Nationalism In Southeast Asia:

Nationalism in Southeast Asia Nicholas Tarling, 2004-08-02 Nationalism in Southeast Asia seeks a definition of nationalism through examining its role in the history of southeast Asia a region rarely included in general books on the topic By developing such a definition and testing it out Tarling hopes at the same time to make a contribution to southeast Asian historiography and to limit its ghettoization Tarling considers the role of nationalism in the nation building of the post colonial phase and its relationship both with the democratic aspirations associated with the winning of independence and with the authoritarianism of the closing decades of the 20th century

State and Sub-State Nationalism in Southeast Asia Jacques Bertrand, 2024-12-31 Nationalism is a political phenomenon with deep roots in Southeast Asia Yet state attempts to create homogenous nations met with resistance This Element focuses on understanding the rise and subsequent ebbing of sub state nationalist mobilization in response to state nationalism Two factors allowed sub state nationalist movements to be formed and persist first state nationalisms that were insufficiently inclusive second the state s use of authoritarian tools to implement its nationalist agenda But Southeast Asian states were able to reduce sub state nationalist mobilization when they changed their policies to meet two conditions i some degree of explicit recognition of the distinctiveness of groups ii institutional flexibility toward regional local territorial units to accommodate a high degree of group self governance The Element focuses on four states in the region namely Indonesia the Philippines Thailand and Myanmar

The Spectre of Comparisons Benedict Anderson, 1998-09-17 The Spectre of Comparisons contains important theoretical and historical considerations about the nature of nationalism the prospects for the Left in the so called New World Disorder

Religion and Nationalism in Southeast Asia Joseph Chinyong Liow, 2016-08-19 Religion and nationalism are two of the most potent and enduring forces that have shaped the modern world Yet there has been little systematic study of how these two forces have interacted to provide powerful impetus for mobilization in Southeast Asia a region where religious identities are as strong as nationalist impulses At the heart of many religious conflicts in Southeast Asia lies competing conceptions of nation and nationhood identity and belonging and loyalty and legitimacy In this accessible and timely study Joseph Liow examines the ways in which religious identity nourishes collective consciousness of a people who see themselves as a nation perhaps even as a constituent part of a nation but anchored in shared faith Drawing on case studies from across the region Liow argues that this serves both as a vital element of identity and a means through which issues of rights and legitimacy are understood

A Modern History of

Southeast Asia Clive J. Christie,1996 This book considers the overall decolonization of Southeast Asia and shows how despite the great diversity of the region issues of identity religion and loyalism affected the newly formed nation states in remarkably similar ways **Government and Nationalism in Southeast Asia** Rupert Emerson,1976

Underdevelopment and Economic Nationalism in Southeast Asia Frank H. Golay,1969 **A History of Modern Southeast Asia** John Sturgis Bastin,Harry Jindrich Benda,1977 *Imperial Policy and Southeast Asian Nationalism* Hans Antlov,Stein Tonnesson,2013-10-08 Traditionally the tumultuous period 1930 50 in South East Asia has been viewed as a dichotomy of European vs Asian or imperialist vs nationalist This highly acclaimed volume presents another triangular perspective and challenges established wisdom about the period **The Spectre of Comparisons** ,2000 **Government and Nationalism in Southeast Asia** Lennox Algernon Mills,1942 Nationalism and Revolution in Indonesia George McT. Kahin,2018-08-06 Professor Kahin s classic 1952 study reprinted for a contemporary audience An immediate vibrant portrait of a nation in the age of revolution featuring interviews with many of the chief players With new illustrations and a new introduction by Benedict R O G Anderson **Imperial Alchemy** Anthony Reid,2009-11-19 The mid twentieth century marked one of the greatest watersheds of Asian history when a range of imperial constructs were declared to be nation states either by revolution or decolonisation Nationalism was the great alchemist turning the base metal of empire into the gold of nations To achieve such a transformation from the immense diversity of these Asian empires required a different set of forces from those that Europeans had needed in their transitions from multi ethnic empires to culturally homogeneous nations In this book Anthony Reid explores the mysterious alchemy by which new political identities have been formed Taking Southeast Asia as his example Reid tests contemporary theory about the relation between modernity nationalism and ethnic identity Grappling with concepts emanating from a very different European experience of nationalism Reid develops his own typology to better fit the formation of political identities such as the Indonesian Malay Chinese Acehnese Batak and Kadazan *Regionalism in Southeast Asia* Nicholas Tarling,2006-09-27 This innovative text provides the reader with an historical analysis of Southeast Asia from the unusual perspective of regionalism
