Houdon,2003-07-15 Jean Antoine Houdon 1741 1826 has long been recognized as the greatest European portrait sculptor of
the late eighteenth century flourishing during both the American and French Revolutions as well as during the Directoire and
Empire in France Whether sculpting a head of state an intellectual or a young child Houdon had an uncanny ability to

Enlightenment figures like Diderot Rousseau d Alembert and Voltaire are based on works by Houdon More than mere
representations these sculptures provide us fascinating intimate glimpses into the very core of who these figures were
Houdon s genius animated even his less illustrious subjects like his portraits of his family and friends and filled his sculptures
of children with delicacy and freshness Accompanying the images of Houdon s masterworks are four insightful essays that
discuss Houdon s views on art based in part on a newly discovered manuscript written by the artist as well as his prominence
in the highly varied cultures of eighteenth century France Germany and Russia From aristocrats to revolutionaries actors to
philosophers Houdon s amazingly vivid portraits constitute the visual record of the Enlightenment and capture the true spirit
of a remarkable age Jean Antoine Houdon finally gives these gorgeous works their due **Bibliographic Guide to Art and**
