutions enabled west European countries to launch triple assaults on other societies Indigenous people also played a role in their eventual subjugation by inviting Europeans to intervene in their power struggles Abernethy finds that imperial decline was often the unanticipated result of wars among major powers Postwar crises over colonies unmet expectations empowered movements that eventually took territories as diverse as the thirteen British North American colonies Spain's South American possessions India the Dutch East Indies Vietnam and the Gold Coast to independence In advancing a theory of imperialism that includes European and non European actors and in analyzing economic social and cultural as well as political dimensions of empire Abernethy helps account for Europe's long occupation of global center stage He also sheds light on key features of today's postcolonial world and the legacies of empire concluding with an insightful approach to the moral evaluation of colonialism
